Satellite Broadcasting The Politics And Implications Of The New Media:

Satellite Broadcasting: the Politics and Implications of the New Media Ralph (editor). Negrine, 1988 **Satellite Broadcasting** Ralph Negrine, 2013-06-19 Originally published in 1988 this book provides a thorough examination of the possibilities and key issues in satellite technology which at the time already seemed likely to change the face of broadcasting both within nations and internationally It begins with a guide to the technical development of different systems of satellites and signal reception and an outline of the international political and regulatory issues involved It then examines the situation in various industrialised countries by analysing launching plans funding the interaction between satellite cable and VCRs and the effect on existing broadcasting systems Concerned throughout with a wide range of cultural considerations and the potential impacts of the new media this is a useful reflection on the time **The Politics of Southeast Asia's New Media** William Atkins, 2013-11-19 The past decade has seen a major structural shift in broadcasting in Southeast Asia with the development of digital satellite and cable broadcasting This shift has impacted upon some of the most information sensitive governments in the world Singapore Malaysia and until recently Indonesia Atkins traces this development in five countries showing that the challenge to authoritarian regimes anticipated by modern theorists as a result of the globalization of news and information is not materializing Instead a new commercial elite has arisen Southeast Asia's own mini moguls who act as gatekeepers for state interests as partners to global media companies **Handbook on Geographies of Technology** Barney Warf, 2017-02-24 This Handbook offers an insightful and comprehensive overview from a geographic perspective of the numerous and varied technologies that are shaping the contemporary world It shows how geography and technology are intimately linked by examining the origins growth and impacts of 27 different technologies and highlighting how they influence the structure and spatiality of society **From Satellite to Single Market** Richard Collins, 2005-08-10 This book explores television's role in fostering European cultural identity and the extent to which European public service broadcasters were able to meet the challenges posed by the introduction of new communication technologies **Politics and the Mass Media in Britain** Ralph Negrine, 2003-09-02 This fully updated new edition of Politics and the Mass Media provides a comprehensive introduction to the role of mass communications in politics at all levels from election campaigns news reports and lobbying groups to the media activities of pressure groups The relationship between politics politicians and the media is a matter of increasingly contentious debate as politicians' awareness of the importance of the media becomes more sophisticated amidst rapidly advancing media technology and control Providing a review of the nature and content of political communications and of recent theoretical developments Negrine addresses the issues surrounding today's mass media including cable and satellite television investigation of the press the relationship between the state and broadcasting institutions and the ever present question of whether or not Britain needs a media policy This new edition includes Case studies from television and the press Fully revised text with updated sections on the press broadcasting and media legislation

Brand new chapters on Europe and globalisation *Politics and the Media in Britain* Raymond Kuhn, 2017-09-16 This important new text provides an up to date account of the complex interrelationship between politics and the media in Britain It starts by setting key policy areas in the context of technological convergence globalization and initiatives at European level It then addresses the key issues the role of the media in politics and elections *Mass Media and Media Policy in Western Europe* Peter Humphreys, 1996-05-15 This comparative textbook analysis explores how television and press systems across Europe have been shaped by technology economics and politics The author explores the implications of the commercialisation of national broadcasting systems and the media policies of the European Union in the age of transfrontier media operations *New Media and Politics* Barrie Axford, Richard Huggins, 2001-01-26 Exploring the theme of the putative transformation of political modernity under the impact of new media this book adopts a questioning approach to the ways in which cultural and technological factors are affecting the temper of political life and reflects the variety of normative thinking about and empirical research on the changing character of politics in mediatized cultures New Media and Politics examines the extent to which commercial populism now dominates electoral and other political discourses the ways in which the functions of leadership government and political parties are modified by different forms of both old and new media the democratic or undemocratic import of such changes and the ways in which the dominant territorial paradigm of politics is challenged by the space and time devouring capacities of electronic media *Broadcasting Politics in Japan* Ellis S. Krauss, 2018-09-05 The aftermath of Japan's 1945 military defeat left its public institutions in a state of deep crisis virtually every major source of state legitimacy was seriously damaged or wholly remade by the postwar occupation Between 1960 and 1990 however these institutions renewed their strength taking on legitimacy that erased virtually all traces of their postwar instability How did this transformation come about This is the question Ellis S. Krauss ponders in *Broadcasting Politics in Japan* his answer focuses on the role played by the Japanese mass media and in particular by Japan's national broadcaster NHK Since the 1960s television has been a fixture of the Japanese household and NHK's TV news has until very recently been the dominant and most trusted source of political information for the Japanese citizen NHK's news style is distinctive among the broadcasting systems of industrialized countries it emphasizes facts over interpretation and gives unusual priority to coverage of the national bureaucracy Krauss argues that this approach is not simply a reflection of Japanese culture but a result of the organization and processes of NHK and their relationship with the state These factors had profound consequences for the state's postwar re-legitimization while the commercial networks' recent challenge to NHK has helped engender the wave of cynicism currently faced by the state Krauss guides the reader through the complex interactions among politics media organizations and Japanese journalism to demonstrate how NHK television news became a shaper of Japan's political world rather than simply a lens through which to view it
