**Marxism and Human Nature** Sean Sayers, 2013-01-11 Is there such a thing as human nature Here Sean Sayers defends the controversial theory that human nature is in fact an historical phenomenon He gives an ambitious and wide ranging defence of the Marxist and Hegelian historical approach and engages with a wide range of work at the heart of the contemporary debate in social and moral philosophy

*Southbound* Ernest Suarez, T. W. Stanford, Amy Verner, 1999 There is a real flowering I think of southern poetry right now assembling at the edges of everything This observation by Pulitzer Prize winning poet Charles Wright reflects upon the continuing vibrancy and importance of the southern poetic tradition Although the death of James Dickey in 1997 left southern poetry without a recognizably dominant voice an array of other vibrant voices continue to be heard and recognized *Southbound Interviews with Southern Poets* provides a glimpse of the many poets who promise to keep southern poetry vital into the twenty first century

**Religious Movements in the Middle Ages** Herbert Grundmann, 1995-01-31 Medievalists historians and women's studies specialists will welcome this translation of Herbert Grundmann's classic study of religious movements in the Middle Ages because it provides a much needed history of medieval religious life one that lies between the extremes of doctrinal classification and materialistic analysis and because it represents the first major effort to underline the importance of women in the development of the language and practice of religion in the Middle Ages

**The World Turned Upside Down** Christopher Hill, 2020-01-02 His finest work and one that was both symptom and engine of the concept of history from below Here Levellers Diggers Ranters Muggletonians the early Quakers and others taking advantage of the collapse of censorship to bid for new kinds of freedom were given centre stage Hill lives on Times Higher Education In *The World Turned Upside Down* Christopher Hill studies the beliefs of such radical groups as the Diggers the Ranters the Levellers and others and the social and emotional impulses that gave rise to them The relations between rich and poor classes the part played by wandering masterless men the outbursts of sexual freedom the great imaginative creations of Milton and Bunyan these and many other elements build up into a marvellously detailed and coherent portrait of this strange sudden effusion of revolutionary beliefs Established the concept of an English Revolution every bit as significant and potentially as radical as its French and Russian equivalents Daily Telegraph Brilliant marvellous erudition and sympathy David Caute New Statesman This book will outlive our time and will stand as a notable monument to the man the committed radical scholar and one of the finest historians of the age The Times Literary Supplement The dean and paragon of English historians E P Thompson

*Geek Heresy* Kentaro Toyama, 2015-05-26 After a decade designing technologies meant to address education health and global poverty award winning computer scientist Kentaro Toyama came to a difficult conclusion Even in an age of amazing technology social progress depends on human changes that gadgets can't deliver Computers in Bangalore are locked away in dusty cabinets because teachers don't know what to do with them Mobile phone apps meant to spread hygiene practices in Africa fail to

improve health Executives in Silicon Valley evangelize novel technologies at work even as they send their children to Waldorf schools that ban electronics And four decades of incredible innovation in America have done nothing to turn the tide of rising poverty and inequality Why then do we keep hoping that technology will solve our greatest social ills In this incisive book Toyama cures us of the manic rhetoric of digital utopians and reinvigorates us with a deeply people centric view of social change Contrasting the outlandish claims of tech zealots with stories of people like Patrick Awuah a Microsoft millionaire who left his engineering job to open Ghana s first liberal arts university and Tara Sreenivasa a graduate of a remarkable South Indian school that takes impoverished children into the high tech offices of Goldman Sachs and Mercedes Benz Geek Heresy is a heartwarming reminder that it s human wisdom not machines that move our world forward **Milton and the**

**English Revolution** Christopher Hill,2020-01-14 Remarkable reinterpretation of Milton and his poetry by one of the most famous historians of the 17th Century In this remarkable book Christopher Hill used the learning gathered in a lifetime s study of seventeenth century England to carry out a major reassessment of Milton as man politician poet and religious thinker The result is a Milton very different from most popular imagination instead of a gloomy sexless Puritan we have a dashing original thinker branded with the contemporary reputation of a libertine For Hill Milton is an author who found his real stimulus less in the literature of classical and times and more in the political and religious radicalism of his own day Hill demonstrates with originality learning and insight how Milton s political and religious predicament is reflected in his classic poetry particularly Paradise Lost and Samson Agonistes **A History of Florence, 1200 - 1575** John M.

Najemy,2008-04-15 In this history of Florence distinguished historian John Najemy discusses all the major developments in Florentine history from 1200 to 1575 Captures Florence s transformation from a medieval commune into an aristocratic republic territorial state and monarchy Weaves together intellectual cultural social economic religious and political developments Academically rigorous yet accessible and appealing to the general reader Likely to become the standard work on Renaissance Florence for years to come Radical Pastoral, 1381-1594 Mike Rodman Jones,2016-04-22 From William Langland s Piers Plowman through the highly polemicized literary culture of fifteenth century Lollardy to major Reformation writers such as Simon Fish William Tyndale and John Bale and into the 1590s this book argues for a vital reassessment of our understanding of the literary and cultural modes of the Reformation It argues that the ostensibly revolutionary character of early Protestant literary culture was deeply indebted to medieval satirical writing and indeed can be viewed as a remarkable crystallization of the textual movements and polemical personae of a rich combative tradition of medieval writing which is still at play on the London stage in the age of Marlowe and Shakespeare Beginning with a detailed analysis of Piers Plowman this book traces the continued vivacity of combative satirical personae and self fashionings that took place in an appropriative movement centred on the figure of the medieval labourer The remarkable era of Protestant plowman polemics has too often been dismissed as conventional or ephemeral writing too stylistically separate to be linked to Piers Plowman or

held under the purview of historians who have viewed such texts as sources of theological or documentary information rather than as vital literary cultural works in their own right Radical Pastoral 1381 1594 makes a vigorous case for the existence of a highly politicised tradition of polemical pastoral which stretched across the whole of the sixteenth century a tradition that has been largely marginalised by both medievalists and early modernists **Voices of the Reformation** John A.

Wagner,2015-05-05 This fascinating collection of primary source documents furnishes the accounts in their own words of those who initiated advanced or lived through the Reformation Starting in 1500 Europe transformed from a united Christendom into a continent bitterly divided between Catholicism and Protestantism by the end of the century This illuminating text reveals what happened during that period by presenting the social religious economic political and cultural life of the European Reformation of the 16th century in the words of those who lived through it Detailed and comprehensive the work includes 60 primary source documents that shed light on the character personalities and events of that time and provides context questions and activities for successfully incorporating these documents into academic research and reading projects A special section provides guidelines for better evaluating and understanding primary documents Topics include late medieval religion Martin Luther reformation in Germany and the Peasants War the rise of Calvinism and the English Reformation

*The Heavenly Contract* David Zaret,1985-04 The idea of a heavenly contract uniting God and humanity in a bargain of salvation emerged as the keystone of Puritan theology in early modern England Yet this concept with its connotations of exchange and reciprocity runs counter to other tenets of Calvinism such as predestination that were also central to Puritan thought With bold analytic intelligence David Zaret explores this puzzling conflict between covenant theology and pure Calvinism In the process he demonstrates that popular beliefs and activities had tremendous influence on Puritan religion **The Cathars** Malcolm Barber,2014-06-17 The Cathars are one of the most famous heretical movements of the late twelfth and early thirteenth centuries They infiltrated the highest ranks of society and posed a major threat not only to the Catholic Church but also to secular authorities as well The movement was finally smashed by the crusade and the inquisitional proceedings that followed This new study is the first comprehensive history of the Cathars It addresses major topics in medieval history including heresy orthodoxy and the Crusades as well as providing a history of the social and political history of Languedoc and the rise of the Capetian dynasty A fascinating study of the development of radical religious belief and its violent suppression
