Look to the Mountain Legrand Cannon, 1968 *Looking to the Future* Derek Hodson, 2011-10-25 In advocating an action oriented and issues based curriculum this book takes the position that a major but shamefully neglected goal of science and technology education is to equip students with the knowledge skills attitudes and values to confront the complex and often ill defined socioscientific issues they encounter in daily life as citizens in an increasingly technology dominated world carefully critically confidently and responsibly In outlining proposals for addressing socioscientific issues through a curriculum organized in terms of four increasingly sophisticated levels of consideration the author adopts a highly critical and politicized stance towards the norms and values that underpin both scientific and technological development and contemporary scientific engineering and medical practice criticizes mainstream STS and STSE education for adopting a superficial politically naive and hence educationally ineffective approach to consideration of socioscientific issues takes the view that environmental problems are social problems occasioned by the values that underpin the ways in which we choose to live and urges teachers to encourage students to reach their own views through debate and argument about where they stand on major socioscientific issues including the moral ethical issues they often raise More controversially the author argues that if students are to become responsible and politically active citizens the curriculum needs to provide opportunities for them to experience and learn from sociopolitical action The relative merits of direct and indirect action are addressed notions of learning about action learning through action and learning from action are developed and a case is made for compiling a user friendly database reflecting on both successful and less successful action oriented curriculum initiatives Finally the book considers some of the important teacher education issues raised by this radically new approach to teaching and learning science and technology The book is intended primarily for teachers and student teachers of science technology and environmental education graduate students and researchers in education teacher educators curriculum developers and those responsible for educational policy The author is Emeritus Professor of Science Education at the Ontario Institute for

Studies in Education University of Toronto Adjunct Professor of Science Education at the University of Auckland and Visiting Professor of Science Education at the University of Hong Kong His research interests include considerations in the history philosophy and sociology of science and their implications for science and technology education STSE education and the politicization of both students and teachers science curriculum history multicultural and antiracist education and teacher education via action research

Out There Somewhere Simon J. Ortiz, 2022-08-30 He has been out there somewhere for a while now a poet at large in America Simon Ortiz one of our finest living poets has been a witness participant and observer of interactions between the Euro American cultural world and that of his Native American people for many years In this collection of haunting new work he confronts moments and instances of his personal past and finds redemption in the wellspring of his culture A writer known for deeply personal poetry Ortiz has produced perhaps his most personal work to date In a collage of journal entries free verse poems and renderings of poems in the Acoma language he draws on life experiences over the past ten years recalling time spent in academic conferences and writers colonies jails and detox centers to convey something of the personal and cultural history of dislocation As an American Indian artist living at times on the margins of mainstream culture Ortiz has much to tell about the trials of alcoholism poverty displacement But in the telling he affirms the strength of Native culture even under the most adverse conditions and confirms the sustaining power of Native beliefs and connections With our hands we know the sacred earth With our spirits we know the sacred sky Like many of his fellow Native Americans Ortiz has been out there somewhere Portland and San Francisco Freiburg Germany and Martinique away from his original homeland culture and community Yet as these works show he continues to be absolutely connected socially and culturally to Native identity We insist that we as human cultural beings must always have this connection he writes because it is the way we maintain a Native sense of existence Drawing on this storehouse of places times and events *Out There Somewhere* is a rich fusion taking readers into the heart and soul of one of today's most exciting and original American poets

So We Look to the Sky Misumi Kubo, 2021-08-03 This shocking boisterous novel was a runaway bestseller and award winner in Japan Pressingly real In these pages you will find the lives of all of us Japan Times Searingly honest and sexually explicit *So We Look to the Sky* is a novel told in five linked stories that begin with an affair between a student and a woman ten years his senior who picks him up for cosplay sex in a comics market Their scandalous liaison which the woman's husband makes public by posting secretly taped video online frames all of the stories but each explores a different aspect of the life passages and hardships ordinary people face A teenager experimenting with sex and then perhaps experiencing love and loss a young anime obsessed wife bullied by her mother in law to produce the child she and her husband cannot conceive a high school girl spurned by the student realizing that being cute and fertile is all others expect of her the student's best friend who lives in the projects and is left alone to support and care for his voracious senile grandmother and the student's mother a divorced single parent and midwife who guides women bringing new life into this world and must rescue her son

After a Long Winter's Sleep Dr. Michael Bunch,2025-03-26 Over the course of our walk with the Lord we inevitably experience many ups and downs Eventually there will come a time when we feel remote from the Lord and even at times as if we have been abandoned by Him This is far from the truth As we struggle walk run stumble and fall He is right there at our side Even when the darkness surrounds us so completely that we can see nothing except the impending doom within the darkness He is there In those times He carries us when we feel that we cannot endure anymore He wraps us in His loving arms showers us with His Shekinah glory and bathes us in His compassion This gives us renewed strength to continue to struggle on to the ultimate victory These dark moments are not pleasant but they are essential to our growth into what the Lord has planned for us to become I as the author of this book hope that at least one or more of these short stories will touch you during one of the inevitable dark moments and remind you that you are a precious child of the Lord and He has you firmly by the hand as He guides you forward to the fulfillment of your walk in Christ **Vegenrage** Robert

Spina,2017-07-29 Vegenrage and Farrah let passion rule their hearts Physicality consumes their bodies and love flourishes Vegenrage is unaware that the demon uprising ceremony is going on in Vollenbeln When Farrah tells him of the death of the demons and those that have survived Vegenrage recalls knowledge from his library that has been stolen and changed Vegenrage Farrah and the races of man and dragon quickly realize they are all in a fight for their lives and a fight for survival of all the living The demon rising is here and now the demons have made their way to the outer realm guided and powered by the leader of Maglical Hell Vemenomous makes his triumphant return and targets Farrahs love for Vegenrage to manipulate her thoughts toward evil The demons are out to feast on the flesh of the living and all the races of man face the most brutal and violent war they have ever seen Vegenrage comes to find his true calling and to find out why he instinctively called his name Vegenrage Farrahs lifelong charm by Alisluxkana is exploited She is constantly haunted and used to try and destroy Vegenrage The demons know Farrah is the key and she is to be the champion they need in order to defeat Vegenrage The demons better be careful what they wish for Farrah may just become more powerful than all of them and then who and what will Farrah fight for So much turmoil and so much grief is caused by the evil of Maglical Hell as Vegenrage is forced to face off with those he hates and those he loves The prophecies of Hornspire have never been more important than they are after
