With a detailed range of approaches this new collection investigates how cinematic narratives can and have been used to portray different political threats and dangers. Including a range of chapters with a contemporary focus it studies issues such as how the geopolitical world has been constructed through film how cinema can provide explanatory narratives in periods of cultural and political anxiety, uneasiness and uncertainty. Examining the ways in which film impacts upon popular understandings of national identity and the changing geopolitical world the book looks at how audiences make sense of the geo-political messages and meanings contained within a variety of films from the US productions of Hollywood to Palestinian, Mexican, British and German cinematic traditions. This thought provoking book draws on an international range of contributions to discuss and fully investigate world cinema in light of key contemporary issues. This book was previously published as a special issue of *Geopolitics*. *Finding Serenity in the Age of Anxiety* Robert Gerzon, 1998. Destined to become a classic in the tradition of *The Road Less Traveled* and *Care of the Soul* this book provides new insight into the most fundamental problem of human life: anxiety. **Extreme Food** Bear Grylls, 2015-05-19. In the tradition of the million copy bestseller *SAS Survival Guide* former SAS paratrooper Bear Grylls the world's most famous survival expert teaches the necessary skills for eating in the wild. There's no getting away from it. I've eaten some pretty extreme things in my time: live tarantulas, raw goat testicles, elephant dung, you name it. In a situation when your life depends on it you need to put your prejudices aside to keep your stomach filled and your strength up. Whether it's mastering the art of foraging and cooking up a tasty feast around the campfire or learning about the more extreme end of wild food, ever tried a scorpion kebab, there's a lot to learn when it comes to dinner time in the wild. *Extreme Food* will teach you all the necessary skills and techniques to get your teeth into meals you might never have thought of as food in the first place and crucially how to recognize plants and animals that might end up doing you more harm than good. In today's world we rarely need to venture beyond the local supermarket and we turn our noses up at the thought of snacking on bugs and grubs. But out in the wild Mother Nature has provided us with a plentiful supply of nutritious if not always delicious food for the taking. And when needs must we just have to know where to look. Some of it might take you out of your comfort zone. Some of it might turn your stomach. But it's saved my life more than once. And one day it might save yours. BEAR GRYLLES
