

A Tracey Marks Mystery

The background of the book cover is a painting of a serene lakeside scene. In the upper middle ground, a white, single-story house with a gabled roof and a long porch with several windows sits on a grassy bank. To the right of the house, a large, leafy tree stands prominently. The foreground is dominated by a small, white wooden rowboat floating on the calm water. The water's surface is dark and reflects the colors of the sky and the surrounding landscape. The overall color palette is muted, with earthy tones and soft lighting, suggesting a quiet, perhaps slightly somber, atmosphere.

Parents' Education as Autism Therapists Michael Keenan, Ken P. Kerr, Karola Dillenburger, 2000 Clear focused and practical this book is a useful introduction to ABA for parents and professionals working with children with autism Successful child rearing is an essential skill for any parent For most of us this skill is handed down from our own parents and society in general In real terms this means that rather than relying on any formal instruction to help us we bring up our children using skills based largely upon common sense and a willingness to do our best These methods are by and large successful in everyday situations However when it comes to more difficult aspects of developing skills in our children we need something more dependable than good will Applied Behaviour Analysis ABA the systematic implementation of scientifically proven behavioural principles offers just that Aimed at enhancing people's lives in ways that they or their carers feel are important it includes a variety of methods and techniques which can be used to promote decrease or maintain skills for daily living ABA has been used to help children with autism for many years in many countries In Northern Ireland the PEAT group offers parents the education necessary to become their own child's therapists using ABA In this book these parents and the professionals involved in their training share their knowledge experience and successes
