**The State versus the People** Matthew Rendle,2020-06-11 The State versus The People provides the first detailed account of the role of revolutionary justice in the early Soviet state Law has often been dismissed by historians as either unimportant after the October Revolution amid the violence and chaos of civil war or in the absence of written codes and independent judges little more than another means of violence alongside the secret police Cheka This is particularly true of the most revolutionary aspect of the new justice system revolutionary tribunals courts inspired by the French Revolution and established to target counter revolutionary enemies Yet the evidence put forward in this book paints a more complex picture The Bolsheviks invested a great deal of effort and scarce resources in building an extensive system of tribunals that spread across the country and operated within the military and the transport network At their peak hundreds of tribunals heard hundreds of thousands of cases every year Not all though ended in harsh sentences some were dismissed through lack of evidence others given a wide range of sentences and others still suspended sentences Instances of early release and amnesty were also common This book argues that law played a distinct and multi faceted role for the Bolsheviks Tribunals in particular stood at the intersection between law and violence offering various advantages to the Bolsheviks by strengthening state control providing a more effective means of educating the population about counter revolution and enabling a more flexible approach to punishing the state s enemies All of this challenges traditional understandings of the early Soviet state adding to our knowledge of the civil war and ultimately how the Bolsheviks held on to power

**Farewell to Arms** Rumela Sen,2021 How in the absence of institutional mechanisms do Maoist rebels in India

quit an ongoing insurgency without getting killed How do rebels give up arms and return to the same political processes that they had once sought to overthrow The question of weaning rebels away from extremist groups is highly significant in counterinsurgency and in the pacification of insurgencies In Farewell to Arms Rumela Sen goes to the rebels themselves and breaks down the protracted process of rebel retirement into a multi staged journey as the rebels see it She draws on several rounds of interviews with current and former Maoist rebels as well as security personnel administrators activists politicians and civilians in two conflict zones in North and South India The choice to quit an insurgency she finds depends on locally embedded informal exit networks The relative weakness of these networks in North India means that fewer rebels quit than in the South where more feel that they can disarm without getting killed Sen shows that these networks grow out of the grassroots civic associations in the gray zone of state insurgency interface Correcting the course for future policy Sen provides a new explanation of rebel retirement that will be essential to any policymaker or scholar working to end protracted insurgencies
