Saxon Shore:

The Saxon Shore Jack Whyte, 1999-01-15 The series is a retelling of the Arthur legends *Hadrian's Wall and the End of Empire* Rob Collins, 2012-08-21 There is no synthetic or comprehensive treatment of any late Roman frontier in the English language to date despite the political and economic significance of the frontiers in the late antique period Examining Hadrian's Wall and the Roman frontier of northern England from the fourth century into the Early Medieval period this book investigates a late frontier in transition from an imperial border zone to incorporation into Anglo Saxon kingdoms using both archaeological and documentary evidence With an emphasis on the late Roman occupation and Roman military it places the frontier in the broader imperial context In contrast to other works *Hadrian's Wall and the End of Empire* challenges existing ideas of decline collapse and transformation in the Roman period as well as its impact on local frontier communities Author Rob Collins analyzes in detail the limitanei the frontier soldiers of the late empire essential for the successful maintenance of the frontiers and the relationship between imperial authorities and local frontier dynamics Finally the impact of the end of the Roman period in Britain is assessed as well as the influence that the frontier had on the development of the Anglian kingdom of Northumbria St Peter-On-The-Wall Johanna Dale, 2023-05-15 The Chapel of St Peter on the Wall built on the ruins of a Roman fort dates from the mid seventh century and is one of the oldest largely intact churches in England It stands in splendid isolation on the shoreline at the mouth of the Blackwater Estuary in Essex where the land meets and interpenetrates with the sea and the sky This book brings together contributors from across the arts humanities and social sciences to uncover the pre modern contexts and modern resonances of this medieval building and its landscape setting The impetus for this collection was the recently published designs for a new nuclear power station at Bradwell on Sea which if built would have a significant impact on the chapel and its landscape setting St Peter on the Wall highlights the multiple ways in which the chapel and landscape are historically and archaeologically significant while also drawing attention to the modern importance of Bradwell as a place of Christian worship of sanctuary and of cultural production In analysing the significance of the chapel and surrounding landscape over more than a thousand years this collection additionally contributes to wider debates about the relationship between space and place and particularly the interfaces between both medieval and modern cultures and also heritage and the natural environment **England** Timothy Darvill, Jane Timby, Paul Stamper, 2002 Traveling around England is in many senses a journey back in time On all sides and sometimes even under the road or footpath itself there are fragments of the ancient past alongside the clutter of the modern world Medieval villages castles ancient churches and Roman villas are commonplace and take us back to the time of Christ And far older yet equally abundant are the barrows hillforts stone circles camps standing stones trackways and other relics of prehistoric times Now thanks to these three archaeologists each a specialist in one of the three periods covered by the Guide prehistoric Roman and medieval readers have the chance to not only explore but to understand in context these fascinating sites and ruins In

addition to reporting on such well known sites as Stonehenge and Hadrian's Wall and cities such as London and York which themselves offer a wealth of archaeological remains the book also covers smaller lesser known sites throughout the country. An introductory section provides background to the monuments and a reference section provides definitions further reading and information about museum collections. Finally there are 200 photographs plans and maps that depict and describe these ancient remains in detail.

The Battles of King Arthur Tony Sullivan, 2022-07-20 The ninth century *Historia Brittonum* is the first source that mentions Arthur and lists twelve battles including the famous Badon Hill. Much ink has been spilt debating the identity and location of Arthur. This book will demonstrate that some of the battles can indeed be located with some confidence. Rather than fit a specific theory as to his identity the battles are placed in the fragmenting provincial political and military context of the late fifth and early sixth century Britain. At a time of rapid changes in cultural identity and a significant increase in Germanic material culture and migration. These battles might be expected to be found along borders and in zones of potential conflict. Yet this is not what is discovered. In addition the simplistic idea of Romano Britons holding back invading Anglo Saxons is found wanting. Instead we discover a far more nuanced political and cultural situation. One with increasing evidence of continuation of land use and the indigenous population. The most Romanised and urbanised regions of the south and east are the very areas that experienced the arrival of Germanic settlement. The conclusion gives the reader a new insight into what sort of man Arthur was and the nature of the battles he fought.

The English Settlements John Nowell Linton Myres, 1989 The dark ages of English history between the collapse of Roman rule in the early fifth century and the emergence of the Anglo Saxon kingdoms in the seventh century are examined in this study which draws attention to political and social factors linking Roman Britain to Anglo Saxon England.

The Living Age, 1870

The Rough Guide to Walks in London and Southeast England Judith Bamber, Helena Smith, 2003 This book contains 35 walks all with detailed Ordnance Survey based maps clear route directions and full descriptions of the sights passed en route as well as stimulating background on local history and wildlife. The walks range from short strolls in inner London to extended rural hikes throughout southeast England covering areas as far afield as the New Forest, the South Downs and the fens. A number of the routes can be combined into two day walks if you want to make a weekend of it. All the walks are designed to be accessible using public transport and all feature recommended lunch stops.

Empire State Simon Elliott, 2017-08-31 The armed forces of Rome particularly those of the later Republic and Principate are rightly regarded as some of the finest military formations ever to engage in warfare. Less well known however is their use by the State as tools for such nonmilitary activities in political economic and social contexts. In this capacity they were central instruments for the Emperor to ensure the smooth running of the Empire. In this book the use of the military for such non conflict related duties is considered in detail for the first time. The first and best known is running the great construction projects of the Empire in their capacity as engineers. Next the role of the Roman military in the running of industry across the Roman Empire is examined particularly

the mining and quarrying industries but also others They also took part in agriculture administered and policed the Empire provided a firefighting resource and organized games in the arena The soldiers of Rome really were the foundations on which the Roman Empire was constructed they literally built an empire Simon Elliott lifts the lid on this less well known side to the Roman army in an accessible narrative designed for a wide readership *A Companion to Roman Britain* Malcolm Todd,2008-04-15 This major survey of the history and culture of Roman Britain spans the period from the first century BC to the fifth century AD Major survey of the history and culture of Roman Britain Brings together specialists to provide an overview of recent debates about this period Exceptionally broad coverage embracing political economic cultural and religious life Focuses on changes in Roman Britain from the first century BC to the fifth century AD Includes pioneering studies of the human population and animal resources of the island
