**Canada and the Second World War** Geoffrey Hayes, Mike Bechthold, Matt Symes,2013-02-01 Terry Copp's tireless teaching research and writing has challenged generations of Canadian veterans teachers and students to discover an informed memory of their country's role in the Second World War This collection drawn from the work of Terry's colleagues and former students considers Canada and the Second World War from a wealth of perspectives Social cultural and military historians address topics under five headings The Home Front The War of the Scientists The Mediterranean Theatre Normandy Northwest Europe and The Aftermath The questions considered are varied and provocative How did Canadian youth and First Nations peoples understand their wartime role What position did a Canadian scientist play in the Allied victory and in the peace Were veterans of the Mediterranean justified in thinking theirs was the neglected theatre How did the Canadians in Normandy overcome their opponents but not their historians Why was a Cambridge scholar attached to First Canadian Army to protect monuments And why did Canadians come to commemorate the Second World War in much the same way they commemorated the First The study of Canada in the Second World War continues to challenge confound and surprise In the questions it poses the evidence it considers and the conclusions it draws this important collection says much about the lasting influence of the work of Terry Copp Foreword by John Cleghorn

**The Scientific Imagination in South Africa** William Beinart, Saul Dubow,2021-05-20 An innovative three hundred year exploration of the social and political contexts of science and the scientific imagination in South Africa

**Mission, Science, and Race in South Africa** Keith Snedegar,2015-09-17 This is a biographical study of Alexander William Roberts a Free Church of Scotland missionary educator who in 1883 was posted to the Lovedale Institution at Alice South Africa Inspired by the night sky of the southern hemisphere Roberts became a leading observer of variable stars and

an early contributor to the theory of close interacting binary stars He actively promoted the development of colonial scientific culture and was elected president of the South African Association for the Advancement of Science in 1913 His teaching career at Lovedale fostered a commitment to the interests of his African students and their communities In 1920 Roberts was appointed to the South African senate to represent native Africans he also served as senior member of the Native Affairs Commission Despite his liberal instincts he acquiesced to the movement toward racial segregation as advanced in the Natives Urban Areas and Native Administration Acts Roberts nonetheless militated against the erosion of the Cape non racial franchise rights he resigned from the Native Affairs Commission just as the all white parliament was poised to remove Africans from the common voters roll His engagement with the politics of race interfered with Roberts s astronomical research Although he published nearly one hundred papers in scientific journals most of his observational data remained unknown until the Boyden Observatory s Roberts archive was digitized in 2006 His influence as a mission educator also has been little known although among his pupils were journalist and academic D D T Jabavu the physician James Moroka and Swazi king Sobhuza I

**A Commonwealth of Knowledge** Saul Dubow, 2006-10-19 This is the first full study of the relationship of knowledge to national identity formation in modern South Africa It explores how the cultivation of knowledge served to support white political ascendancy and claims to nationhood Elegantly written and wide ranging the book addresses major themes in both South African and comparative imperial historiography

**Maestro of Science** Jason S. Ridler, 2015-01-01 Jason S Ridler draws on interviews and declassified records to paint a vivid picture of the influence and achievements of a Canadian leader in Cold War military research

**South African Journal of Science**, 2004 The Naval War in South African Waters, 1939-1945 Evert Kleynhans, 2022-03-23 The Naval War in South African Waters 1939 1945 provides a critical reappraisal of the naval war waged in South African waters during the Second World War The book investigates this broad topic by focussing on several interrelated aspects such as the wartime strategic importance of South African waters the rival Axis and Allied naval strategies in the southern oceans the development of the South African coastal defence system the full extent of the Axis naval operations in the southern oceans the naval intelligence war and finally the antisubmarine war waged in South African waters Based on extensive archival research in South Africa and the United Kingdom and supplemented by a wealth of secondary material the book introduces a fresh in depth discussion on a largely forgotten episode of South African military history

**Communications and British Operations on the Western Front, 1914-1918** Brian N. Hall, 2017-06-07 This is an important new study examining the military operations of the British Expeditionary Force in 1914 18 through the lens of its communications system Brian Hall charts how new communications technology such as wireless telephone and telegraph were used alongside visual signalling carrier pigeons and runners as the British army struggled to develop a communication system adequate enough to wage modern warfare He reveals how tenuous communications added to the difficulties of command and control during the war s early years and examines their

role during the major battles of the Somme Arras Ypres and Cambrai It was only in 1918 that the British army would finally develop a flexible and sophisticated communications system capable of effectively coordinating infantry artillery tanks and aeroplanes This is a major contribution to our understanding of British military operations during the First World War the learning processes of armies and the revolution in military affairs

**Reappraising the Life and Legacy of Jan C. Smuts** David Boucher, Bongani Ngqulunga, 2024-08-01 In this book the authors cover both familiar and unfamiliar themes One of the principal themes running throughout the book addresses head on the deficiency in the literature highlighted by Saul Dubow namely the question of racism and Smuts's reluctance to implement native policies that may have averted future problems rather than postpone them We see throughout a gap between the rhetoric and policy and between policy and practice in its implementation Amongst the familiar themes that are reappraised are Smuts's successes and failures in policies and leadership domestically and internationally This wide ranging volume re-evaluates myriad aspects of Smuts's life philosophy political career and legacy An important and timely book exploring one of South Africa's most consequential and controversial leaders Luc Andre Brunet Contemporary International History The Open University The book is a great contribution to South African cultural and social history With the military element covered in other publications the editors and authors have focussed on the less well trodden aspects of Smuts's history including but not limited to discussions on the atomic bomb counter revolution film early cabinets racialism trusteeship greatness political philosophy racial segregation and myth making The editors have skilfully continued the longer political discussion reflecting on the myth and legacy of a prominent South African Smuts Antonio Garcia Stellenbosch University coauthor of *Botha Smuts and the First World War* co-founder *Underground Strategy*

**The History of Geophysics in Southern Africa** Johan H de Beer, 2016-01-25 Geophysics is a comparatively young science which only evolved as a distinct discipline during the 19th century However its phenomena like earthquakes tsunamis volcanic eruptions and lightning had been objects of fear curiosity and speculation since ancient times In this book Johan de Beer and his research team reveal that geophysical activity in South Africa can be traced back to as early as 1488 This is a truly astonishing revelation which deserves to be firmly entrenched as part of the country's proud history The book also discusses the history and formation of South African geophysical institutions that made a huge and seldom acknowledged contribution to the technological development of southern Africa

**Being Nuclear** Gabrielle Hecht, 2014-08-29 The hidden history of African uranium and what it means for a state an object an industry a workplace to be nuclear Uranium from Africa has long been a major source of fuel for nuclear power and atomic weapons including the bomb dropped on Hiroshima In 2003 after the infamous yellow cake from Niger Africa suddenly became notorious as a source of uranium a component of nuclear weapons But did that admit Niger or any of Africa's other uranium producing countries to the select society of nuclear states Does uranium itself count as a nuclear thing In this book Gabrielle Hecht lucidly probes the question of what it means for something a state an object an industry a workplace to be nuclear Hecht

shows that questions about being nuclear a state that she calls nuclearity lie at the heart of today's global nuclear order and the relationships between developing nations often former colonies and nuclear powers often former colonizers Hecht enters African nuclear worlds focusing on miners and the occupational hazard of radiation exposure Could a mine be a nuclear workplace if as in some South African mines its radiation levels went undetected and unmeasured With this book Hecht is the first to put Africa in the nuclear world and the nuclear world in Africa By doing so she remakes our understanding of the nuclear age

**12 Seconds of Silence** Jamie Holmes, 2020 The riveting story of the American scientists tinkerers and nerds who solved one of the biggest puzzles of World War II and developed one of the most powerful weapons of the war 12 Seconds of Silence is the remarkable lost story of how a rag tag group of American scientists overcame one of the toughest problems of World War II Shooting things out of the sky Working in a secretive organization known as Section T a team of physicists engineers and everyday Joes and Janes created one of the world's first smart weapons the proximity fuse The tiny gadget allowed an artillery shell to know when to explode to bring down an aircraft Against overwhelming odds and in a race against time mustering every scrap of resource ingenuity and insight the scientists of Section T would eventually save countless lives rescue the city of London from the onslaught of a Nazi superweapon and help bring about the Axis defeat A holy grail sought after by Allied and Axis powers alike the fuse ranks with the atomic bomb as one of the most revolutionary technologies of the Second World War Until now its tale was largely untold For fans of Erik Larson and Ben Macintyre set amidst the fog of espionage dueling spies and the dawn of an age when science would determine the fate of the world 12 Seconds of Silence is a tribute to the extraordinary wartime mobilization of American science and the ultimate can do story

**Out of the Blue** John Friedman, 2009 The odds of being hit by lightning each year are only about 1 in 750 000 in the U S And yet this rare phenomenon has inspired both fear and fascination for thousands of years In this groundbreaking brilliantly researched book journalist John S Friedman probes lightning's scientific spiritual and cultural roots Blending vibrant history with riveting first hand accounts of those who have clashed with lightning and lived to tell about it Out of the Blue charts an extraordinary journey across the ages that explores our awe and dread in the face of one of nature's most fearsome spectacles Herman Melville called it God's burning finger The ancient Romans feared it as the wrath of God Today we have a more scientific understanding so why our eternal fascination with lightning Out of the Blue attempts to understand this towering force of nature exploring the changing perceptions of lightning from the earliest civilizations through Ben Franklin's revolutionary experiments to the hair raising adventures of storm chasers like David Hoadley who's been chronicling extreme weather for half a century And Friedman describes one of the most treacherous rescues ever attempted in American mountain climbing Friedman profiles a Virginia ranger who was struck by lightning seven times and dubbed the human lightning rod along with scores of others who tell astonishing tales of rescue and survival And he charts lightning's profound life altering effects on the emotional and spiritual lives of its victims Combining captivating fact with thrilling personal stories

Out of the Blue tells a remarkable true tale of fate and coincidence discovery and divine retribution science and superstition As entertaining as it is informative it is a book for outdoor adventurers sports enthusiasts science and weather buffs nature lovers and anyone who has ever been awed or frightened by the sight of lightning From the Hardcover edition Handbook of the International Political Economy of Energy and Natural Resources Andreas Goldthau, Michael F. Keating, 2018-01-26 This Handbook offers a comprehensive overview of the latest research from leading scholars on the international political economy of energy and resources Highlighting the important conceptual and empirical themes the chapters study all levels of governance from global to local and explore the wide range of issues emerging in a changing political and economic environment *Krygshistoriese Tydskrif*, 2001 *Lightning* Vladimir A. Rakov, Martin A. Uman, 2007-01-08 Lightning Physics and Effects is the first book that covers essentially all aspects of lightning including lightning physics lightning protection and the interaction of lightning with a variety of objects and systems as well as with the environment It is written in a style that will be accessible to the technical non expert and is addressed to anyone interested in lightning and its effects This will include physicists engineers working in the power communications computer and aviation industries meteorologists atmospheric chemists foresters ecologists physicians working in the area of electrical trauma and architects This comprehensive reference volume contains over 300 illustrations 70 tables containing quantitative information and a bibliography of more than 6000 references **A Place That Matters Yet** Sara Byala, 2024-05-31 A Place That Matters Yet unearths the little known story of Johannesburg s MuseumAfrica a South African history museum that embodies one of the most dynamic and fraught stories of colonialism and postcolonialism its life spanning the eras before during and after apartheid Sara Byala in examining this story sheds new light not only on racism and its institutionalization in South Africa but also on the problems facing any museum that is charged with navigating colonial history from a postcolonial perspective Drawing on thirty years of personal letters and public writings by museum founder John Gubbins Byala paints a picture of a uniquely progressive colonist focusing on his philosophical notion of three dimensional thinking which aimed to transcend binaries and thus quite explicitly racism Unfortunately Gubbins died within weeks of the museum s opening and his hopes would go unrealized as the museum fell in line with emergent apartheid politics Following the museum through this transformation and on to its 1994 reconfiguration as a post apartheid institution Byala showcases it as a rich and problematic archive of both material culture and the ideas that surround that culture arguing for its continued importance in the establishment of a unified South Africa
