Maureen V. Cox, 2013-05-24 The human figure is one of the earliest topics drawn by the young child and remains popular throughout childhood and into adolescence When it first emerges however the human figure in the child s drawing is very bizarre it appears to have no torso and its arms if indeed it has any are attached to its head Even when the figure begins to look more conventional the child must still contend with a variety of problems for instance how to draw the head and body in the right proportions and how to draw the figure in action In this book Maureen Cox traces the development of the human form in children s drawings she reviews the literature in the field criticises a number of major theories which purport to explain the developing child s drawing skills and also presents new data **Holy Scribbling** Katherine Roberts Moore, 2012-09-20 For some writers scribbling is minimal on the periphery of their work In Holy Scribbling the scribbles take center stage and become the means to the message With sometimes quirky insight Katherine Moore takes us to sacred

windows that allow the spirituality of ordinary scenes to emerge From the stark beauty of a Mystic Dawn to the serenity of Simple Solitude we experience the mysteries of nature along with the routine demands of relationships and circumstances Holy Scribbling is a personal book but the images in these works expand into a universal understanding of everyman In poetic form a sense of reality is captured with a minimum of words Paradoxically it is her appreciation of words that enhances a deep spiritual sense of solitude and silence As a contemplative commentary on glimpses of life Holy Scribbling offers you the chance to see not only yourself but also possibly God Take the journey with Katherine Moore through this meditative volume of verse and you will experience more deeply that you are alive Jonathan Kelley D Min LPC director of the Presbyterian Counseling Center Brunswick County North Carolina Katherine Moores collection of poems is visceral and haunting yet joyful She reaches into her soul and shows us the frustrations and agonies of daily life yet through it all she keeps a sense of wonder and delight Her poems will make you both laugh and cry Elsa Bonstein columnist and poet

the Eye of the Beholder: The Evolutionary Emergence of Visual Communication Iain Davidson, 2025-09-08 The book is about how art arose and how it became what we call art today How did art emerge from the relationships between people and the things they produce and the ideas of producers How do people manipulate those relationships in their own society How do outsiders work out the ways in which those relationships were used to make art What is art and why are all people engaged with it in one way or another From its very beginning and everywhere art has always been embedded in its cultural context the contexts of the people who made and see it and that context has often been ritual The history of art confused social and institutional changes of view because western critics or artists sought to define the boundaries of art so tightly that ritual purposeful or utilitarian works were excluded from it In their definition art only existed if the rituals of the original producers were stripped from the works or if the objects were appropriated away from the situation in which they were produced The objects stripped from their context could then only be valued for their aesthetics Art consists of relationships between people things and ideas in quite specific ways Those relationships are discussed at length in this book The book is aimed at artists art historians and archaeologists but also at the general public interested in art It is intended both for people whose interest in art comes from knowledge of the art of all continents and for those who have no knowledge **Crazy Salad and Scribble Scribble** Nora Ephron, 2012-10-16 From the bestselling author of I Feel Bad About My Neck two classic collections of uproarious essays tackling everything from feminism to the media from politics to beauty products with her inimitable charm and distinctive wit This edition brings together some of Ephron s most famous writing on a generation of women and men who helped shape the way we live now and on events ranging from the Watergate scandal to the Pillsbury Bake Off In these sharp hilariously entertaining and vividly observed pieces Ephron illuminates an era with wicked honesty and insight From the famous A Few Words About Breasts to important pieces on her time working for the New York Post and Gourmet Magazine these essays show Ephron at her very best **Scribbles, Stickers and Glue** Nikki Larsen, 2005-08 Describes how to make scrpabooks using everyday materials photos and a little imagination **Group Process Made Visible** Shirley Riley, 2013-05-13 This book introduces the reader to the approach and general philosophy of the use of art as an additional language in group therapy It demonstrates the usefulness of the language of art in enabling group therapists and their clients to understand group members perceptions of constructs and realities The Doodle Revolution Sunni Brown, 2015-05-26 There is NO SUCH THING as a mindless doodle What did Einstein JFK Edison Marie Curie and Henry Ford have in common They were all inveterate doodlers These powerhouse minds knew instinctively that doodling is deep thinking in disguise a simple accessible and dynamite tool for innovating and solving even the stickiest problems Sunni Brown s mission is to bring the power of the Doodle to the rest of us She leads the Revolution defying all those parents teachers and bosses who say Stop doodling Get serious Grow up She overturns misinformation about doodling demystifies visual thinking and shows us the power of applying our innate visual literacy She ll teach you how to doodle any object concept or system imaginable shift
