Saving The Planet How To Shape An Environmentally Sustainable Global Economy:

Saving the Planet Lester Russell Brown, Christopher Flavin, Sandra Postel, 1991 Describes an environmental research team's plan for a global economy Biosphere 2000 Donald G. Kaufman, Cecilia M. Franz, 2000 **Environmental**

Regulation in Transforming Economies: The Case of Poland Piotr Jasinski, Helen Lawton-Smith, 2018-12-17 First published in 1999 the book is based on papers given at the final workshop of a research project into the evolution of environmental regulation in Poland undertaken as part of the UK's ERSC Global Environmental Change Programme Other invited papers focused on the development of regulatory policy in transforming economies and in the UK Furthermore the book highlights the weakness of internal political processes in Poland and the important role played by foreign sponsored pressures whilst examining the divergence between the way environmental charges are supposed to operate and the ways in which they are implemented and enforced Topics covered include the links between privatisation and the environment the saline water problem in Upper Silesia enforcement of and compliance with environmental charges air pollution in Krakow and the structure of the Polish environmental administration system **Leaders from the 1960s** David De

Leon, 1994-06-22 The throngs at Woodstock Jane Fonda in Hanoi I Have a Dream burning draft cards fire in the streets these images of the 1960s are still very much alive today What happened to the people and principles that dominated that decade Which leaders from those turbulent years had the most lasting effect on our lives today How well have the principles for which those leaders fought so strongly withstood the test of time This thought provoking biographical dictionary allows the reader to study the leaders both conservative and liberal their ideals and their enduring influence With major sections on racial democracy peace and freedom sexuality and gender the environment radical culture and visions of alternative societies Leaders from the 1960s includes entries on a wide selection of nationally prominent activists of the 1960s In addition to those who dominated only the sixties the volume includes earlier activists who came into prominence in the 1960s and activists of the era who came into prominence since the 1960s Each entry provides a biographical sketch but the focus of the entries is on the person's basic concepts or the essence of his or her work and the public response it generated Included are extensive bibliographies on the individuals and the period John A Collected Essays 1 John S Avery, 2016-02-06 This book contains a collection of essays and articles by John Scales Avery discussing the severe problems and challenges which the world faces during the 21st century Human civilization and the biosphere are threatened by catastrophic climate change Unless rapid steps are taken to replace fossil fuels by 100% renewable energy we risk passing a tipping point beyond which uncontrollable feedback loops could produce a 6th extinction event comparable to those observed in the geological record Another serious threat to human civilization and the biosphere is the danger of a catastrophic thermonuclear war Over a long period of time there is an ever increasing risk that such a war will occur by accident or miscalculation Thirdly there is threat of an extremely serious and widespread famine produced by the climate change rapidly growing populations and the end of the

fossil fuel era We must urgently address all three challenges Ethics of Consumption David A. Crocker,Toby Linden,2000-01-01 Scholars in diverse fields now agree on the importance of investigating the impact of consumption practices on the global environment quality of life and international justice In this comprehensive collection of essays most of which appear for the first time eminent scholars from many disciplines philosophy economics sociology political science demography theology history and social psychology examine the causes nature and consequences of present day consumption patterns in the United States and throughout the world Specifically the essays evaluate the impact of consumption practices on our own lives our institutions other people and the environment The contributors give explicit attention to the principles relevant for a consumption ethic as well as to the policies and practices that such an ethic permits or requires These engaging jargon free essays frame the problem of consumption in a variety of ways challenging readers to see the issue from new perspectives For scholars and students from across the disciplines as well as for environmental and consumer activists this volume will serve as the touchstone for discussions of consumption and global stewardship

Unsafty Shigeo Atsuji,2016-11-15 This is the first book to examine the linkages among natural and organizational accidents and disasters in the modern era and clarifies the mechanisms involved and the significance of emerging problems from the aging of vital infrastructure for the supply of water gas oil and electricity to the breakdown of pensions healthcare and other social systems The book demonstrates how we might check the underlying civilizational collapse and then explore translational systems approaches toward resilient management and policy for sustainability In Unsafty the author focuses on the kinds of unnatural disasters and organizational accidents that arise as repercussions of natural hazards Japan serves as an example where earthquakes tsunamis and typhoons are common with the Fukushima nuclear disaster as an outstanding case of this link between natural disasters and organizational accidents Natural and human made disasters happen worldwide and cause misery through loss of life destruction of livelihoods as in agriculture fisheries and the manufacturing industry and interruption of urban life Unsafty from a disaster in one place increases uncertainty elsewhere presenting urgent issues in all nations for individuals organizations regions and the state The author explains that one factor in the Fukushima catastrophe which followed in the wake of the earthquake and tsunami in 2011 was the latent deterioration and aging of systems at all levels from the physical to the social leading through a chain reaction to unsought and unforeseen consequences Here the aging of the nuclear reactor system the breakdown of safety management and inappropriate instructions from the regulatory authorities combined to create the three fold disaster in which technological organizational and governmental dysfunction have been diagnosed as reflecting a systems pathology infecting all levels Environmental Science 6e (paper) Daniel D. Chiras,2013 **Planning Sustainability** Michael Kenny,James Meadowcroft,2002-01-31 Environmental sustainability has become one of the most salient issues on the policy agenda of nation states This book argues that planning is seldom credited by advocates of environmental politics The authors leading scholars in the field

explore the relationship between environmental sustainability one of the most important innovations in recent political discourse and planning an idea which has slipped from public attention recently **Living is Risky** Felix M Berardo, 2006-07 It has been suggested that the best hope for achieving a longer and healthier life lies in voluntary efforts derived from personal choices This means that individual change must be directed toward the modification of lifestyles and the choices associated with them Every lifestyle is a complex of related attitudes habits and other behaviors that in essence constitute a death style Each death style in turn carries with it various degrees of risk taking Our survival potential both in terms of quality and longevity is significantly enhanced or diminished by certain attitudes and habits and their associated risks This dimension of survivor education is a central focus of this book While it largely concentrates on individual culpability the societal context is also emphasized Indeed threats to our welfare often come from institutional or corporate activities that are beyond our control
