Sartre Literature And Theory:

Sartre's Theory of Literature Christina Howells, 1979 *Sartre: Literature and Theory* Rhiannon Goldthorpe, 1984 In this major study Rhiannon Goldthorpe takes up the challenge of Sartre's diversity in an original and provocative way Her detailed and comprehensive exploration of the relationship between the theoretical and literary works pays due attention to their characteristic complexity The discussion of *La Nausée* *Les Mouches* *Huis clos* *Les Mains sales* and *Les Quatre derniers jours d'Altona* for example does not present these literary texts as mere illustrations of Sartre's theories of consciousness imagination and emotion but as subtle philosophical and linguistic investigations in their own right In addition by reference to recently published fragments from Sartre's earlier work Goldthorpe calls into question existing views of Sartre's intellectual development and provides a new history of the crucial Sartrean concept of commitment Jean-Paul Sartre's Theory of Literature Timothy Jobe, 1973 **Existentialist Literature and Aesthetics** William Leon McBride, 1997 This collection of essays and reviews represents the most significant and comprehensive writing on Shakespeare's *A Comedy of Errors* Miola's edited work also features a comprehensive critical history coupled with a full bibliography and photographs of major productions of the play from around the world In the collection there are five previously unpublished essays The topics covered in these new essays are women in the play the play's debt to contemporary theater its critical and performance histories in Germany and Japan the metrical variety of the play and the distinctly modern perspective on the play as containing dark and disturbing elements To compliment these new essays the collection features significant scholarship and commentary on *The Comedy of Errors* that is published in obscure and difficult accessible journals newspapers and other sources This collection brings together these essays for the first time *The Bloomsbury Handbook of Existentialism* Jack Reynolds, Ashley Woodward, Felicity Joseph, 2023-12-28 This fully revised and updated 2nd edition provides a comprehensive reference guide to existentialism featuring key chapters on key existentialist thinkers as well as chapters applying existentialism to subject areas ranging across politics literature feminism religion the emotions cognitive science and poststructuralism Contemporary developments in the field of existentialism that speak to issues of identity and exclusion are explored in 4 new chapters on race gender disability and technology whilst the 5th new chapter outlines analytic philosophy's complicated relationship to existentialism Presenting the field of existentialism beyond the European tradition this edition also includes a new key thinker chapter on Frantz Fanon alongside Kierkegaard Nietzsche Heidegger Sartre and de Beauvoir as well as new engagement with the work of scholars on race and existentialism including Lewis R Gordon George Yancy and Richard Wright The resources section at the end of the book includes an updated A to Z glossary and timeline of key events texts and thinkers in existentialism as well as a list of relevant organisations and an annotated guide to further reading making this 2nd edition an invaluable text for scholars and students alike A Companion to Continental Philosophy Simon Critchley, William R.
