Saudi Arabia The West And The Security Of The Arab Gulf:

Saudi Arabia, the West, and the Security of the Gulf Mazher A. Hameed, 1986-01-01 GCC lande Saudi arabien

Food and Nutrition Security in the Kingdom of Saudi Arabia, Vol. 2 Adam E. Ahmed, Jameel M. Al-Khayri, Azharia A. Elbushra, 2024-01-01 Food and nutrition security is a major concern for Saudi Arabia and the surrounding regions due to the range of challenges they face. These challenges include limited agricultural resources, low self-sufficiency in key food staples, climate change, and high levels of food loss and waste. This book aims to evaluate and analyze the current situation and future prospects of food and nutrition security in Saudi Arabia. Additionally, it seeks to analyze and assess the roles and functions of various institutions related to food security, providing a deeper understanding of the complex problems associated with it. Furthermore, this book aligns with Kingdom Vision 2030, which includes a set of strategies and programs focused on agriculture, food, and water security. It also aligns with the institutional identity of King Faisal University's Food Security and Environmental Sustainability. The book consists of four volumes; Volume 2 is entitled *Macroeconomic Policy Implications on Food and Nutrition Security*. It covers various areas including food price, loss and waste, processing, finance, trade, investment, quality, and safety, consumption patterns, climate change, early warning systems, nutrition, institutions, oil revenue, and the significance of date, palm, and Hassawi rice, genetically modified food, and edible insects in ensuring food and nutritional security. This book is highly significant for professionals, researchers, policymakers, and entrepreneurs involved in food and nutrition security in Saudi Arabia, the Gulf Cooperation Council, and various national and international organizations. It offers a comprehensive analysis of the obstacles and possibilities in ensuring food and nutrition security, as well as presenting practical approaches to address these issues. Additionally, graduate students studying in fields related to food and nutrition security will benefit from this book.

Western Strategic Interests in Saudi Arabia Pbdirect Anthony

Cordesman, 2020-07-26 Saudi Arabia's strategic relations with the West involve clear and direct common strategic interests in the Gulf and in the Near East. While they compete in terms of trade and oil prices, they share a common commitment to private enterprise and to maintaining a stable balance of world trade. Saudi Arabia often differs with given Western states in terms of specific strategic interests and tactics, but these differences are rarely significant enough to prevent close cooperation. Even the differences over the Arab-Israeli peace issue are largely ones of timing and tactics. Saudi Arabia must preserve friendly relations with Syria and is vulnerable to attacks by Arab radicals and Iran. It has also differed with the US over the specific approach that should be taken to achieving an Arab-Israeli peace settlement, but it has consistently pushed for a peace settlement within the Arab world. This book, first published in 1987, analyses the interrelations between Western and Saudi strategic concerns and argues forcibly that pressure from the Israeli lobby within US domestic politics must not be allowed to interfere within the proper provisioning of the Saudi armed forces, especially the air force.
