**Conversations and Controversies in the Scientific Study of Religion**, 2016-02-15 Luther H Martin and Donald Wiebe together have spent the better part of a century exploring possibilities for a scientific study of religion The following essays are a record of their conversations together and of their conversations and controversies with a number of leading scholars in religious studies that address that possibility As with any scientific endeavor knowledge advances when research assumptions and experimental designs are collegially discussed and critically assessed It is hoped that these essays might provide the occasion for scholars in the field to discuss the theoretical and methodological issues they have raised to debate and expand upon them or in the spirit of forthright scientific inquiry to refute the arguments they have made      Journal for the Scientific Study of Religion, 2003 Official journal of the Society for the Scientific Study of Religion JSSR was founded in 1949 by students of religion and of social science in order to stimulate and communicate significant scientific research on religious institutions and experience      *The Scientific Study of Religion* John Milton Yinger, 1978      **The Sacred in a Secular Age** Phillip E.
