Revolution Counter Revolution And Union Ireland In The 1790s:

Revolution, Counter-Revolution and Union Jim Smyth, 2000 The essays in this collection focus on United Irish propaganda and organisation before and during the 1798 rebellion **The Politics of Consumption in Eighteenth-Century Ireland**

Martyn J. Powell, 2005-12-16 This book explores the politicization of consumer goods in eighteenth century Ireland Moving beyond tangible items purchased by consumers it examines the political manifestations of the consumption of elite leisure activities entertainment and display and in doing so makes a vital contribution to work on the cultural life of the Protestant Ascendancy As with many other areas of Irish culture and society consumption cannot be separated from the problems of Anglo Irish relations and therefore an appreciation of these political overtones is vitally important *Political Thought in Ireland 1776-1798* Stephen Small, Stephen John Small, 2002-11-07 This is the first comprehensive analysis of late eighteenth century Irish patriot thought and its development into 1790s radical republicanism The book is a history of the rich political ideas and languages that emerged from the tumultuous events and colourful individuals of this pivotal period in Irish history Patriots radicals and republicans played key roles in the movements for free trade legislative independence parliamentary reform Catholic relief and independence from Britain and many of their ideas helped precipitate the rebellion in 1798 Stephen Small explains the ideological background to these issues sheds new light on the origins of Irish republicanism and places late eighteenth century Irish political thought in the wider context of British Atlantic and European ideas Dr Small argues that Irish patriotism radicalism and republicanism were constructed out of five key political languages Protestant superiority ancient constitutionalism commercial grievance classical republicanism and natural rights These political languages which were Irish dialects of languages shared with the English speaking and European world combined in the late 1770s to construct the classic expression of Irish patriotism This patriotism was full of contradictions containing the seeds of radical reform Catholic emancipation and republican separatism as well as a defence of Protestant Ascendancy Over the next two decades the American and French Revolutions the reform movement popular politicization Ascendancy reaction and Catholic political revival disrupted and transformed these languages causing the fragmentation of a broad patriot consensus and the emergence from it of radicalism and republicanism These developments are explained in terms of tensions and interactions between Protestant assumptions of Catholic inferiority the increasing popularity of natural rights and the enduring centrality of classical republican concepts of virtue to all types of patriot thought **Protestant Millennialism, Evangelicalism and Irish Society, 1790-2005**

C. Gribben, A. Holmes, 2006-07-10 This volume documents the evolution and impact of one of the most enduring sources and symbols of sectarian conflict in Ireland Protestant millennialism The volume explores new sources and offers new conclusions setting a new research agenda and emphasizing the vitality of religious discourse in Irish studies

Outrage in the Age of Reform Jay R. Roszman, 2022-09-22 In the 1830s as Britain navigated political reform to stave off instability and social unrest Ireland became increasingly influential in determining British politics This book is the first to

chart the importance that Irish agrarian violence known as outrages played in shaping how the decade of reform unfolded It argues that while Whig politicians attempted to incorporate Ireland fully into the political union to address longstanding grievances Conservative politicians and media outlets focused on Irish outrages to stymie political change Jay R Roszman brings to light the ways that a wing of the Conservative party including many Anglo Irish put Irish violence into a wider imperial framework stressing how outrages threatened the Union and with it the wider empire Using underutilised sources the book also reassesses how Irish people interpreted everyday agrarian violence in pre Famine society suggesting that many people perpetuated outrages to assert popularly conceived notions of justice against the imposition of British sovereignty

Catholics of Consequence Ciaran O'Neill (Lecturer in history), 2014 For as far back as school registers can take us the most prestigious education available to any Irish child was to be found outside Ireland *Catholics of Consequence* traces for the first time the transnational education careers and lives of more than two thousand Irish boys and girls who attended Catholic schools in England France Belgium and elsewhere in the second half of the nineteenth century There was a long tradition of Irish Anglicans Protestants and Catholics sending their children abroad for the majority of their formative years However as the cultural nationalism of the Irish revival took root at the end of the nineteenth century Irish Catholics who sent their children to school in Britain were accused of a pro Britishness that crystallized into still recognisable terms of insult such as West Briton Castle Catholic Squireen and Seoinin This concept has an enduring resonance in Ireland but very few publications have ever interrogated it *Catholics of Consequence* endeavours to analyse the education and subsequent lives of the Irish children that received this type of transnational education It also tells the story of elite education in Ireland where schools such as Clongowes Wood College and Castleknock College were rooted in the continental Catholic tradition but also looked to public schools in England as exemplars Taken together the book tells the story of an Irish Catholic elite at once integrated and segregated within what was then the most powerful state in the world

Regency Spies Sue Wilkes, 2015-11-30 Sue Wilkes reveals the shadowy world of Britain's spies rebels and secret societies from the late 1780s until 1820 Drawing on contemporary literature and official records Wilkes unmasks the real conspirators and tells the tragic stories of the unwitting victims sent to the gallows In this age of Revolutions when the French fought for liberty Britain's upper classes feared revolution was imminent Thomas Paine's incendiary *Rights of Man* called men to overthrow governments which did not safeguard their rights Were Jacobins and Radical reformers in England and Scotland secretly plotting rebellion Ireland too was a seething cauldron of unrest its impoverished people oppressed by their Protestant masters Britain's governing elite could not rely on the armed services even Royal Navy crews mutinied over brutal conditions To keep the nation safe a war chest of secret service money funded a network of spies to uncover potential rebels amongst the underprivileged masses It had some famous successes dashing Colonel Despard friend of Lord Nelson was executed for treason Sometimes in the deadly game of cat and mouse between spies and their prey suspicion fell on the wrong men like

poets Wordsworth and Coleridge Even peaceful reformers risked arrest for sedition Political meetings like Manchester's Peterloo were ruthlessly suppressed and innocent blood spilt Repression bred resentment and a diabolical plot was born The stakes were incredibly high rebels suffered the horrors of a traitor's death when found guilty Some conspirators' secrets died with them on the scaffold The spy network had some famous successes like the discoveries of the Despard plot the Pentrich Rising and the Cato St conspiracy It had some notable failures too However sometimes the war on terror descended into high farce like the Spy Nozy affair in which poets Wordsworth and Coleridge were shadowed by a special agent

Sources in Irish Art Fintan Cullen, 2000 The publication of these texts in a single volume enables the reader to create useful historical comparisons as well as facilitating the careful examination of historical documents *Sources in Irish Art* A Reader will be an ideal text for Irish Studies and relevant Art History courses both at undergraduate and postgraduate levels
