Manhood and the American Renaissance David Leverenz, 2019-06-30 In the view of David Leverenz such nineteenth century American male writers as Emerson Hawthorne Melville Thoreau and Whitman were influenced more profoundly by the popular model of the entrepreneurial man of force than they were by their literary precursors and contemporaries Drawing on the insights of feminist theory gender studies psychoanalytical criticism and social history *Manhood and the American Renaissance* demonstrates that gender pressures and class conflicts played as critical a role in literary creation for the male writers of nineteenth century America as they did for the women writers Leverenz interprets male American authors in terms of three major ideologies of manhood linked to the social classes in the Northeast patrician artisan and entrepreneurial He asserts that the older ideologies of patrician gentility and of artisan independence were being challenged from 1820 to 1860 by the new middle class ideology of competitive individualism The male writers of the American Renaissance patrician almost without exception in their backgrounds and self expectations were fascinated yet horrified by the aggressive materialism and the rivalry for dominance they witnessed in the undeferential new men In close readings of the works both of well known male literary figures and of then popular authors such as Richard Henry Dana Jr and Francis Parkman Leverenz discovers a repressed center of manhood beset by fears of humiliation and masochistic fantasies He discerns different patterns in the works of Whitman with his artisan s background and Frederick Douglass who rose from artisan freedom to entrepreneurial power Emphasizing the interplay of class and gender Leverenz also considers how women viewed manhood He concludes that male writers portrayed manhood as a rivalry for dominance but contemporary female writers saw it as patriarchy Two chapters contrast the work of the genteel writers Sarah Hale and Caroline Kirkland with the evangelical works of Susan Warner and Harriet Beecher Stowe A bold and imaginative work *Manhood and the American Renaissance* will enlighten and inspire controversy among all students of American literature

nineteenth century American history and the relation of gender and literature

Women Writing Cloth Mary Jo Bona, 2015-12-09 *Women Writing Cloth* Migratory Fictions in the American Imaginary performs a ground breaking intervention by uncovering the relationship between literary cloth working women and migration in a range of American novels across centuries Bona demonstrates how four authors Nathaniel Hawthorne Alice Walker Sandra Cisneros and Adria Bernardi innovate on pre modern stories of weaving women in order to explore the intricate connections between handwork resourcefulness and mobility Refracted through the lens of women s migratory experiences vis vis cloth working aesthetics *Women Writing Cloth* examines varied aspects of sewing embroidering quilting and rebozo making as textual signifiers of mobility and preservation Through authorial innovation women s handwork constitutes a revolt against a devaluation of cultural heritage and a distrust of the self *Women Writing Cloth* argues that literary cloth working women inspire paradigmatic shifts in social codes due to portable skills that enabled their survival in the new world Bona paints a complex

picture of women whose migratory experiences taught them how to live within a stigmatizing culture and beneath institutional powers to control their artistry Fabric designs assume fuller multicultural meaning when textiles cross borders and tell unspeakable stories that expose constraints typifying gender race and heritage The authors examined simulate the artistic creativity of cloth work by interrogating traditional assumptions about representation chronology and spatial boundaries Women Writing Cloth breaks new ground to reveal the elaborate relationship between cloth work expertise and women s mobility Variations of cloth working women showcase a relationship between subversive artistry and institutional oppressions that compel strategies of resistance enable survival and inspired by migration construct inventive fabric creations Women Writing Cloth engages the activity of cloth work as a means of reclamation and subversive expression represented in American literature *The Scarlet Letter* Nathaniel Hawthorne,1991 National Imaginaries, American Identities Larry J. Reynolds,Gordon Hutner,2021-03-09 From the American Revolution to the present the United States has enjoyed a rich and persuasive visual culture These images have constructed sustained and disseminated social values and identities but this unwieldy sometimes untidy form of cultural expression has received less systematic attention than other modes of depicting American life Recently scholars in the humanities have developed a new critical approach to reading images and the cultural work they perform This practice American cultural iconography is generating sophisticated analyses of how images organize our public life The contributions to this volume exhibit the extraordinary scope and interpretive power of this interdisciplinary study while illuminating the dark corners of the nation s psyche Drawing on such varied texts and visual media as daguerreotypes political cartoons tourist posters and religious artifacts these essays explore how pictures and words combine to teach us who we are and who we are not They examine mimesis in elegant portraits of black Freemasons industrial age representations of national parks and postwar photographs of atomic destruction They consider how visual culture has described and disclosed the politics of racialized sexuality whether subconsciously affirming it in the shadows of film noir or deliberately contesting it through the interethnic incest of John Sayles s Lone Star Students of literature film and history will find that these essays extend the frontier of American studies The contributors are Maurice Wallace Dennis Berthold Alan Trachtenberg Shirley Samuels Jenny Franchot Cecelia Tichi Eric Lott Bryan C Taylor and Jos E Lim n A Theory of Narrative Rick Altman,2008 Narrative is a powerful element of human culture storing and sharing the cherished parts of our personal memories and giving structure to our laws entertainment and history This text presents a wide ranging and wholly original approach to understanding the nature of narrative **Philip Roth and World Literature: Transatlantic Perspectives and Uneasy Passages** Velichka D. Ivanova,2014-03-18 A book like this is long overdue because not many are aware of the numerous intersections between Philip Roth s fiction and world literature In highlighting these intersections and uneasy passages this comparative approach offers an important contribution to Philip Roth studies as well as to comparative literary study in general The fourteen chapters on this book summon Roth s intertextual links to

authors ranging from the anonymous writer of the medieval play Everyman through Thoreau Hawthorne Crane Ellison Coover and the New York intellectuals in the United States to Swift Chekhov Svevo Kafka Schulz Gombrowicz Camus and Kluge in Europe and on to Coetzee in South Africa The book does not deal with all the works in Roth's canon but it offers a selection of works representing the different stages of Roth's development as a writer By offering new readings of both well studied and lesser studied works sometimes in unexpected company the book discloses the critical difference that comparative scholarship can affect The uneasy passages the book opens will not exhaust the numerous intersections between Roth and the work of other writers The book's contribution is to place Roth's fiction firmly in a larger transnational context Far from insular Roth's work appears as deeply rooted in the American canon while at the same time showing a remarkable openness a persistent need for contact with his European forebears and true engagement with contemporary world literature The transnational perspective of the book makes it important for the rapidly growing field of transatlantic and transnational American studies The book will be value to collections in American literature and Jewish studies comparative literature and criticism and transatlantic and transnational American studies

Bruce Springsteen, Cultural Studies, and the Runaway American Dream Jerry Zolten, 2016-05-23 There is little question about the incredible power of Bruce Springsteen's work as a particularly transformative art as a lyrical and musical fusion that never shies away from sifting through the rubble of human conflict As Rolling Stone magazine's Parke Puterbaugh observes Springsteen is a peerless songwriter and consummate artist whose every painstakingly crafted album serves as an impassioned and literate pulse taking of a generation's fortunes He is the foremost live performer in the history of rock and roll a self-described prisoner of the music he loves for whom every show is played as if it might be his last In recent decades Puterbaugh adds Springsteen's music developed a conscience that didn't ignore the darkening of the runaway American Dream as the country greedily blundered its way through the 1980s and into the sociocultural detritus of a new century paralysed by isolation and uncertainty Bruce Springsteen Cultural Studies and the Runaway American Dream reflects the significant critical interest in understanding Springsteen's resounding impact upon the ways in which we think and feel about politics religion gender and the pursuit of the American Dream By assembling a host of essays that engage in interdisciplinary commentary regarding one of Western culture's most enduring artistic and socially radicalizing phenomena this book offers a cohesive intellectual and often entertaining introduction to the many ways in which Springsteen continues to impact our lives by challenging our minds through his lyrics and music

Gothic Elements and Religion in Nathaniel Hawthorne's Fiction Wendy C. Graham, 1999 **The Sketch, the Tale, and the Beginnings of American Literature** Lydia G. Fash, 2020-03-31 Accounts of the rise of American literature often start in the 1850s with a cluster of great American novels Hawthorne's The Scarlet Letter Melville's Moby Dick and Stowe's Uncle Tom's Cabin But these great works did not spring fully formed from the heads of their creators All three relied on conventions of short fiction built up during the culture of beginnings the three decades

following the War of 1812 when public figures glorified the American past and called for a patriotic national literature Decentering the novel as the favored form of early nineteenth century national literature Lydia Fash repositions the sketch and the tale at the center of accounts of American literary history revealing how cultural forces shaped short fiction that was subsequently mined for these celebrated midcentury novels and for the first novel published by an African American In the shorter works of writers such as Washington Irving Catharine Sedgwick Edgar Allan Poe and Lydia Maria Child among others the aesthetic of brevity enabled the beginning idea of a story to take the outsized importance fitted to the culture of beginnings Fash argues that these short forms with their ethnic exclusions and narrative innovations coached readers on how to think about the United States past and the nature of narrative time itself Combining history print history and literary criticism this book treats short fiction as a vital site for debate over what it meant to be American thereby offering a new account of the birth of a self consciously national literary tradition
