Savage Storm:

TimeStorm Steve Harrison, 2014-08-22 In 1795 a convict ship leaves England for New South Wales in Australia. Nearing its destination it encounters a savage storm but miraculously the battered ship stays afloat and limps into Sydney Harbour. Here the convicts rebel, overpower the crew and make their escape, destroying the ship in the process. Fleeing the sinking vessel with only the clothes on their backs, the survivors struggle ashore. Among the escaped convicts, seething resentments fuel an appetite for brutal revenge against their former captors, while for their part the crew attempts to track down and kill or recapture the escapees. However, it soon becomes apparent that both convicts and crew have more to concern them than shipwreck and a ruthless fight for survival: they have arrived in Sydney in 2017. *TimeStorm* is a thrilling epic adventure story of revenge, survival and honour set in a strange new world of unfamiliar technology and equally unfathomable social norms. In the literary footsteps of *Hornblower* comes Lieutenant Christopher Kit Blaney, an old-fashioned hero, a man of honour, duty and principle, dragged into the 21st century, literally. A great fan of the grand seafaring adventure fiction of CS Forester, Patrick O'Brien and Alexander Kent, and modern action thriller writers such as Lee Child, Steve Harrison combines several genres in his debut novel. The book was inspired by a replica 18th-century sailing ship on Sydney Harbour and a question from Steve's brother Tony: What if that was a real convict ship? *TimeStorm* explores that question in a fast-paced story as a group of desperate men from the 1700s clash in modern-day Sydney. *TimeStorm* was Highly Commended in the 2013 Jim Hamilton Award, fantasy/science fiction category of the Fellowship of Australian Writers (FAW) National Literary Awards.

Corridor of Storms William Sarabande, 1988-05-01 Panoramic, authentic, explosively dramatic, this is the breathtaking new series *The First Americans*, which began with *Book I: Beyond The Sea Of Ice*. Now the heroic great hunter Torka, his woman Lonit and his adopted son Karana emerge from a land forbidden to all men, a land where mountains walk and spirits speak. Across the fierce glacial tundra, Torka leads his people, survivors of a horrifying natural disaster, to a winter camp where many bands gather to hunt the great mammoth. There he and his followers encounter an evil more dangerous than the wild lands: the magic man called Navahlk, who vows cruel destruction of the bold hunter Torka. To survive, they must draw upon the courage of one brave boy who will grow to manhood and see with his mind's eye where the sun's light has led them to the dawn of man on the American continent. *Storm's Eye* October K. Santerelli, David Brin, 2024-10-29 In this thrilling time-travel adventure, a teen survives a modern-day disaster only to be chosen to lead a space mission hundreds of years in the future. There's no disease, crime or war on twenty-fourth-century Earth, and new technology allows humanity to travel across the universe. But the adults can't go everywhere. Only the teenagers can teleport across space and time, which becomes a problem when disaster strikes and those kids need help. Fortunately, Operation Hourglass comes to the rescue. Back in 2021, Olivia Becker has lost everything to a raging wildfire that claimed her home and possessions. Even worse, Olivia's dad has taken her to live with his fiancée and her kids. Olivia would rather be anywhere else, and thanks to Operation

Hourglass now s her chance She is chosen to lead a team of other time yanked teens from across history on an interstellar rescue mission There is Najwa a nineteenth century Javanese girl Leonidas an athlete from ancient Greece and Everet a twenty fourth century pilot Together with the floating AI named Giotto they jump to the beautiful planet Noros where furious storms threaten three hundred stranded teens before time runs out *Devastating Storms* Janey Levy,2019-07-15 Almost everyone has experienced a rainstorm or snowstorm at some time They can be annoying or inconvenient Sometimes rain snow and wind produce storms that wreak havoc and turn deadly Readers of this intriguing book will learn about powerful storms such as hurricanes tornadoes blizzards thunderstorms hail and ice storms as well as the trail of destruction and death they leave in their wake Absorbing age appropriate text highlights important elementary science concepts while vivid photographs convey key concepts Captions fact boxes and a graphic organizer also enrich the main text **Welcome to**

Tranquillity David Kavanagh,2014-09-02 A childhood game ends in tragedy Social unrest explodes on the streets of Dublin An undercover cop is forced to leave his safe haven and confront the ghosts from his past And in the bowels of the nations highest security prison the institutions most infamous resident stirs in his cell His rage builds as he dissects the circumstances of his incarceration The thought of revenge consumes him of death to the one who betrayed him Little does he know that events in *Tranquillity* will soon give him the opportunity he craves *Vendetta Road* Christine Feehan,2020-01-28

The Wrong Complexion for Protection Robert D. Bullard,Beverly Wright,2023-09-05 Uncovers the ways the United States government responds to natural and human induced disasters in relation to race over the past eight decades When the images of desperate hungry thirsty sick mostly black people circulated in the aftermath of Hurricane Katrina it became apparent to the whole country that race did indeed matter when it came to government assistance In *The Wrong Complexion for Protection* Robert D Bullard and Beverly Wright place the government response to natural and human induced disasters

in historical context over the past eight decades They compare and contrast how the government responded to emergencies including environmental and public health emergencies toxic contamination industrial accidents bioterrorism threats and show that African Americans are disproportionately affected Bullard and Wright argue that uncovering and eliminating disparate disaster response can mean the difference between life and death for those most vulnerable in disastrous times
