THE LATER YEARS

A Portrait with
Letters

DANIEL CORY

Santayana The Later Years

George Santayana

Santayana The Later Years:

Santayana: the Later Years Daniel Cory, 1963 *Santayana, the Later Years* Daniel Cory, 2017-01-06 Excerpt from *Santayana the Later Years A Portrait With Letters* I am not surprised or displeased that you should be somewhat attracted to the church It is the great normal human solution too human I think but I have less need of the sustaining faith than most people animal faith is enough for me About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **George Santayana's Philosophy of Religion** Edward W. Lovely, 2012-09-28 George Santayana 1862 1952 of Spanish descent and generally claimed to be in the canon of American philosophers was substantially influenced by his Roman Catholic origins in his philosophical disposition toward the value of tradition religious symbols and dogma His philosophical project sustained a respectful attitude toward the spiritual value of orthodox religion while the thrust of his philosophy was naturalistic and materialistic throughout There is a perception by some scholars that Santayana s philosophy evolved from a humanistic perspective to a more spiritual one in his later years It is the position of this thesis that his philosophy at the core depicting a harmonious striving toward individual happiness remained essentially consistent from his earliest publication of *Interpretations of Poetry and Religion* and *The Life of Reason* through his later works of *Scepticism* and *Animal Faith* *Realms of Being* *Dominations and Powers* and *The Idea of Christ in the Gospels* Santayana s philosophical approach is both phenomenological and social constructionist in its methodology significantly preempting the methodology of social constructionist theology and a post modern interpretation of religion His idiosyncratic phenomenological approach is compared with a benchmark methodology of Edmund Husserl the generally accepted founder of the phenomenological method There are also important similarities between Santayana s phenomenological approach and those of Charles Sanders Peirce and Alfred North Whitehead The basis for the comparison of the phenomenological methodology of Santayana and Husserl is their mutually similar fundamental theory of intuited essence Santayana s contribution to religious studies is not only philosophical but also theological where he has utilized Christian theological language in transposing and interpolating his philosophy of religion to the Christian drama of the salvational Christ Santayana s essay *Ultimate Religion* reflects his perspective of a disillusioned but still spiritual vision incorporating the piety discipline and spirituality of a life of reason Within the framework of this model Santayana s philosophy of religion is developed and explored Finally the relevance of Santayana s philosophy of religion to contemporary religious studies and selected religious issues is addressed with a delineation and discussion of some important aspects of his

philosophical vision **Santayana and America. Values, Liberties, Responsibility** Krzysztof Piotr

Skowronski, 2009-03-26 George Santayana 1863-1952 a Spanish American philosopher is an influential personage on the cultural stage in English and Spanish speaking countries His numerous books and papers on topics as varied as epistemology ontology aesthetics ethics anthropology value theory and American studies along with his best selling novel his sophisticated poetry and his famous autobiography make him a vivid and profound source of reflection on the history of American and European thought as well as a stimulus for future work Santayana's exceptionality was appreciated by William James and Josiah Royce his most eminent colleagues in Harvard University's Department of Philosophy and has been discussed by such respected authors as John Dewey Bertrand Russell Charles Hartshorne Eric Voegelin Alfred Schutz Richard Rorty Hilary Putnam Arthur Danto and Ferdinand Savater among others This book aims to understand Santayana by considering his often provocative views on America Other scholars have reconstructed his thought at various times and in a variety of ways but no one has yet considered Santayana's approach toward America in a serious and profound way at least not in the English language This book attempts to convince the reader that the impartiality of Santayana's philosophy its transcendence of cultural limits and mental borders makes it a living philosophy and that this is the strongest aspect of Santayana's thought

The Letters of George Santayana, Book Eight, 1948-1952 George Santayana, 2001 Letters from the last years of Santayana's life written as he completed *Dominations and Powers* the final volume of his autobiography and the one volume abridgement of his early five part masterwork *The Life of Reason* This final volume of Santayana's letters spans the last five years of the philosopher's life Despite the increasing infirmities of age and illness Santayana continued to be remarkably productive during these years working steadily until September 1952 when he died of stomach cancer just three months short of his eighty ninth birthday Still living in the nursing home run by the Blue Sisters of the Little Company of Mary in Rome now with such prewar luxuries as hot baths and central heating restored Santayana completed his book *Dominations and Powers* which had been more than fifty years in the making the final part of his autobiography *Persons and Places* published posthumously in 1953 as *My Host the World* and the abridgement of his early five part masterwork *The Life of Reason* into a single volume all while continuing to maintain a voluminous correspondence with friends and admirers The eight books of *The Letters of George Santayana* bring together over 3 000 letters many of which have been discovered in the fifty years since Santayana's death Letters in Book Eight are written to such correspondents as the young American poet Robert Lowell whom Santayana thinks of only as a friend and not merely as a celebrity and to whom he sends a wedding gift of 500 Ira D Cardiff the editor of *Atoms of Thought* a collection of excerpts from Santayana's writings which Santayana complained portrayed him as more akin to Tom Paine than Thomas Aquinas Richard Colton Lyon a young Texan who would later collect Santayana's writings about America in *Santayana on America Essays Notes and Letters on American Life Literature and Philosophy* 1968 and the humanist philosopher Corliss Lamont *Shattered Pictures of Places and Cities in*

George Santayana's Autobiography Graziella Fantini, 2011-11-28 Shattered Pictures of Places and Cities se adentra por las páginas autobiográficas filosóficas y narrativas más relevantes de George Santayana discurrendo por sus viajes y geografías físicas en paralelo a sus viajes y geografías morales. Es un intento de ir más allá de la reflexión entorno a los orgenes biográficos del filósofo de ahí que se recupere una indagación sobre su habitar el lenguaje y el arte. Santayana reconsidera los fundamentos del arte de la memoria clásica en su autobiografía para formular una nueva propuesta estética donde el arte y la vida se funden y se confunden estimulándose recíprocamente. Hila una filosofía del viaje y del lugar donde se privilegia una noción del habitar que ilumina nuestra condición de humanas en la vida y en el pensamiento y nuestra trágica estable inestabilidad en este mundo.

Victorian Sexual Dissidence Richard Dellamora, 2019-04-08 Recent critical and historical work on the late Victorian period has furnished a vocabulary for discussing gender and sexuality. These popular terms include categories such as homo hetero patriarchal feminist and masculine effeminate. This collection exploits this framework while refining and resisting it in places to show how certain Victorians imagined difference in ways that continue to challenge us today. One essay for example traces the remarkable feminist appropriation of male identified fields of study such as Classical philology. Others address the validation of male bodies as objects of desire in writing painting and emergent modernist choreography. The writings shed light on the diverse interests served by a range of cultural practitioners and on the complex ways in which the late Victorians invented themselves as modern subjects. This volume will be essential reading for students of British literary and cultural history as well as for those interested in feminist gay and lesbian studies. Contributors are Oliver Buckton Richard Dellamora Dennis Denisoff Regenia Gagnier Eric Haralson Andrew Hewitt Christopher Lane Thomas Morgan Yopie Prins Kathy Alexis Psomiades Julia Saville Robert Sulzer Jr Martha Vicinus. *Encyclopedia of the Essay* Tracy Chevalier, 2012-10-12 This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 50 pages in length. The more than 500 entries by 275 contributors include entries on nationalities various categories of essays such as generic such as sermons aphorisms individual major works notable writers and periodicals that created a market for essays and particularly famous or significant essays. The preface details the historical development of the essay and the alphabetically arranged entries usually include biographical sketch nationality era selected writings list additional readings and anthologies.

Life as Insinuation Katarzyna Krempleska, 2019-01-01 In this book Katarzyna Krempleska offers a thorough analysis of Santayana's conception of human self viewed as part of his larger philosophy of life. Santayana emerges as an author of a provocative philosophy of drama in which human life is acted out. Krempleska demonstrates how his thought addresses the dynamics of human self in this context and the possibility of sustaining self integrity while coping with the limitations of finite life. Focusing on particular aspects of Santayana's thought such as his conception of the tragic aspect of existence and the role of the doctrine of spirit in his philosophical anthropology and critique of culture this book also sets Santayana's thought in substantial dialogue with other thinkers such as Heidegger.

Bergson and Nietzsche Like Santayana's philosophy this book seeks to build passages between theoretical reflection and practical life with the possibility of a good life in view **The Life and Ideas of James Hillman** Dick Russell, 2013-05-09

Considered to be the world's foremost post Jungian thinker James Hillman is known as the founder of archetypal psychology and the author of more than twenty books including the bestselling title *The Soul's Code In The Making of a Psychologist* we follow Hillman from his youth in the heyday of Atlantic City through post war Paris and Dublin travels in Africa and Kashmir and onward to Zurich and the Jung Institute which appointed him its first director of studies in 1960 This first of a two volume authorized biography is the result of hundreds of hours of interviews with Hillman and others over a seven year period Discover how Hillman's unique psychology was forged through his life experiences and found its basis in the imagination aesthetics a return to the Greek pantheon and the importance of soul making and gain a better understanding of the mind of one of the most brilliant psychologists of the twentieth century
