The Undermining of the Sandinista Revolution Gary Prevost, Harry E. Vanden, 2016-07-27 The Sandinista revolution brought dramatic social economic and political changes to Nicaragua in the 1980s but in the wake of the electoral defeat of the FSLN in 1990 the revolution has struggled to survive in the face of challenges from the Chamorro administration the US government and the International Monetary Fund Gains of the revolution in health care education Atlantic Coast autonomy agrarian reform and other areas have been systematically eroded However significant efforts have also been mounted especially in grass roots organizing and by women s organizations to protect the revolution s achievements Through a series of articles based on current research seven experts on contemporary Nicaragua draw a balance sheet on the gains of Sandinista revolution achieved by 1990 and assess the current status of the revolutionary project

Nicaragua's Other Revolution Michael Dodson, Laura Nuzzi O'Shaughnessy, 2000-11-09 The 1979 rebellion in Nicaragua was the first in modern Latin America to be carried out with the active participation and support of Christians Like all revolutions the Nicaraguan Revolution has provoked controversy and hostility and the Christian presence has been a focal point in the debate In this work Michael Dodson and Laura Nuzzi O'Shaughnessy offer a detailed study of the religious sources of the revolution set against the background of the revolutionary traditions of the United States Nicaragua s Other Revolution places the experience of the Nicaraguan Revolution in a historical framework that extends back to the Protestant Reformation and in an institutional framework that encompasses the whole of Nicaraguan politics Examining the broad process of religious change this work explores how that process interacted with the political struggles that culminated in the revolution Dodson and O'Shaughnessy conclude that the religious values and attitudes arising out of postconciliar renewal in the church contributed powerfully to demands for revolutionary change in Nicaragua In England and America the Protestant Reformation gave a tremendous boost to demands for democratic changes in society and politics This work shows that something similar happened in Catholic Central America in the post Medellin period Changes in religious thought and action were part of and served to reinforce and stimulate a wider movement for social and political change Without denying the importance of Marxism the authors demonstrate that other important influences are at work there Originally published in 1990 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

Sandinista Nicaragua's Resistance to US Coercion Héctor Perla, Jr, 2017-02-17 How was the Sandinista National Liberation Front FSLN of Nicaragua able to resist the Reagan

Administration's coercive efforts to rollback their revolution Hector Perla challenges conventional understandings of this conflict by tracing the process through which Nicaraguans both at home and in the diaspora defeated US aggression in a highly unequal confrontation. He argues that beyond traditional diplomatic military and domestic state policies a crucial element of the FSLN's defensive strategy was the mobilization of a transnational social movement to build public opposition to Reagan's policy within the United States thus preventing further escalation of the conflict. Using a contentious politics approach the author reveals how the extant scholarly assumptions of international relations theory have obscured some of the most consequential dynamics of the case. This is a fascinating study illustrating how supposedly powerless actors were able to constrain the policies of the most powerful nation on earth.

Revolution and Dictatorship Steven Levitsky, Lucan Way, 2024-10-29 Why the world's most resilient dictatorships are products of violent revolution. Revolution and Dictatorship explores why dictatorships born of social revolution such as those in China, Cuba, Iran, the Soviet Union, and Vietnam are extraordinarily durable even in the face of economic crisis, large scale policy failure, mass discontent, and intense external pressure. Few other modern autocracies have survived in the face of such extreme challenges. Drawing on comparative historical analysis, Steven Levitsky and Lucan Way argue that radical efforts to transform the social and geopolitical order trigger intense counterrevolutionary conflict which initially threatens regime survival but ultimately fosters the unity and state building that supports authoritarianism. Although most revolutionary governments begin weak, they challenge powerful domestic and foreign actors, often bringing about civil or external wars. These counterrevolutionary wars pose a threat that can destroy new regimes, as in the cases of Afghanistan and Cambodia. Among regimes that survive, however, prolonged conflicts give rise to a cohesive ruling elite and a powerful and loyal coercive apparatus. This leads to the downfall of rival organizations and alternative centers of power such as armies, churches, monarchies, and landowners, and helps to inoculate revolutionary regimes against elite defection, military coups, and mass protest, three principal sources of authoritarian breakdown. Looking at a range of revolutionary and nonrevolutionary regimes from across the globe, Revolution and Dictatorship shows why governments that emerge from violent conflict endure.

Modern Latin American Revolutions Eric Selbin, 2018-02-07 In contrast to previous studies that have centered on the institutionalization of revolution in Latin America and the Caribbean, Modern Latin American Revolutions, Second Edition, introduces the concept of consolidation of the revolutionary process: the efforts of revolutionary leaders to transform society and the acceptance by a significant majority of the population of the core of the social revolutionary project. As a result, the spotlight is on people, not structures, and transformation, not simply revolutionary transition. The second edition of this acclaimed book has been revised to include new information on the cases of Bolivia, Cuba, Nicaragua, and Grenada, assessing the extent to which each revolution was both institutionalized and consolidated. This edition also boasts expanded coverage on Che Guevara's visionary leadership and an all new section that addresses the future of revolution in Latin America and the Caribbean. Dr. Selbin argues that there is a

strong link between organizational leadership and the institutionalization process on the one hand and visionary leadership and the consolidation process on the other Particular attention is given to the ongoing revolutionary process in Nicaragua with an emphasis on the implications and ramifications of the 1990 electoral process A final chapter includes brief analyses of the still unfolding revolutionary processes in El Salvador and Peru

What Went Wrong? The Nicaraguan Revolution

Dan La Botz, 2016-09-07 This volume is a valuable re assessment of the Nicaraguan Revolution by a Marxist historian of Latin American political history It shows that the FSLN the Sandinistas with politics principally shaped by Soviet and Cuban Communism never had a commitment to genuine democracy either within the revolutionary movement or within society at large that the FSLN s lack of commitment to democracy was a key factor in the way that revolution was betrayed from the 1970s to the 1990s and that the FSLN s lack of rank and file democracy left all decision making to the National Directorate and ultimately placed that power in the hands of Daniel Ortega Pursuing his narrative into the present La Botz shows that once their would be bureaucratic ruling class project was defeated Ortega and the FSLN leadership turned to an alliance with the capitalist class
