

Preparation of Papers for International Journal of Scientific & Engineering Research

First Author, Second Author, Third Author

Abstract— These instructions give you guidelines for preparing papers for IJSER JOURNALS. Use this document as a template if you are using Microsoft Word 6.0 or later. Otherwise, use this document as an instruction set. The electronic file of your paper will be formatted further at IJSER. Define all symbols used in the abstract. Do not cite references in the abstract. Do not delete the blank line immediately above the abstract; it sets the footnote at the bottom of this column. Don't use all caps for research paper title.

Index Terms— Minimum 7 keywords are mandatory. Keywords should closely reflect the topic and should optimally characterize the paper. Use about four key words or phrases in alphabetical order, separated by commas.

1 INTRODUCTION

THIS document is a template for Microsoft Word versions 6.0 or later. If you are reading a paper version of this document, please download the electronic file from the [template download page](#) so you can use it to prepare your manuscript.

When you open the document, select "Page Layout" from the "View" menu in the menu bar (View | Page Layout), which allows you to see the footnotes. Then type over sections of the document or cut and paste from another document and then use markup styles. Please keep the template at 8.5" x 11"—do not set the template for A4 paper. The pull-down style menu is at the left of the Formatting Toolbar at the top of your Word window (for example, the style at this point in the document is "Text"). Highlight a section that you want to designate with a certain style, then select the appropriate name on the style menu. The style will adjust your fonts and line spacing. Use italics for emphasis; do not underline. Do not change the font sizes or line spacing to squeeze more text into a limited number of pages. Please be certain to follow all submission guidelines when formatting an article or it will be returned for reformatting.

To modify the running headings, select View | Header and Footer. Click inside the text box to type the name of the journal the article is being submitted to and the manuscript identification number. Click the forward arrow in the pop-up tool bar to modify the header or footer on subsequent pages.

IJSER staff will edit and complete the final formatting of your paper.

2 PROCEDURE FOR PAPER SUBMISSION

2.1 Review Stage

Detailed submission guidelines can be found on the author resources Web pages. Author resource guidelines are specific to each journal, so please be sure to refer to the correct journal when seeking information. All authors are responsible for understanding these guidelines before submitting their manuscript. For further information on both submission guidelines, authors are strongly encouraged to refer to <http://www.ijser.org>.

2.2 Final Stage

For papers accepted for publication, it is essential that the electronic version of the manuscript and artwork match the hardcopy exactly! The quality and accuracy of the content of the electronic material submitted is crucial since the content is not recreated, but rather converted into the final published version.

All papers in IJSER Transactions are edited electronically. A final submission materials check list, transmission and compression information, and general publication materials can be found at: <http://www.ijser.org>.

2.3 Figures

All tables and figures will be processed as images. You need to embed the images in the paper itself. Please don't send the images as separate files.

2.4 Copyright Form

An IJSER copyright form must accompany your final submission. You can get a .pdf, .html, or .doc version at

Introduction to Engineering Research Wendy C. Crone, 2020-06-01 Undergraduate and first year graduate students engaging in engineering research need more than technical skills and tools to be successful From finding a research position and funding to getting the mentoring needed to be successful while conducting research responsibly to learning how to do the other aspects of research associated with project management and communication this book provides novice researchers with the guidance they need to begin developing mastery Awareness and deeper understanding of the broader context of research reduces barriers to success increases capacity to contribute to a research team and enhances ability to work both independently and collaboratively Being prepared for what s to come and knowing the questions to ask along the way allows those entering researcher to become more comfortable engaging with not only the research itself but also their colleagues and mentors

Science & Engineering Indicators ,1998 Sex-Specific Reporting of Scientific Research Institute of Medicine, Board on Population Health and Public Health Practice, 2012-02-13 The number of women participating in clinical trials has increased during the last two decades but women are still underrepresented in clinical trials in general Some of the overall increase can be attributed to the greater number of women only trials of therapies for diseases that affect only women Even when women are included in clinical trials the results are often not analyzed separately by sex On August 30 2011 the Institute of Medicine IOM Board on Population Health and Public Health Practice hosted the workshop Sex Specific Reporting of Scientific Research The workshop explored the need for sex specific reporting of scientific results potential barriers and unintended consequences of sex specific reporting of scientific results experiences of journals that have implemented sex specific requirements including the challenges and benefits of such editorial policies and steps to facilitate the reporting of sex specific results Presenters and participants included current and former editors of scientific journals researchers and scientists and policymakers from government industry and nonprofit organizations Presentations and discussions highlighted the importance to both women and men of having sex specific data the problems with sample size and financial constraints for conducting the research the appropriateness of sex specific analyses and the limitations of journal policies to change experimental designs Sex Specific Reporting of Scientific Research summarizes the presentations and discussions by the expert panelists during the IOM workshop The workshop s first session focused on why sex specific reporting is important Panelists highlighted historical and current events that have hindered or helped to advance the study of women In the next session panelists in academe discussed the challenges of collecting analyzing and reporting sex specific data from the researcher s perspective That was followed by two panels of leading journal editors who shared their experiences in developing and implementing editorial policies and the implications of sex specific reporting policies for journals

Critical Needs for Research in Veterinary Science National Research Council, Division on Earth and Life Studies, Board on Agriculture and Natural Resources, Committee on the National Needs for Research in Veterinary

Science,2005-11-18 Research in veterinary science is critical for the health and well being of animals including humans Food safety emerging infectious diseases the development of new therapies and the possibility of bioterrorism are examples of issues addressed by veterinary science that have an impact on both human and animal health However there is a lack of scientists engaged in veterinary research Too few veterinarians pursue research careers and there is a shortage of facilities and funding for conducting research This report identifies questions and issues that veterinary research can help to address and discusses the scientific expertise and infrastructure needed to meet the most critical research needs The report finds that there is an urgent need to provide adequate resources for investigators training programs and facilities involved in veterinary research

Engineering Research and America's Future National Academy of Engineering,Committee to Assess the Capacity of the U.S. Engineering Research Enterprise,2005-10-06 Leadership in innovation is essential to U S prosperity and security In a global knowledge driven economy technological innovation the transformation of new knowledge into products processes and services of value to society is critical to competitiveness long term productivity growth and an improved quality of life Preeminence in technological innovation depends on a wide array of factors one of which is leadership in engineering research education and practice A threedecade long decline in the share of federal investment in research and development devoted to engineering and a perceived erosion of basic long term engineering research capability in U S industry and federal laboratories have raised serious questions about the long term health of engineering research in the United States This book illustrates the critical role of engineering research in maintaining U S technological leadership documents major challenges and opportunities facing the U S engineering research enterprise and offers specific recommendations for leaders in federal and state government industry and universities to help strengthen U S engineering research in the face of intensifying global competition

National Need and Priorities for Veterinarians in Biomedical Research National Research Council,Division on Earth and Life Studies,Institute for Laboratory Animal Research,Committee on Increasing Veterinary Involvement in Biomedical Research,2004-01-31 The report identified various factors which contributed to creating an unfulfilled need for veterinarians in the biomedical research workforce including an increase in the number of NIH grants utilizing animals and the burgeoning use of transgenic rodents without a comparable change in the supply of appropriately trained veterinarians The committee developed strategies for recruiting more veterinarians into careers in biomedical research

Review of the Draft Research and Restoration Plan for Arctic-Yukon-Kuskokwim (Western Alaska) Salmon National Research Council,Division on Earth and Life Studies,Polar Research Board,Board on Environmental Studies and Toxicology,Committee on Review of Arctic-Yukon-Kuskokwim (Western Alaska) Research and Restoration Plan for Salmon,2006-03-27 Declines in the abundance of salmon in the Arctic Yukon Kuskokwim AYK region of western Alaska in the late 1990s and early 2000s created hardships for the people and communities who depend on this resource Based on recommendations from a 2004 National Academies report the AYK Sustainable Salmon Initiative SSI

developed a research and restoration plan to help understand the reasons for this decline and to help support sustainable management in the region This report reviews the draft plan recommending some clarification shortening and other improvements with a better focus on the relationship between the underlying intellectual model and the research questions and a clearer discussion of local and traditional knowledge and capacity building *Advancing the Federal Research Agenda on Violence Against Women* National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Law and Justice, Steering Committee for the Workshop on Issues in Research on Violence Against Women, 2004-02-27 This report expands on the work of an earlier National Research Council panel whose report *Understanding Violence Against Women* was published in 1996 The report is based on the presentations and deliberations of a workshop convened in January 2002 at the request of Congress to develop a detailed research agenda on violence against women While some of the research recommendations in the earlier report have been funded and carried out the workshop demonstrated that important gaps remain For example prevalence and incidence data are still inadequate to measure trends or to reveal whether interventions being designed under federal programs are in fact working Among its primary recommendations the committee underscored the importance of strengthening the data and research infrastructure in this area especially the need for better prevalence data and longitudinal data to determine the causes of violent victimization of women and the impact of interventions

Critical Infrastructure for Ocean Research and Societal Needs in 2030

National Research Council, Division on Earth and Life Studies, Ocean Studies Board, Committee on an Ocean Infrastructure Strategy for U.S. Ocean Research in 2030, 2011-07-24 The United States has jurisdiction over 3.4 million square miles of ocean in its exclusive economic zone a size exceeding the combined land area of the 50 states This expansive marine area represents a prime national domain for activities such as maritime transportation national security energy and mineral extraction fisheries and aquaculture and tourism and recreation However it also carries with it the threat of damaging and outbreaks of waterborne pathogens The 2010 Gulf of Mexico Deepwater Horizon oil spill and the 2011 Japanese earthquake and tsunami are vivid reminders that ocean activities and processes have direct human implications both nationally and worldwide understanding of the ocean system is still incomplete and ocean research infrastructure is needed to support both fundamental research and societal priorities Given current struggles to maintain operate and upgrade major infrastructure elements while maintaining a robust research portfolio a strategic plan is needed for future investments to ensure that new facilities provide the greatest value least redundancy and highest efficiency in terms of operation and flexibility to incorporate new technological advances *Critical Infrastructure for Ocean Research and Societal Needs in 2030* identifies major research questions anticipated to be at the forefront of ocean science in 2030 based on national and international assessments input from the worldwide scientific community and ongoing research planning activities This report defines categories of infrastructure that should be included in planning for the nation's ocean research infrastructure of 2030 and

that will be required to answer the major research questions of the future Critical Infrastructure for Ocean Research and Societal Needs in 2030 provides advice on the criteria and processes that could be used to set priorities for the development of new ocean infrastructure or replacement of existing facilities In addition this report recommends ways in which the federal agencies can maximize the value of investments in ocean infrastructure **Dietary Reference Intakes Research**

Synthesis Institute of Medicine, Food and Nutrition Board, 2007-02-05 What information is available to inform the planning of a nutrition research agenda for the United States and Canada This question provided the backdrop for the Dietary Reference Intakes Research Synthesis project undertaken by the Food and Nutrition Board of the Institute of Medicine IOM of the National Academies The Dietary Reference Intakes DRIs are quantitative reference values for recommended intakes and tolerable upper intake levels for a range of nutrients They are used widely by dietitians in individual counseling by federal nutrition officials in program and policy development and by the nutrition research and education communities in government academia and industry Between 1997 and 2005 the IOM published a series of six DRI reports covering a total of 45 nutrients energy and other food components The IOM also issued two reports describing ways to apply the DRIs in assessment and planning Together these eight reports contain more than 450 research recommendations and thus a wealth of information pertinent to a nutrition research agenda To make the recommendations more accessible the Food and Nutrition Board undertook a project with two major elements 1 the development of a searchable database of all the DRI research recommendations and 2 the Dietary Reference Intakes Research Synthesis Workshop held June 7 8 2006 which was designed to provide a venue for hearing and discussing experts perspectives on the research recommendations identified in the DRI reports Two members of the workshop planning group Drs John W Suttie and Susan J Whiting moderated the DRI Research Synthesis Workshop After an overview and demonstration of the DRI Research Synthesis Database panels of experts addressed DRI research recommendations related to each of the six DRI nutrient reports the two DRI applications reports and three cross cutting topics 1 setting DRIs for children 2 Tolerable Upper Intake Levels and 3 relevant new and underutilized research techniques This report is a summary of the workshop presentations and discussions

Understanding Interventions That Encourage Minorities to Pursue Research Careers National Research Council, Division on Earth and Life Studies, Board on Life Sciences, 2007-11-12 Minority groups are severely underrepresented in the scientific workforce To encourage minorities to pursue careers in research a variety of intervention programs have been created at the pre college college and graduate school levels While there is a belief that these programs often achieve their goals there is relatively little understanding of the factors that contribute to that success The Division of Minority Opportunities in Research MORE at the National Institute of General Medical Sciences of the National Institutes of Health has established a grant program to support research to better understand the factors that contribute to the success of intervention programs The MORE Division asked the National Academies to organize a workshop focusing on issues addressed by the grant

program This workshop summary presents examples of previous research on intervention programs describes ways to formulate effective research questions and conduct research to identify the key elements that lead to successful intervention programs and outlines ways to foster a community of researchers in this area National Patterns of Science and Technology Resources National Science Foundation (U.S.),1982 *Panel Reports of the Commission on Marine Science, Engineering and Resources* United States. Cooperative Research in the National Marine Fisheries Service National Research Council,Division on Earth and Life Studies,Ocean Studies Board,Committee on Cooperative Research in the National Marine Fisheries Service,2003-10-14 In recent years there has been growing interest in having fisheries stakeholders involved in various aspects of fisheries data collection and experimentation This activity is generally known as cooperative research and may take many forms including gear technology studies bycatch avoidance studies and surveys While the process is not new the current interest in cooperative research and the growing frequency of direct budgetary allocation for cooperative research prompted this report Cooperative Research in the National Marine Fisheries Service addresses issues essential for the effective design and implementation of cooperative and collaborative research programs **Informatics Needs and Challenges in Cancer Research** Institute of Medicine,Board on Health Care Services,National Cancer Policy Forum,2012-10-02 As information technology becomes an integral part of health care it is important to collect and analyze data in a way that makes the information understandable and useful Informatics tools which help collect organize and analyze data are essential to biomedical and health research and development The field of cancer research is facing an overwhelming deluge of data heightening the national urgency to find solutions to support and sustain the cancer informatics ecosystem There is a particular need to integrate research and clinical data to facilitate personalized medicine approaches to cancer prevention and treatment for example tailoring treatment based on an individual patient s genetic makeup as well as that of the tumor and to allow for more rapid learning from patient experiences To further examine informatics needs and challenges for 21st century biomedical research the IOM s National Cancer Policy Forum held a workshop February 27 28 2012 The workshop was designed to raise awareness of the critical and urgent importance of the challenges gaps and opportunities in informatics to frame the issues surrounding the development of an integrated system of cancer informatics for acceleration of research and to discuss solutions for transformation of the cancer informatics enterprise Informatics Needs and Challenges in Cancer Research Workshop Summary summarizes the workshop **Enabling Ocean Research in the 21st Century** National Research Council,Division on Earth and Life Studies,Ocean Studies Board,Committee on the Implementation of a Seafloor Observatory Network for Oceanographic Research,2003-11-14 As the importance of the oceans to society grows so does the need to understand their variation on many temporal and spatial scales This need to understand ocean change is compelling scientists to move beyond traditional expeditionary modes of investigation Observing systems

will enable the study of processes in the ocean basins over varying timescales and spatial scales providing the scientific basis for addressing important societal concerns such as climate change natural hazards and the health and viability of living and non living resources along our coasts and in the open ocean The book evaluates the scientific and technical readiness to move ahead with the establishment of a research driven ocean observatory network and highlights outstanding issues These issues include the status of planning and development factors that affect the timing of construction and installation the cost and requirements for maintenance and operations needs for sensor development and data management the impact on availability of ships and deep submergence facilities and the role of research based observatories within national and international operational ocean observing systems being developed and implemented

Research on Power-Frequency Fields Completed Under the Energy Policy Act of 1992 National Research Council, Division on Earth and Life Studies, Commission on Life Sciences, Committee to Review the Research Activities Completed Under the Energy Policy Act of 1992, 1999-06-07 Since the 1970s concerns about health hazards associated with electric and magnetic fields from power lines and from workplace school and household use of electricity have led to many studies and continued controversy about whether adverse health effects occur In the Energy Policy Act of 1992 Public Law 102 486 Congress authorized a focused national research program to study the possible health effects of exposure to low intensity 60 hertz electric and magnetic fields In response to this legislation and at the request of the Department of Energy DOE the National Research Council established a committee under the Board on Radiation Effects Research BRER in the Commission on Life Sciences CLS to aid in its review of the power frequency magnetic field research activities completed under the Electric and Magnetic Fields Research and Public Information Dissemination EMF RAPID program that was authorized by the Energy Policy Act The Research Council's Committee to Review the Research Activities Completed Under the Energy Policy Act of 1992 EPACT was asked to review the EMF RAPID program implemented by DOE and the National Institute of Environmental Health Sciences NIEHS and research strategies suggested by other federal and nonfederal groups

Identification of Research Needs Relating to Potential Biological or Adverse Health Effects of Wireless Communication Devices National Research Council, Division on Earth and Life Studies, Nuclear and Radiation Studies Board, Committee on Identification of Research Needs Relating to Potential Biological or Adverse Health Effects of Wireless Communications Devices, 2008-02-29 In recent years there has been a rapid increase in the use of wireless communications devices and a great deal of research has been carried out to investigate possible biological or human health effects resulting from their use The U S Food and Drug Administration asked the National Research Council to organize a workshop to identify research needs and gaps in knowledge in the areas of dosimetry and exposure epidemiology human laboratory studies mechanisms and animal and cell biology The workshop did not include the evaluation of health effects or the generation of recommendations relating to how identified research needs should be met Some needs and gaps identified at the workshop include 1 characterization of

exposures from wireless devices and RF base station antennas in juveniles children fetuses and pregnant women and 2
evaluation of devices that use newer technologies e g texting web surfing **Research Priorities for Assessing Health

Scientific And Engineering Res Introduction

Scientific And Engineering Res Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Scientific And Engineering Res Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Scientific And Engineering Res : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Scientific And Engineering Res : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Scientific And Engineering Res Offers a diverse range of free eBooks across various genres. Scientific And Engineering Res Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Scientific And Engineering Res Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Scientific And Engineering Res, especially related to Scientific And Engineering Res, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Scientific And Engineering Res, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Scientific And Engineering Res books or magazines might include. Look for these in online stores or libraries. Remember that while Scientific And Engineering Res, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Scientific And Engineering Res eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Scientific And Engineering Res full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Scientific And Engineering Res eBooks, including some popular titles.

FAQs About Scientific And Engineering Res Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Scientific And Engineering Res is one of the best book in our library for free trial. We provide copy of Scientific And Engineering Res in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Scientific And Engineering Res. Where to download Scientific And Engineering Res online for free? Are you looking for Scientific And Engineering Res PDF? This is definitely going to save you time and cash in something you should think about. If you trying to find then search around for online. Without a doubt there are numerous these available and many of them have the freedom. However without doubt you receive whatever you purchase. An alternate way to get ideas is always to check another Scientific And Engineering Res. This method for see exactly what may be included and adopt these ideas to your book. This site will almost certainly help you save time and effort, money and stress. If you are looking for free books then you really should consider finding to assist you try this. Several of Scientific And Engineering Res are for sale to free while some are payable. If you arent sure if the books you would like to download works with for usage along with your computer, it is possible to download free trials. The free guides make it easy for someone to free access online library for download books to your device. You can get free download on free trial for lots of books categories. Our library is the biggest of these that have literally hundreds of thousands of different products categories represented. You will also see that there are specific sites catered to different product types or categories, brands or niches related with Scientific And Engineering Res. So depending on what exactly you are searching, you will be able to choose e books to suit your own need. Need to access completely for Campbell Biology Seventh Edition book? Access Ebook without any digging. And by having access to our ebook online or by storing it on your computer, you have convenient answers with Scientific And Engineering Res To get started finding Scientific And Engineering Res, you are right to find our website which has a comprehensive collection of books online. Our library is the biggest of these that have literally hundreds of thousands of different products represented. You will also see that there are specific sites catered to different categories or niches related with Scientific And Engineering Res So depending on what exactly you are searching,

you will be able to choose ebook to suit your own need. Thank you for reading Scientific And Engineering Res. Maybe you have knowledge that, people have search numerous times for their favorite readings like this Scientific And Engineering Res, but end up in harmful downloads. Rather than reading a good book with a cup of coffee in the afternoon, instead they juggled with some harmful bugs inside their laptop. Scientific And Engineering Res is available in our book collection an online access to it is set as public so you can download it instantly. Our digital library spans in multiple locations, allowing you to get the most less latency time to download any of our books like this one. Merely said, Scientific And Engineering Res is universally compatible with any devices to read.
