Sanza Mezzo:

Paradiso Dante Alighieri, 1961-12-31 An English translation of Dante's Divine Comedy , **Beyond the Sphere** Nicola Masciandaro, Anna Klosowska, 2010-04-11 Revolutions The turning movement through the images of this sonetto involves several eddying micro cosmic motions We begin already beyond the widest sphere then penetrate it from this side via love's weeping in a motion that is virtually re-initiated from the heart in a kind of syntactic time warp Then comes the thought sigh's arrival before the lady and its getting lost in the epicycles of honor and splendor and gazing Then his subtle retelling of the gaze caused by a secondary motion of the heart that first moved it Then the mystical understanding of the pensiero's unintelligible speech through the apophatic anamnesis of the beloved's name Finally a gracious love boast gently expanding towards those who have understanding of love Consider our commentary a love-driven constellation a double star binary or optical gravitationally caught within these motions like the subtle turnings of an ungraspable celestial tress *The Metaphysics of Dante's Comedy* Christian Moevs, 2008-10-13 The recovery of Dante's metaphysics which are very different from our own is essential argues Christian Moevs if we are to resolve what has been called the central problem in the interpretation of the Comedy That problem is what to make of the Comedy's claim to the status of revelation vision or experiential record as something more than imaginative literature In this book Moevs offers the first sustained treatment of the metaphysical picture that grounds and motivates the Comedy and the relation between those metaphysics and Dante's poetics Moevs arrives at the radical conclusion that Dante believed that all of what we perceive as reality the spatio-temporal world is in fact a creation or projection of conscious being Armed with this new understanding Moevs is able to shed light on a series of perennial issues in the interpretation of the Comedy **Paradiso** Dante, 2012-07-18 With his journeys through Hell and Purgatory complete Dante is at last led by his beloved Beatrice to Paradise Where his experiences in the Inferno and Purgatorio were arduous and harrowing this is a journey of comfort revelation and above all love both romantic and divine Robert Hollander is a Dante scholar of unmatched reputation and his wife Jean is an accomplished poet Their verse translation with facing page Italian combines maximum fidelity to Dante's text with the artistry necessary to reflect the original's virtuosity They have produced the clearest most accurate and most readable translation of the three books of The Divine Comedy with unsurpassable footnotes and introductions likely to be a touchstone for generations to come

Conversations with Kenelm John Took, 2013-05-15 In a celebratory moment of the Paradiso Dante has Thomas go round the circle of sage spirits identifying each in turn in point of proper calling and confirming how it is that self is everywhere present to the other than self as a co-efficient of being in the endless and endlessly varied instantiation of that being The image at once perfectly Dantean and perfectly resplendent underlies and informs these conversations of mine with Kenelm for if in reading and rereading the cherished text I have from time to time felt the need to enter a qualification it is a matter here as in the high consistory of paradise of otherness as both contained and as authorized by sameness as conditioned and

Seeing Through the Veil Suzanne Conklin Akbari, 2015-01-15 During the later Middle Ages new optical theories were introduced that located the power of sight not in the seeing subject but in the passive object of vision This shift had a powerful impact not only on medieval science but also on theories of knowledge and this changing relationship of vision and knowledge was a crucial element in late medieval religious devotion In Seeing through the Veil Suzanne Conklin Akbari examines several late medieval allegories in the context of contemporary paradigm shifts in scientific and philosophical theories of vision After a survey on the genre of allegory and an overview of medieval optical theories Akbari delves into more detailed studies of several medieval literary works including the Roman de la Rose Dante s Vita Nuova Convivio and Commedia and Chaucer s dream visions and Canterbury Tales The final chapter Division and Darkness centres on the legacy of allegory in the fifteenth century Offering a new interdisciplinary synthetic approach to late medieval intellectual history and to major works within the medieval literary canon Seeing through the Veil will be an essential resource to the study of medieval literature and culture as well as philosophy history of art and history of science
