Karaites in the medieval Islamic world eschewed historical thinking in concert with their rejection of the rabbinic concept of tradition. One important medieval Karaite, al-Qirqisani, however, constructed a sophisticated historical argument as part of his philosophical exposition of Karaism, demonstrating theological and philosophical strategies common in Islam and Christianity. The center of Karaism shifted to the Byzantine Turkish world during the twelfth through sixteenth centuries when a new historical outlook, unoblivious of the past, accommodated legal developments influenced by rabbinic thought. Reconstructing Karaite historical expression from both published works and previously unexamined manuscripts, Astren shows that Karaites relied on rabbinic literature to extract and compile historical data for their own readings of Jewish history, which they recorded in an encyclopedic literature similar to contemporary Byzantine Christian Orthodox writing. Astren documents how as the Karaites moved toward a concept of tradition and echoed rabbinic historical formulations, they developed a version of the chain of tradition to link archaic biblical history to their own community. During the seventeenth and eighteenth centuries, Karaite scholars in Poland and Lithuania collated and harmonized historical materials inherited from their Middle Eastern predecessors. Astren portrays the way that Karaites, with some influence from Jewish Renaissance historiography and impelled by features of Protestant Catholic discourse, prepared complete literary historical works that maintained their Jewishness while offering a Karaite reading of Jewish history.

#### **Serving Byzantium's Emperors** Dimitris

Krallis, 2019-01-31 This book is a microhistory of eleventh-century Byzantium built around the biography of the state official Michael Attaleiates. Dimitris Krallis presents Byzantium as a cohesive, ever-evolving dynamic Roman political community built on traditions of Roman governance and Hellenic culture. In the eleventh century, Byzantium faced a crisis as it navigated a shifting international environment of feudal polities, merchant republics, steppe migrations, and a rapidly transforming Islamic world. Attaleiates' life, from provincial birth to Constantinopolitan death and career as a member of an ancient empire's officialdom, raises questions of identity, family, education, governance, elite culture, Romaness, Hellenism, science, and skepticism, as well as political ideology during this period. The life and work of Attaleiates is used as a prism through which to examine important questions about a long-lived medieval polity that is usually studied as exotic and distinct from both the European and the Near Eastern historical experience.

#### Latin in Byzantium III Ioannis Deligiannis, Vasileios

Pappas, Vaios Vaiopoulos, 2020 The first study that focuses on the extent of the knowledge of Latin and Roman culture by Post-Byzantine scholars, 15th–19th cent. This volume aims at filling a major gap in international literature concerning the knowledge of the Latin language and literature by Post-Byzantine scholars from the Fifteenth to the Nineteenth centuries. Most of them, immigrants to the West after the Fall of Byzantium, harmoniously integrated into their host countries, practiced and perfected their knowledge of the Latin language and literature, excelled in arts and letters, and in many cases managed to obtain civil, political, and clerical offices. They wrote original poetic and prose works in Latin for literary, scholarly, and/or political purposes. They also translated Greek texts into Latin and vice versa. The contributors to this volume explore the

multifaceted aspects of the knowledge of the Latin language and literature by these scholars Among the many issues addressed in the volume are a the reasons that urged Post Byzantine scholars to compose Latin works and disseminate Ancient Greek works to the West and Latin texts to the East b their audience c the fate of their projects d their relations among them and with Western scholars In the contents of the volume one can identify well known Post Byzantine scholars such as Bessarion or Isidore of Kiev as well as less known ones like Ioannis Gemistos Nikolaos Sekoundinos and others Hence hereby is provided a canon of scholars who albeit Greek are considered essentially as representatives of Neo Latin literature along with others who through their translations contributed to the rapprochement literary and political of East and West

*The Byzantines* Averil Cameron, 2009-02-04 Winner of the 2006 John D Criticos Prize This book introduces the reader to the complex history ethnicity and identity of the Byzantines This volume brings Byzantium often misconstrued as a vanished successor to the classical world to the forefront of European history Deconstructs stereotypes surrounding Byzantium
