Burying the Black Sox Gene Carney, 2006 Most fans today know that gamblers and ballplayers conspired to fix the 1919 World Series the Black Sox Scandal It has been touched upon in classic works of sports history such as Eliot Asinof's *Eight Men Out* referred to in literary classics like W P Kinsella's *Shoeless Joe* and has been central to two of the best baseball movies ever made John Sayles's *Eight Men Out* and Phil Robinson's *Field of Dreams* Many however would be surprised to learn that it took nearly a year to uncover the fix *Burying the Black Sox* is the first book to focus on the cover up that kept the fix from the American public until almost another whole baseball season was played and to examine in detail the way events unfolded as the deception was unraveled Unlike Eliot Asinof in *Eight Men Out* previously the definitive book on the subject Carney thoroughly documents his information and brings together evidence from a wide variety of sources many not available to Asinof or more recent writers In *Burying the Black Sox* Gene Carney reveals what else happened and answers the questions that fascinate any baseball fan wondering about baseball's original dilemma over guilt and innocence Who else in baseball knew that the fix was in When did they know And what did they do about it Carney explores how Charles Comiskey the owner of the White Sox and his fellow owners tried to bury the incident and control the damage how the conspiracy failed and how Shoeless Joe Jackson attempted to clear his name He uses primary research materials that weren't available when Asinof wrote *Eight Men Out* including the 1920 grand jury statements by Jackson and pitcher Eddie Cicotte the diary of Comiskey's secretary and the transcripts of Jackson's 1924 suit against the Sox for back pay Where Asinof told the story of the eight Black Sox Carney explains the baseball industry's uncertain response to the scandal

The Unseen Politics of Public Housing Tiffany Gayle Chenault, 2015-08-15 The Department of Housing and Urban Development HUD emphasizes the word community for building economic development citizen participations and revitalization of facilities and

services in urban and rural areas Resident Councils are one way to develop and build community among residents of public housing Despite HUD stressing community building in public housing and investing money and policies around it there are some resident councils that are not fulfilling the expectations of HUD This book is my attempt to describe and explain HUD s expectations for the resident council as an active agent for community building and the actual practices of the resident council I argue that policies and regulations of resident councils which exist to support the effectiveness of the resident council in creating and implementing community building self sufficiency and empowerment activities and goals in a public housing community may do more harm than good The Department of Housing and Urban Development invests and spends billions on Public Housing Programs 6 6 billion in 2013 The majority of the 1 2 million people who live in public housing do not live in large urban areas with thousands of people confined to a certain space The majority of public housing units 90% have fewer than 500 units These smaller units and the people that live in them tend to go unnoticed This ethnographic case study focuses on explaining and understanding the factors and constraints that exist between HUD s expectations for the resident council as an active agent for community building and the actual practices of the resident council To explain the disjunction in fact to determine if such disjunctions identified by Rivertown council members are real Using the tenets of Critical Race Theory allows us to understand what forces either real or imagined structural or cultural prevent the resident council from being an effective agent for change in the public housing community

Japanese Apologies for World War II Jane Yamazaki,2006-05-17 Post war Japan offers a compelling case study of national apologies for past wrongdoings Actions of the Japanese Army and government during the Second World War caused enormous suffering and distress throughout Asia leaving a legacy of resentment and distrust Beginning in the mid 1980s apology for wartime actions became a recurring issue for Japan Repeated calls for apology from various quarters as well as repeated apologies by Japanese officials provide a rich source for the study of national apology and how public apology discourse develops over time Unlike most rhetorical studies that focus on apologia in the broad sense this study concentrates on the strategy of the true apology The study combines rhetorical sociological and historical approaches to address multiple examples of Japanese apology during the period 1984 to 1995 The author suggests that motive is more complex than the image restoration theory that is prevalent in rhetorical theory More specifically this study emphasizes repair of relationships self reflection leading to a new improved identity and affirmation of moral principle as reasons for apology
