Constructing Charisma Edward Berenson, Eva Giloi, 2013 Railroads telegraphs lithographs photographs and mass periodicals the major technological advances of the 19th century seemed to diminish the space separating people from one another creating new and apparently closer albeit highly mediated social relationships Nowhere was this phenomenon more evident than in the relationship between celebrity and fan leader and follower the famous and the unknown By mid century heroes and celebrities constituted a new and powerful social force as innovations in print and visual media made it possible for ordinary people to identify with the famous to feel they knew the hero leader or star to imagine that public figures belonged to their private lives This volume examines the origins and nature of modern mass media and the culture of celebrity and fame they helped to create Crossing disciplines and national boundaries the book focuses on arts celebrities Sarah Bernhardt Byron and Liszt charismatic political figures Napoleon and Wilhelm II famous explorers Stanley and Brazza and celebrated fictional characters Cyrano de Bergerac

Sarah Robert Gottlieb, 2010-09-21 Everything about Sarah Bernhardt is fascinating from her obscure birth to her glorious career redefining the very nature of her art to her amazing and highly public romantic life to her indomitable spirit Well into her seventies after the amputation of her leg she was performing under bombardment for soldiers during World War I and toured America for the ninth time Though the Bernhardt literature is vast this is the first English language biography to appear in decades tracking the trajectory through which an illegitimate and scandalous daughter of a Jewish courtesan transformed herself into the most famous actress who ever lived and into a national icon a symbol of France From publisher description

Byzantium/Modernism, 2015-06-29 Byzantium Modernism features contributions by fourteen international scholars and brings together a diverse range of interdisciplinary essays on art architecture theatre film literature and philosophy which examine how and why Byzantine art and image theory can contribute to our understanding of modern and contemporary visual culture Particular attention is given to intercultural dialogues between the former dominions of the Byzantine Empire with a special focus on Greece Turkey and Russia and the artistic production of Western Europe and America Together these essays invite the reader to think critically and theoretically about the dialogic interchange between Byzantium and modernism and to consider this cross temporal encounter as an ongoing and historically deep narrative rather than an ephemeral or localized trend Contributors are Tulay Atak Charles Barber Elena Boeck Anthony Cutler Rico Franses Dimitra Kotoula Marie Jos Mondzain Myroslava M Mudrak Robert S Nelson Robert Ousterhout Stratis Papaioannou Glenn Peers Jane A Sharp and Devin Singh

The Question of Gender Judith Butler, Elizabeth Weed, 2011-07-20 A generation after the first publication of Joan W Scott's influential essay Gender A Useful Category of Historical Analysis this volume explores the current uses and valences of the term and the ongoing influence of Scott's work in history and other disciplines Leading scholars from history philosophy literature art

history and other fields examine how gender has translated into their own disciplinary perspectives How has the study of gender independently or in conjunction with other axes of difference such as race class and sexuality inflected existing fields of study and created new ones To what extent has this concept modified or been modified by related paradigms such as womens and queer studies With what discursive politics does the term engage and with what effects In what settings and through what kinds of operations and transformations can gender remain a useful category in the twenty first century
