Santaroga Barrier:

The Santaroga Barrier Frank Herbert, 2002-09-16 Santaroga seems to be nothing more than a prosperous farming community but there is something different about it It has no crime at all Outsiders find no houses for sale or rent in the valley and no one ever moves out Maybe Santaroga is the last outpost of American individualism Or maybe there is something extraordinary at work there something far more disturbing than anyone imagines *Worlds Apart* Carl Darryl Malmgren, 1991-07-22 Malmgren succeeds in formulating a typology of science fiction that will become a standard reference for some years to come Choice the most intelligently organized and effectively argued general study of SF that I have ever read Rob Latham SFRA Review required reading for its evenhanded overview of so much of the previous critical theoretical material devoted to science fiction American Book Review *Worlds Apart* provides a comprehensive theoretical model for science fiction by examining the worlds of science fiction and the discourse which inscribes them Malmgren identifies the basic science fiction types including alien encounters alternate societies and worlds and fantasy and examines the role of the reader in concretizing and interpreting these science fiction worlds CliffsNotes on Herbert's Dune & Other Works L. David Allen, 1999-03-03 The trusted experts at CliffsNotes delve into one of the monuments of modern science fiction and more Frank Herbert novels and short story collections Chicago Tribune Here is a concise overview of the work of science fiction icon Frank Herbert one of the most thought provoking writers of our time by focusing on alien culture he makes us examine what the true definition of human is The Pacific Sun It includes a summary of his life and background plus critical commentaries on the Nebula Award winning bestselling *Dune* *Dune Messiah* *The Godmakers* *Under Pressure* *Destination Void* *The Eyes of Heisenberg* *The Green Brain* *The Santaroga Barrier* *Whipping Star* *Hellstrom's Hive* and the short story collections *The Book of Frank Herbert* and *The Worlds of Frank Herbert* Also included is a critical essay *The Unity and Continuity of Dune and Dune Messiah* **Dreamer of Dune** Brian Herbert, 2023-11-16 Everyone knows Frank Herbert's *Dune* This science fiction epic combines politics human evolution and ecology and has captured the imagination of generations of readers It is one of the most popular science fiction novels ever written has won awards sold millions of copies around the world and spawned multiple motion picture adaptations Brian Herbert Frank Herbert's eldest son tells the provocative story of his father's extraordinary life in this honest and loving chronicle He has also brought to light all the events in Herbert's life that would find their way into speculative fiction's greatest epic From his early years in Tacoma Washington through his time at university and in the Navy to the difficult years of poverty while struggling to become a published writer Herbert worked long and hard before finding success after the publication of *Dune* in 1965 Brian Herbert writes about these years with a truthful intensity that brings every facet of his father's brilliant and sometimes troubled genius to full light Insightful and provocative this absorbing biography offers Brian Herbert's unique personal perspective on one of the most enigmatic and creative talents of our time **Gender, Race, and American Science Fiction** Jason

Haslam,2015-05-08 This book focuses on the interplay of gender race and their representation in American science fiction from the nineteenth century through to the twenty first and across a number of forms including literature and film Haslam explores the reasons why SF provides such a rich medium for both the preservation of and challenges to dominant mythologies of gender and race Defining SF linguistically and culturally the study argues that this mode is not only able to illuminate the cultural and social histories of gender and race but so too can it intervene in those histories and highlight the ruptures present within them The volume moves between material history and the linguistic nature of SF fantasies from the specifics of race and gender at different points in American history to larger analyses of the socio cultural functions of such identity categories SF has already become central to discussions of humanity in the global capitalist age and is increasingly the focus of feminist and critical race studies in combining these earlier approaches this book goes further to demonstrate why SF must become central to our discussions of identity writ large of the possibilities and failings of the human past present and future Focusing on the interplay of whiteness and its various others in relation to competing gender constructs chapters analyze works by Nathaniel Hawthorne Mary E Bradley Lane Edgar Rice Burroughs Philip Francis Nowlan George S Schuyler and the Wachowskis Frank Herbert William Gibson and Octavia Butler Academics and students interested in the study of Science Fiction American literature and culture and Whiteness Studies as well as those engaged in critical gender and race studies will find this volume invaluable
