Looking At Buses:

Bus services after the Spending Review Great Britain: Parliament: House of Commons: Transport Committee, 2011-08-11 The Transport Committee reports that extensive cuts to rural evening and weekend bus services are damaging the ability of many people especially the old young or disabled to participate in employment education or voluntary work and to access vital services such as healthcare and retail facilities In a review of England s bus services outside London after the Spending Review the Committee warns that even deeper cuts in bus services are likely in 2012 13 as local authorities struggle to deal with budgetary reductions and calls for the concessionary travel scheme to be preserved so that the elderly and disabled continue to enjoy free bus travel The Committee also concludes that the concessionary fares scheme was discriminatory because it did not apply to most community transport providers usually independent charities that provide transport such as dial a ride bus services It calls on the Department for Transport to monitor the extent of service cutbacks made this year and to review service provision again after BSOG Bus Service Operator Grant grant cuts take effect in 2012 13 so that it can analyse and draw conclusions about the wider costs and benefits of its policy changes to the country as a whole The Local Government Association should identify and disseminate information about good and bad practice in the delivery of cost effective flexible services including community transport and or area based transport integration And local authorities and commercial operators must consult more widely where services are being changed

Competition in the Local Bus Market Great Britain: Parliament: House of Commons: Transport Committee, 2012-09-13 In this report the Committee concludes that the Local Transport Act 2008 gives local authorities a range of tools to work with bus operators to improve local bus services and does not need updating However the Government and bus industry need to show more leadership to raise the standard of bus services with the introduction of multi operator smartcards service stability and passenger information While some bus services are good too often passengers are dissatisfied with the reliability of the service the level of fares and the need to buy another ticket if the trip involves two bus companies More competition among bus operators may improve services in some areas but many routes simply cannot sustain more than one operator It is worrying that the Traffic Commissioners who are responsible for bus safety and punctuality monitoring appear to have insufficient resources to carry out these crucial roles as effectively as they would wish Outside London the quality of bus services depends on partnerships between local authorities and the bus operators In a minority of areas such as where local authorities take on responsibility for local rail services bus franchising may be an appropriate option These would require additional subsidy and sustained political commitment

Who is your Enemy? Know your real enemies MSVPJ Sathvik, I searched all over Google How to write an introduction for a novel and to be honest I found nothing So I have written by opening my heart every word is written from my heart I read many books all books speak about strengths peace success wealth and health too But I didn t find any book which speaks on our enemies We know that half of our time will be spent on thinking about our enemies and tackling

them So I decided to write a book on enemies The story starts from childhood to old age explains all the incidents which a common man faces and coming to know all his enemies The specialties of the book are it helps to find your real enemies the other specialty is there are tasks which you have to do This is a novel that is not just a story but some tasks that need to perform One more specialty is I wrote this book when I was 18 and published it when I was 19 I am hundred percent sure after you read this book you will never feel that this is a book written by a teenager This book is written in a very simple language which can be completed in just 1 week This a book which doesn't require a dictionary to read everything is written in simple language My friends and the publishers read this book in just one week This is the best book for a beginner to start habituating to reading novels I didn't see any book which was written in this simpler language There might be some books written in simpler language but are very rare Reading 180 pages of a book may look difficult to complete in one week You are right but not this book Don't keep any doubts in mind just start reading the book The book may seem boring in middle but has a very good meaning in the story
