Neighbourhoods in Urban India Sadan Jha, Dev Nath Pathak, Amiya Kumar Das, 2021-12-30 a brilliant exploration of urbanism between the concept city and the lived city The volume focuses on urban life lived between home and the world institutions and experiences representations and affects Its fascinating range of empirically rich and analytically sophisticated excavations of neighbourhoods make the volume a must have in the bookshelf on South Asian urban studies Gyan Prakash Princeton University A must read for those who wish to study the micro aspects of contemporary urbanity Sujata Patel Savitribai Phule Pune University This book is a powerful addition to the study of Indian urbanism Ravi Sundaram Centre for the Study of Developing Societies CSDS In the last couple of decades the global South in general and India in particular have witnessed a massive growth of cities In India more than one third of its population lives in cities However urban development growth and expansion are not merely about infrastructures and enlargement of cityscapes This edited volume focuses on neighbourhoods their particularities and their role in shaping our understanding of the urban in India It locates Indian experiences in the larger context of the global South and seeks to decentre the dominant Euro American discourse of urban social life Neighbourhoods in Urban India In *Between Home and the City* offers an understanding of neighbourhoods as changing socio spatial units in their specific regional settings by underlining the way value regimes religiosity and subjectivities give neighbourhoods their social meanings and stereotypes It unpacks discourses and knowledge practices such as planning architecture and urban discourses of governance It further discloses the linkages and disjunctures between the social practices of neighbourhoods and the language logic and experiences of dwelling housing urban planning and governance and focuses on the particularities and heterogeneities of neighbourhoods and neighbourliness

Participolis Karen Coelho, Lalitha Kamath, M. Vijayabaskar, 2020-11-29 While participatory development has gained significance in urban planning and policy it has been explored largely from the perspective of its prescriptive implementation This book breaks new ground in critically examining the intended and unintended effects of the deployment of citizen participation and public consultation in neoliberal urban governance by the Indian state The book reveals how emerging formats of participation as mandatory components of infrastructure projects public private partnership proposals and national urban governance policy frameworks have embedded market oriented reforms promoted financialisation of

cities refashioned urban citizenship privileged certain classes in urban governance at the expense of already marginalised ones and thereby deepened the fragmentation of urban polities It also shows how such deployments are rooted in the larger political economy of neoliberal reforms and ascendance of global finance and how resultant exclusions and fractures in the urban society provoke insurgent mobilisations and subversions Offering a dialogue between scholars policy makers and activists and drawing upon several case studies of urban development projects across sectors and cities this volume will be useful for planners policy makers academics development professionals social workers and activists as well as those in urban studies urban policy planning political science sociology and development studies Urban History in India Mr. Rohit Manglik,2022-11-22 In this book we will study about the historical evolution of Indian cities colonial legacies and post independence urbanization *The City in Urban Poverty* C. Lemanski,C. Marx,2015-05-12 The contributors respond to the absence of critical debate surrounding the ways in which spaces of the city do not merely contain but also constitute urban poverty The volume explores how the spaces of the city actively produce and reproduce urban poverty *Rituparno Ghosh* Sangeeta Datta,Kaustav Bakshi,Rohit K. Dasgupta,2015-11-19 An iconic filmmaker and inheritor of the legendary Satyajit Ray s legacy Rituparno Ghosh was one of the finest auteurs to emerge out of contemporary Bengal His films though rooted firmly in middle class values desires and aspirations are highly critical of hetero patriarchal power structures From the very outset Ghosh displayed a strong feminist sensibility which later evolved into radical queer politics This volume analyses his films his craft his stardom and his contribution to sexual identity politics In this first scholarly study undertaken on Rituparno Ghosh the essays discuss the cultural import of his work within the dynamics of a rapidly evolving film industry in Bengal and more largely the cinematic landscape of India The anthology also contains a conversation section interviews with the filmmaker and with industry cast and crew drawing a critical and personal portrait of this remarkable filmmaker **Art and Emergency** Emilia Terracciano,2017-10-30 During states of emergency normal rules and rights are suspended and force can often prevail In these precarious intervals when the human potential for violence can be released and rehearsed images may also emerge This book asks what happens to art during a state of emergency Investigating the uneasy relationship between aesthetics and political history Emilia Terracciano traces a genealogy of modernism in colonial and postcolonial India she explores catastrophic turning points in the history of twentieth century India via the art works which emerged from them *Art and Emergency* reveals how the suspended diagonal fugitive lines of Nasreen Mohamedi s abstract compositions echo Partition s traumatic legacy how the theatrical choreographies of Sunil Janah s photographs document desperate famine and how Gaganendranath Tagore s lithographs respond to the wake of massacre Making an innovative important intervention into current debates on visual culture in South Asia this book also furthers our understanding of the history of modernism The Illegal City Ayona Datta,2016-03-03 *The Illegal City* explores the relationship between space law and gendered subjectivity through a close look at an illegal squatter settlement in Delhi Since 2000 a series of judicial rulings in India have

criminalised squatters as illegal citizens encroachers and pickpockets of urban land and have led to a spate of slum demolitions across the country This book argues that in this context it has become vital to distinguish between illegality and informality since it is those illegal slums which are at the receiving end of a force of law where law is violently encountered within everyday spaces This book uses a gendered intersectional lens to explore how a violence of law shapes how public subjectivities of gender class religion and caste are encountered and negotiated within the private spaces of home family and neighbourhood This book suggests that resettlement is not a condition that squatters desire rather something that is seen as the only way out of the illegal city The wait for resettlement is a temporal space of anxiety and uncertainty where particular kinds of politics around law space and gender takes shape which transform squatters relations with the state urban development civil society and with each other Through their everyday struggles around water sanitation social and political organisation and the transformation of their homes and families this book shows that the desire for the legal city is also the irony and utopia of home which will remain an incomplete gendered project both for the state and for squatters

Technology and Nationalism in India Rohit Chopra, 2008 This book examines the phenomenon of technocultural Hindu nationalism or the use of the internet by global Indian communities for the promotion of Hindu nationalist ideologies Since the introduction of Western science and technology under colonial rule in the eighteenth century science and technology have been used as instruments of transforming Indian society Scientific and technological expertise have been authorized as essential attributes of a modern Indian selfhood And the possessors of technological skills have historically been vested with the authority to speak for the nation The associations between technology and nationalism have condensed in ideas about self and other they have been incorporated in imaginings of the state and the nation and they have materialized as claims about identity community and society In the present historical moment this relationship manifests itself in one form as an online Hindu nationalism that combines cultural majoritarian claims with technological triumphalism Technocultural Hindu nationalism yokes together the core proposition of Hindu nationalist doctrine the idea that India is a Hindu nation and that religious minorities are outsiders to it with arguments about the imminent rise of Hindu India as a technological superpower in the global capitalist economy of the twenty first century Additionally while technocultural Hindu nationalism is obsessed with Western technology it also defines itself in strategic respects in opposition to Western civilization On Hindu nationalist websites this apparent paradox is resolved through the construction of a narrative where Hinduism is defined as the historical and philosophical foundation of global capitalist modernity itself and Hindus are presented as the natural heirs to that heritage This book locates these and other characteristics of Hindu nationalist identity politics in cyberspace with reference to the relationship between technology and nationalism in India from the period of British colonial rule in the mid eighteenth century to the present era of an economically and technologically interconnected world This book argues that technocultural Hindu nationalism needs to be understood in terms of the general dynamic of

technology and nationalism with its continuities and discontinuities through the period of colonial rule till Indian independence in 1947 the period of Nehruvian nationalism with its emphasis on technological development in a socialist framework and the current post 1991 context following the liberalization of the Indian economy which accords pride of place to information technology and the internet This book also proposes that the particularities of technocultural Hindu nationalism need at the same time to be assessed with reference to the modalities of online communication Toward this end the book takes shape as an interdisciplinary endeavor combining qualitative and quantitative research methodologies and drawing on historical scholarship about South Asia social and cultural theory and the sociology of new media specifically the field of internet studies Technology and Nationalism in India is an important book for all in communication Internet studies South Asian studies and postcolonial studies
