*Conversant Essays* James McCorkle, 1990 [Greek Mythology](#) Carolina López-Ruiz, 2025 This volume provides an introduction to ancient Greek mythology through the theme of cosmogonies and theogonies myths of origins that told the creation of the world and the birth and succession of the gods Greek Mythology additionally features important foundational myths related to the early stages of humankind such as the sequence of the Five Races the first sacrifice the creation of woman and the Flood all part of the core Greek myths about the beginnings of the world The centerpiece of the volume is Hesiod's Theogony as well as parts of Works and Days which are along with the Iliad and Odyssey the earliest Greek literary texts preserved The volume includes freshly translated excerpts from these canonical sources along with discussions of alternative cosmogonies and theogonies in the Greek tradition in a rare feature for myth overviews Beyond providing an overview of the central stories Greek Mythology reveals myriad aspects of the myths such as their literary form and performative contexts their relationship to Near Eastern myths their religious relevance and ritual function and their reception both in later antiquity and in modern times

*Story and Discourse* Seymour Benjamin Chatman, Seymour Chatman, 1980 An important American contribution to the study of narrative theory Choice This book is the first comprehensive approach in English to a general theory of narrative both in verbal and in visual media The primary question to which Professor Chatman addresses himself is what narrative is in itself Following such French structuralists as

Roland Barthes Tzvetan Todorov and Gerard Genette he posits a what and a way The what of narrative he says I call its story the way I call its discourse Liberally illustrating his concepts with discussions of particular novels and films he effects a synthesis of the latest Continental critical thinking about narrative and the Anglo American tradition exemplified by Henry James Percy Lubbock Wayne Booth and others A judicious and well informed book Story and Discourse should become a standard guide to narrative and to modern thinking about narrative

Journey into God Mark G. Boyer, 2022-01-28 This is a book about spirituality more specifically the spiritual journey Before beginning any journey or trip spiritual or otherwise we experience a state of order Then comes the call to journey to travel to take a trip to walk to pilgrimage to hit the road etc The call to begin a journey may come from an urge within us it may be an invitation from a spouse or a friend to fly somewhere it may be as simple as taking the dog for a walk in the neighborhood even taking different streets The call disrupts our ordered lives We prepare for our excursion We enter into the stage of chaos when we take the journey also we enter into the process of transformation By the time we get home we will be transformed These are the steps of the spiritual journey into God order hearing the call to journey answering the call with preparation entering the chaos of the journey and being and coming home transformed Ninety seven reflections are presented in this book in seven chapters devoted to journey road path route highway gateway walk way and more

Recursively Enumerable Sets and Degrees Robert I. Soare, 1999-11-01 The book written by one of the main researchers on the field gives a complete account of the theory of recursive degrees The definitions results and proofs are always clearly motivated and explained before the formal presentation the proofs are described with remarkable clarity and conciseness The book is highly recommended to everyone interested in logic It also provides a useful background to computer scientists in particular to theoretical computer scientists Acta Scientiarum Mathematicarum Ungarn 1988 The main purpose of this book is to introduce the reader to the main results and to the intricacies of the current theory for the recursively enumerable sets and degrees The author has managed to give a coherent exposition of a rather complex and messy area of logic and with this book degree theory is far more accessible to students and logicians in other fields than it used to be Zentralblatt für Mathematik 623 1988
