Disaster and Human History Benjamin Reilly, 2022-03-31 Human history is periodically punctuated by natural disasters from Vesuvius eruption to the modern day Covid 19 pandemic Volcanoes have buried entire cities earthquakes have reduced structures to smoldering ruins Floods and cyclones have wreaked havoc on river valleys and coastlines and desertification and climate change have weakened society's underpinnings Death tolls are often escalated by starvation and illness which frequently occur in tandem This second edition assesses natural disasters on human society and the effect of strategies developed to reduce their impact This book addresses the interconnectivity of disaster and human responsibility through 23 updated case studies including a new chapter on the 2011 T hoku tsunami and the ensuing Fukushima nuclear disaster

The Politics of Dialogic Imagination Katsuya Hirano, 2013-11-21 In *The Politics of Dialogic Imagination* Katsuya Hirano seeks to understand why with its seemingly unrivaled power the Tokugawa shogunate of early modern Japan tried so hard to regulate the ostensibly unimportant popular culture of Edo present day Tokyo including fashion leisure activities prints and theater He does so by examining the works of writers and artists who depicted and celebrated the culture of play and pleasure associated with Edo's street entertainers vagrants actors and prostitutes whom Tokugawa authorities condemned to be detrimental to public mores social order and political economy Hirano uncovers a logic of politics within Edo's cultural works that was extremely potent in exposing contradictions between the formal structure of the Tokugawa world and its rapidly changing realities He goes on to look at the effects of this logic examining policies enacted during the next era the Meiji period that mark a drastic reconfiguration of power and a new politics toward ordinary people under modernizing Japan Deftly navigating Japan's history and culture *The Politics of Dialogic Imagination* provides a sophisticated

account of a country in the process of radical transformation and of the intensely creative culture that came out of it

Advertising Tower William O. Gardner, 2020-05-11 On a December morning in 1925 a newspaper journalist reported receiving 25 different handbills in an hour's walk in downtown Tokyo advertising everything from Western style clothing and furniture to sweet shops charity organizations phonograph recordings plays and films The activities of advertisers and the new entertainment culture and patterns of consumption that they promoted helped to define a new urban aesthetic emerging in the 1920s This book examines some of the responses of Japanese authors to the transformation of Tokyo in the early decades of the twentieth century In particular it explores the themes and formal strategies of the modernist literature that flourished in the 1920s focusing on the work of Hagiwara Kyojiro 1899 1938 and Hayashi Fumiko 1903 1951 William Gardner shows how modernist works offer new constructions of individual subjectivity amid the social and technological changes that provided the ground for the appearance of mass media Hagiwara's conception of the poem and poet as an electric radio advertising tower provides an emblem for the aesthetic tensions and multiple discourses of technology media urbanism commerce and propaganda that were circulating through the urban environment at the time while Hayashi's work with its references to popular songs plays and movies suggests an understanding of everyday life as the interface between individual subjectivity and a highly mediated environment

Urban Symbolism , 2023-11-27 This volume deals with a hitherto largely neglected aspect of cities namely the symbolic and ritual structure in which the urban community is rooted This fascinating facet is explored in a combined effort by social anthropologists sociologists historians and philologists for cities like Jakarta Padang Bangkok Beijing Tokyo Baghdad Kathmandu Lucknow Francistown Vitoria and Buenos Aires Three perspectives on the study of symbolism in the urban arena are developed namely the material cultural and structural point of view This results in a series of new concepts for comparative use and provides lively descriptions suffused by rich detail of the social processes by which urban symbols and rituals are constituted

The Shortest History of Japan: From Mythical Origins to Pop Culture Powerhouse - The Global Drama of an Ancient Island Nation (The Shortest History Series) Lesley Downer, 2024-07-30 Discover the aesthetic traditions political resilience and modern economic might of this singular island nation The Shortest History books deliver thousands of years of history in one riveting fast paced read Zen haiku martial arts sushi anime manga film video games Japanese culture has long enriched our Western way of life Yet from a Western perspective Japan remains a remote island country that has long had a complicated relationship with the outside world Japan an archipelago strung like a necklace around the Asian mainland is considerably farther from Asia than Britain is from Europe The sea has provided an effective barrier against invasion and enabled the culture to develop in unique ways During the Edo period the Tokugawa shoguns successfully closed the country to the West Then Japan swung in the opposite direction adopting Western culture wholesale Both strategies enabled it to avoid colonization and to retain its traditions and way of life A skilled storyteller and accurate historian Lesley Downer presents the dramatic sweep of Japanese history and

the larger than life individuals from emperors descended from the Sun Goddess to warlords samurai merchants court ladies women warriors geisha and businessmen who shaped this extraordinary modern society The Shortest History books deliver thousands of years of history in one riveting fast paced read **Beyond the Metropolis** Louise Young,2013-04-15 In

Beyond the Metropolis Louise Young looks at the emergence of urbanism in the interwar period a global moment when the material and ideological structures that constitute the city took their characteristic modern shape In Japan as elsewhere cities became the staging ground for wide ranging social cultural economic and political transformations The rise of social problems the formation of a consumer marketplace the proliferation of streetcars and streetcar suburbs and the cascade of investments in urban development reinvented the city as both socio spatial form and set of ideas Young tells this story through the optic of the provincial city examining four second tier cities Sapporo Kanazawa Niigata and Okayama As prefectural capitals these cities constituted centers of their respective regions All four grew at an enormous rate in the interwar decades much as the metropolitan giants did In spite of their commonalities local conditions meant that policies of national development and the vagaries of the business cycle affected individual cities in diverse ways As their differences reveal there is no single master narrative of twentieth century modernization By engaging urban culture beyond the metropolis this study shows that Japanese modernity was not made in Tokyo and exported to the provinces but rather co constituted through the circulation and exchange of people and ideas throughout the country and beyond Second

Metropolis Blair A. Ruble,2001-05-28 By exploring and comparing North America s Russia s and Japan s second cities Chicago Moscow and Osaka Second Metropolis discloses the extent to which social fragmentation frequently viewed as an obstacle to democratic development actually fostered a pragmatic pluralism that nurtured pluralistic public policies Such policies are explored through six case studies the politics of street railways and charter reform in Chicago adult education and housing in Moscow and harbor revitalization and poverty alleviation in Osaka that illustrate how even those with massive political and economic power were stymied by the complexity of their communities Chicago Moscow and Osaka though the products of very different nations and cultures nonetheless shared an important experience of inclusive politics during an era of extraordinary growth and social diversity The success of all three cities which went well beyond mere survival rested on a distinctive political resource pragmatic pluralism **Hegel's Philosophy of Reality, Freedom, and God** Robert M.

Wallace,2005-04-04 Showing the relevance of Hegel s arguments this book discusses both original texts and their interpretations **Finding Japan** Anne Park Shannon,2012 Today s headlines often feature stories about new trade agreements with Asian countries but tapping eastern markets has long been a goal of Canadian commerce When the Canadian Pacific Railway reached its terminus in British Columbia which was seen as the launching point for trade in the Far East particularly with China and Japan The history of members of those cultures immigrating to Canada is well documented but there has been little written on Canadians venturing across the Pacific from west to east When adventurers first crossed

the Pacific from BC in the 19th century they encountered the closely guarded shores of Japan a society emerging from 200 years of self imposed isolation and transforming from a largely feudal country into a modern world power Curious outsiders had for centuries been unable to penetrate the land of shoguns This collection of stories begins with Ranald Macdonald who tempted fate by intentionally shipwrecking himself off the coast of Japan in 1848 and takes readers through to 1945 As Japan slowly opened up to foreign influences the new arrivals proved to be an intriguing and diverse cast of adventurers missionaries businessmen social activists soldiers and misfits *Shirakaba and Japanese Modernism* Erin

Schoneveld,2019-01-04 *Shirakaba and Japanese Modernism* examines the most significant Japanese art and literary magazine of the early twentieth century Shirakaba White Birch 1910 1923 In this volume Erin Schoneveld explores the fluid relationship that existed between different types of modern visual media exhibition formats and artistic practices embraced by the Shirakaba ha White Birch Society Schoneveld provides a new comparative framework for understanding how the avant garde pursuit of individuality during Japan s Taish period stood in opposition to state sponsored modernism and how this played out in the emerging media of art magazines This book analyzes key moments in modern Japanese art and intellectual history by focusing on the artists most closely affiliated with Shirakaba including Takamura Kitaro Umehara Ryuzaburō and Kishida Ryōsei who selectively engaged with and transformed modernist idioms of individualism and self expression to create a new artistic style that gave visual form to their own subjective reality Drawing upon archival research that includes numerous articles images and exhibitions reviews from Shirakaba as well as a complete translation of Yanagi Sōetsu s seminal essay The Revolutionary Artist Kakumei no gaka Schoneveld demonstrates that contrary to the received narrative that posits Japanese modernism as merely derivative the debate around modernism among Japan s early avant garde was lively contested and self reflexive *Church Space and the Capital in Prewar Japan* Garrett L.

Washington,2022-01-31 Christians have never constituted one percent of Japan s population yet Christianity had a disproportionately large influence on Japan s social intellectual and political development This happened despite the Tokugawa shogunate s successful efforts to criminalize Christianity and even after the Meiji government took measures to limit its influence From journalism and literature to medicine education and politics the mark of Protestant Japanese is indelible Herein lies the conundrum that has interested scholars for decades How did Christianity overcome the ideological legacies of its past in Japan How did Protestantism distinguish itself from the other options in the religious landscape like Buddhism and New Religions And how did the religious movement s social relevance and activism persist despite the government s measures to weaken the relationship between private religion and secular social life in Japan In *Church Space and the Capital in Prewar Japan* Garrett L. Washington responds to these questions with a spatially explicit study on the influence of the Protestant church in imperial Japan He examines the physical and social spaces that Tokyo s largest Japanese led congregations cultivated between 1879 and 1923 and their broader social ties These churches developed

alongside and competed with the locational architectural and social spaces of Buddhism Shinto and New Religions Their success depended on their pastors decisions about location and relocation those men s conceptualizations of the new imperial capital and aspirations for Japan and the Western style buildings they commissioned Japanese pastors and laypersons grappled with Christianity s relationships to national identity political ideology women s rights Japanese imperialism and modernity church based group activities aimed to raise social awareness and improve society Further it was largely through attendees externalized ideals and networks developed at church but expressed in their public lives outside the church that Protestant Christianity exerted such a visible influence on modern Japanese society Church Space offers answers to longstanding questions about Protestant Christianity s reputation and influence by using a new space centered perspective to focus on Japanese agency in the religion s metamorphosis and social impact adding a fresh narrative of cultural imperialism

Urban Forests, Trees, and Greenspace L. Anders Sandberg,Adrina Bardekjian,Sadia Butt,2014-07-25 Urban forests trees and greenspace are critical in contemporary planning and development of the city Their study is not only a question of the growth and conservation of green spaces but also has social cultural and psychological dimensions This book brings a perspective of political ecology to the complexities of urban trees and forests through three themes human agency in urban forests and greenspace arboreal and greenspace agency in the urban landscape and actions and interventions in the urban forest Contributors include leading authorities from North America and Europe from a range of disciplines including forestry ecology geography landscape design municipal planning environmental policy and environmental history

Studies in Pacific History Dennis O. Flynn,Arturo Giráldez,James Sobredo,2018-01-18 This title was first published in 2002 In recent years scholars have begun to conceptualize the history of the Pacific Ocean as a subset of world history This question is taken up in the introductory chapter of this volume which sets out four periods of modern Pacific history a silver period 1570s 1750 a period of early integration 1750 1850 a gold period 1850 c 1900 and a period of imperial strategies after the gold rushes The next chapter looks at the fur trade of the Pacific coast of America and its dependence on markets in China and Russia followed by a set which focus on the era of the gold rushes in California Australia and New Zealand when the pace of Pacific integration grew rapidly and new markets opened across the ocean The last chapters examine aspects of the subsequent evolution of the Pacific Ocean into an American lake looking in particular at the interlocking of politics and migration This volume carries forward study of the Pacific Centuries promoting the conceptualization of the Pacific Ocean as a coherent unit of analysis and providing further important steps toward provision of the multi century framework that is required for proper understanding of today s Pacific Century

Taipei Joseph R. Allen,2011-11-11 Winner of the Joseph Levenson Post 1900 Book Prize This cultural study of public space examines the cityscape of Taipei Taiwan in rich descriptive prose Contemplating a series of seemingly banal subjects maps public art parks Joseph Allen peels back layers of obscured history to reveal forces that caused cultural objects to be celebrated despised

destroyed or transformed as Taipei experienced successive regime changes and waves of displacement In this thoughtful stroll through the city we learn to look beyond surface ephemera moving from the general to the particular to see sociocultural phenomena in their historical and contemporary contexts Watch the book trailer <https://www.youtube.com/watch?v=xBdGIoox7zM>

The Cultural Meaning of Urban Space Gary McDonogh, Robert Rotenberg, 1993-04-30 This book presents a cross cultural approach to the study of urban space Essays written by major contributors in contemporary urban studies provide a range of case studies from Asia Latin America North America and Europe to address important questions about space and power processes of change aesthetics and attitudes toward space and social divisions expressed through urban life The essays fall into three interlocking sections conceptual and linguistic approaches to urban space visual and social examinations of world cities and policy examinations of spatial analyses Together with the jointly compiled bibliography this collection of essays is designed to stimulate comparative debate and identify new areas for urban research Essays contrast empty space in Barcelona and Savannah explore the concept of healthy and unhealthy urban environments in the classical writings and in modern day Vienna and develop a model of space for Shanghai from the point of view of privacy The subcultural ethos characterizing Tokyo and the castle as a symbol for the community in Japan are two more essay topics The plaza in Spanish American towns the outdoor spaces in Italy balcony street courtyard and the school in Honduras are sites for socio cultural analyses in three more essays The last group of essays focus on discourses in urban planning especially the responses of people to the growth marketing and decay of residential places African American neighborhoods and waterfront development provide examples for this section These essays in their theoretical and geographical breadth make significant strides in defining the cultural meaning of urban space They will be read with interest by city planners ecologists and other social scientists involved in finding human solutions to the metropolitan environment MAVO

Gennifer Weisenfeld, 2002-02-25 Mavo were a Japanese group of artists active in Tokyo from 1923 1925 *Geisha, Harlot, Strangler, Star* William Johnston, 2005 In 1936 Abe Sada committed the most notorious crime in twentieth century Japan the murder and emasculation of her lover This detailed account of Sada's personal history the events leading up to the crime and its aftermath steps beyond the simplistic view of Abe Sada as a sexual deviate or hysterical woman to reveal a survivor
