Edinburgh History of the Book in Scotland, Volume 2 Stephen W Brown,2011-11-30 The first thorough study of the book trade during the age of Fergusson and Burns 
The Historical Disruption of English Higher Education John Taylor,2025-05-22 This book examines the establishment in 1880 and dissolution in 1903 of the Victoria University as a federal institution for the North of England It was a disruptor an experiment intended to meet growing demand for high level study in the industrial cities of the North and to provide a regional organisation for higher education The experiment ended in failure and has never been repeated rather it heralded the emergence of independent civic universities that would prove so influential in the following years As well as considering the federalisation legacy the book also identifies important areas of activity where the Victoria University broke new ground including innovations in the relationship between teaching and examining links with schools and other education providers and the funding of higher education The book is based on original archival research and will appeal to historians of education and more generally to social historians
