Scottish Highlanders On The Eve Of The Great Migration 1725 1775 The People Of Argyll:

Scottish Highlanders on the Eve of the Great Migration, 1725-1775 David Dobson, 2005 This series is designed to identify the kind of material that is available in the absence of church registers and will supplement the church registers when they are available Volume One deals with the county of Argyll a location from where may of the pioneer emigrants who settled in colonial North Carolina upper New York Jamaica and the Canadian Maritimes originated The book does not claim to be a comprehensive directory of all the people of Argyll during the mid eighteenth century but rather is an attempt to demonstrate the range and quality of material available

Scottish Highlanders on the Eve of the Great Migration, 1725-1775 David Dobson, 2007 In 2005 Clearfield Company launched a new series of books by David Dobson designed to identify the origins of Scottish Highlanders who traveled to America prior to the Great Highland Migration that began in the 1730s and intensified thereafter Much of the Highland emigration was directly related to a breakdown in social and economic institutions Under the pressures of the commercial and industrial revolutions of the 17th and 18th centuries Highland chieftains abandoned their patriarchal role in favor of becoming capitalist landlords By raising farm rents to the breaking point the chiefs left the social fabric of the Scottish Highlands in tatters Accordingly voluntary emigration by Gaelic speaking Highlanders began in the 1730s The social breakdown was intensified by the failure of the Jacobite cause in 1745 followed by the British military occupation and repression in the Highlands in the aftermath of the Battle of Culloden In 1746 the British government dispatched about 1 000 Highland Jacobite prisoners of war to the colonies as indentured servants Later during the Seven Years War of 1756 1763 Highland regiments recruited in the service of the British crown chose to settle in Canada and America rather than return to Scotland Once in North America the Highlanders tended to be clannish and moved in extended family groups unlike immigrants from the Lowlands who moved as individuals or in groups of a few families The Gaelic speaking Highlanders tended to settle on the North American frontier whereas the Lowlanders merged with the English on the coast Highlanders seem to have established beachheads and their kin subsequently followed The best example of this pattern is in North Carolina where they first arrived in 1739 and moved to the Piedmont to be followed by others for over a century Another factor that distinguishes research in Highland genealogy is the availability of pertinent records Scottish genealogical research is generally based on the parish registers of the Church of Scotland which provide information on baptisms and marriages In the Scottish Lowlands such records can date back to the mid 16th century but in general Highland records start much later Americans seeking their Highland roots therefore face the problem that there are few if any church records available that pre date the American Revolution In the absence of Church of Scotland records the researcher must turn to a miscellany of other records such as court records estate papers sasines gravestone inscriptions burgess rolls port books services of heirs wills and testaments and especially rent rolls This series is designed to identify the kinds of records that are available in the absence of parish registers and to supplement the church registers when they are

available This newest volume covers the Northern Highlands an area that includes the counties of Caithness Sutherland Ross and Cromarty The main clans traditionally associated with the Northern Highlands were Mackay McLeod Sutherland Sinclair Gunn Munro Ross and Mackenzie all of whom are represented in this volume The Northern Highlanders were among the pioneers of colonial Georgia North Carolina Pennsylvania New York and the Canadian Maritimes Among the vessels that brought them to these places were the Hector to Nova Scotia in 1773 the Friendship to Philadelphia in 1774 and the Peace and Plenty to New York in 1774 While the present volume is not a comprehensive directory of all people living in the Northern Highlands during the mid 18th century it does pull together references to more than 2 100 18th century inhabitants In all cases Dr Dobson gives each Highlander s name a place name or county within the Highlands a date of birth residence etc and the source In the majority of cases we also learn the identities of relatives the indiv

court records estate papers sasines gravestone inscriptions burgess rolls port books services of heirs wills and testaments and especially rent rolls Some rent rolls even pre date parish registers This series therefore is designed to identify the kinds of records that are available in the absence of parish registers and to supplement the church registers when they are available Volume Three the latest in the series covers Highlanders from the county of Inverness a location from which many of the pioneer emigrants who settled in colonial Georgia Pennsylvania upper New York Jamaica and the Canadian Maritimes originated Inverness shire is also the county where the Fraser's Highlanders regiment which played a prominent part in the French and Indian War and in the settlement of Canada was raised While the present volume is not a comprehensive directory of all the people of Inverness shire during the mid 18th century it does pull together references on more than 2 100 18th century inhabitants Coverage extends to all regions within Inverness In all cases Mr Dobson gives each Highlander's name a place within Inverness shire birth residence employment etc a date and the source In some cases we also learn the identities of relatives the individual's employment vessel traveled on and so forth See also the other volumes in this series *The People of Argyll The People of Highland Perthshire The People of Inverness* *Scottish Highlanders on the Eve of the Great Migration, 1725-1775* David Dobson, 2006 This is part of a series by David Dobson designed to identify the origins of Scottish Highlanders who traveled to America prior to the Great Highland Migration that began in the 1730s and intensified thereafter The events leading to the Highland exodus are worthy of mention again Much of this emigration was directly related to a breakdown in social and economic institutions Under the pressures of the commercial and industrial revolutions of the 17th and 18th centuries Highland chieftains abandoned their patriarchal role in favor of becoming capitalist landlords By raising farm rents to the breaking point the chiefs left the social fabric of the Scottish Highlands in tatters Accordingly voluntary emigration by Gaelic speaking Highlanders began in the 1730s The social breakdown was intensified by the failure of the Jacobite cause in 1745 followed by the British military occupation and repression that occurred in the Highlands in the aftermath of the Battle of Culloden In 1746 the British government dispatched about 1 000 Highland Jacobite prisoners of war to the colonies as indentured servants Later during the Seven Years War of 1756 63 many members of Highland regiments recruited in the service of the British Crown chose to settle in Canada and America rather than return to Scotland Once in North America the Highlanders tended to be clannish and moved in extended family groups unlike immigrants from the Lowlands who moved as individuals or in groups of a few families The Gaelic speaking Highlanders tended to settle on the North American frontier whereas the Lowlanders merged with the English on the coast Highlanders seem to have established beachheads and their kin subsequently followed The best example of this pattern is in North Carolina where they first arrived in 1739 and moved to the Piedmont to be followed by others for over a century Highlanders from particular counties in Scotland moreover settled in particular areas in the colonies for example the earliest emigrants from Highland Perthshire were Jacobite prisoners transported to South Carolina Maryland and the West Indies in 1716 and 1746 The next

group from Highland Perthshire were soldiers recruited for regiments particularly the Black Watch that fought in the French and Indian War some of whom settled in the colonies in the aftermath Possibly influenced by their settlement there followed families bound from Greenock to New York aboard ships such as the Monimia and the Commerce in 1775 to settle on the frontier Most of them tended to be Loyalists at the outbreak of the American Revolution and consequently moved to Canada Another factor that distinguishes research in Highland genealogy is the availability of pertinent records Scottish genealogical research is generally based on the parish registers of the Church of Scotland which provide information on baptism and marriage In the Scottish Lowlands such records can date back to the mid 16th century but in general Highland records start much later Americans seeking their Highland roots therefore face the problem that there are few if any church records available that predate the American Revolution In the absence of Church of Scotland records the researcher must turn to a miscellany of other records such as court records estate papers sasines gravestone inscriptions burgess rolls port books services of heirs wills and testaments and especially rent rolls Some rent rolls even predate parish registers Mr Dobson's series therefore is designed to identify the kinds of material that is available in the absence of parish registers and to supplement the church registers when they are available Scottish Highlanders on the Eve the Great Migration 1725-1775 The People of Highland Perthshire is the second volume in the series and as such it deals with the location from when

Scottish Highlanders on the Eve of the Great Migration, 1725-1775 David Dobson, 2008 In 2005 Clearfield Company launched a new series of books by David Dobson that were designed to identify the origins of Scottish Highlanders who traveled to America prior to the Great Highland Migration that began in the 1730s and intensified thereafter The first four volumes cover Scottish Highlanders from Argyll Perthshire Inverness and the Northern Highlands This fifth volume in the series pertains to the Northern Isles commonly known as the Orkney Islands and the Shetland Islands Much of the Highland emigration was directly related to a breakdown in social and economic institutions Under the pressures of the commercial and industrial revolutions of the 17th and 18th centuries Highland chieftains abandoned their patriarchal role in favor of becoming capitalist landlords By raising farm rents to the breaking point the chiefs left the social fabric of the Scottish Highlands in tatters Accordingly voluntary emigration by Gaelic speaking Highlanders began in the 1730s The social breakdown was intensified by the failure of the Jacobite cause in 1745 followed by the British military occupation and repression in the Highlands in the aftermath of the Battle of Culloden In 1746 the British government dispatched about 1 000 Highland Jacobite prisoners of war to the colonies as indentured servants Later during the Seven Years War of 1756-1763 Highland regiments recruited in the service of the British crown chose to settle in Canada and America rather than return to Scotland Once in North America the Highlanders tended to be clannish and moved in extended family groups unlike immigrants from the Lowlands who moved as individuals or in groups of a few families The Gaelic speaking Highlanders tended to settle on the North American frontier whereas the Lowlanders merged with the English on the coast Highlanders

seem to have established beachheads and their kin subsequently followed The best example of this pattern is in North Carolina where they first arrived in 1739 and moved to the Piedmont to be followed by others for more than a century Another factor that distinguishes research in Highland genealogy is the availability of pertinent records Scottish genealogical research is generally based on the parish registers of the Church of Scotland which provide information on baptisms and marriages In the Scottish Lowlands such records can date back to the mid 16th century but Highland records generally start much later Americans seeking their Highland roots face the problem that there are few if any church records available that pre date the American Revolution In the absence of Church of Scotland records the researcher must turn to a miscellany of other records such as court records estate papers sasines gravestone inscriptions burgess rolls port books services of heirs wills and testaments and especially rent rolls Some rent rolls even pre date parish registers This series therefore is designed to identify the kinds of records that are available in the absence of parish registers and to supplement the church registers when they are available The Northern Isles were once isolated on the northwest fringes of Europe however as trans Atlantic trade expanded they found themselves astride a major sea route between North America and northern Europe Stromness in the Orkneys became the first or last port of call for many vessels crossing the Atlantic for example the vessels of the Hudson Bay Company from the late 17th century traveled from Stromness to North America For most Orkney emigrants the motivating factors were poverty and lack of opportunity Also noteworthy is that unlike the other Highlanders the Northern Islanders were of Scandinavian not Celtic origin with an element of Lowland Scots While this volume is not a comprehensive directory of all the Orkney and Shetland Islander emigrant *Scottish Highlanders on the Eve of the Great Migration, 1725-1775. the People of the Hebrides* David Dobson,2015-05-02 *Scottish Highlanders on the Eve of the Great Migration, 1725-1775* David Dobson,2008 *Scottish Highlanders on the Eve of the Great Migration, 1725-1775. the People of Inverness-Shire.
