**The Lover's Dictionary** David Levithan, 2012 How does one talk about love We are all beginners when it comes to love from those tentative first dates to learning how to live with or without someone But how does one describe love How does one chart its delights and pleasures its depths and desolations Do we even have the right words to describe something that can be both utterly mundane and completely transcendent pulling us out of our everyday lives and making us feel a part of something greater than ourselves David Levithan's *The Lover's Dictionary* starts where we all once started with the alphabet Constructing the story of a relationship as a dictionary Levithan explores the intimacies and workings of love through his nameless narrator to paint a moving portrait of love through everyday words Cleverly using the confines of language to provide an intimate window into the great events and quotidian trifles of being part of a couple Levithan gives us an indelible and deeply moving portrait of love in our time      *The lover's dictionary*, 1963      **The Lovers' Dictionary**

a key to the understanding of its various texts O Dea s vividly textured and finely nuanced reading of Rousseau s musical imagination plainly does complement the Pleiade collection in two striking ways it offers a general interpretation of the place of the philosophy of music in Rousseau s thought that is addressed to concepts which flit in and out of particular works articulated in a voice whose clarity of tone is unmatched by a chorus of editors Second it pursues its case across a range of texts spread far beyond the limits of any collection of Rousseau s essays on music Robert Wokler French Literature This new study of Jean Jacques Rousseau suggests that his early articles on music for the Encyclopedie give a unique insight into his thinking on aesthetics affectivity and desire Rousseau is shown as moving subsequently between two opposed tendencies He celebrates the voice as the vehicle for the most intense moments of human experience but also frequently attacks the surrender to passion implicit in that celebration denouncing the arts and arguing that women must be confined to the domestic sphere     *The Nation* ,1867
