Dodgen, 2002 *The Changing Shape of Nursing Practice* Davina Allen, 2002-01-04 Bringing together sociological theories and nursing practice this text develops a dynamic conceptualisation of the nursing role which is rooted in the work setting It looks at the factors which have shaped nursing work in the past and those which are likely to shape it in the future Nurses work is changing in two respects the place nursing occupies in the health care division of labour and the routine shifting of work boundaries that nurses experience in their daily work Drawing on her detailed observations of the reality of nursing work in a district general hospital Davina Allen explores these linked themes focussing on five key work boundaries nurse doctor nurse manager nurse support worker nurse patient nurse nurse The text provides new insight into many of the tensions and dilemmas nurses routinely face and the processes and constraints through which their work is fashioned It offers a new way of thinking about the nursing role which is particularly relevant at a time when the scope of nursing practice is expanding and when the integrated approach to health and social care is seen as the key to provision and improved services **Social Theory at Work** Marek Korczynski, Randy Hodson, Paul K. Edwards, 2006 This study offers a comprehensive review of all major classical and contemporary social and economic theories and the way they aid our understanding of work *Fathering Through Sport and Leisure* Tess Kay, 2009-06-16 In *Fathering through Sport and Leisure* an underrepresented and highly topical area of social study is examined This is a book about fathers and how we can understand fathers and their fathering practices better if we examine the role of sport and leisure in their relationships with their children and their partners The author's clear and interdisciplinary approach makes this volume an invaluable resource for undergraduates and scholars in the fields of leisure studies family studies sociology of the family and the sociology of sport *Study Guide for Sociology, Looking Through the Window of the World, 4th Ed* Lynda I. and views of the Holocaust whether in court cases involving victims and perpetrators international national and corporate developments or fictional documentary and historical accounts Several of the essays such as one on nonarmed amidah or resistance and others on the role of gender in the behavior of perpetrators and victims provide innovative and potentially significant interpretive frameworks for the field of Holocaust studies Others for instance the rounding up of Jews in Italy Nazi food policy in Eastern Europe and Nazi anti Jewish scholarship emphasize the importance of new sources for reconstructing the historical record Still others including essays on the 1964 Frankfurt trial of Auschwitz guards and on the response of the Catholic Church to the question of German guilt bring a new depth and sophistication to highly charged sharply politicized topics Together these essays will inform the future of the Holocaust in scholarly research and in popular understanding
