Lower Paleolithic Site At Hoxne England:

The Lower Paleolithic Site at Hoxne, England Ronald Singer, Bruce G. Gladfelter, John Wymer, 1993 At the edge of the small Suffolk village of Hoxne lies what is arguably the single most important Middle Pleistocene archaeological site in Europe Here the deposits contain not only prehistoric artifacts but also extraordinary records of fossil flora and fauna making Hoxne one of the few paleolithic sites where early hominid materials can be found with other types of information in their primary contexts Much controversy has surrounded the interpretation of these prehistoric materials and their stratigraphic position since John Frere published the first account of the site in 1797 Seeking to resolve some of the disputes a team from the University of Chicago began in 1971 the most extensive series of excavations yet undertaken This profusely illustrated volume presents the results of the team's five summers of excavations which ended in 1978 and includes contributions by twelve specialists who represent many branches of Quaternary science Although some uncertainty remains on various minor questions this will stand for many years to come as the definitive study of Hoxne's archaeological and geochronological significance Ronald Singer is the Robert R Bensley Professor in the Departments of Anatomy and Anthropology at the University of Chicago Bruce G Gladfelter is associate professor in the Department of Geography at the University of Illinois at Chicago John Wymer a self employed archaeologist has been a field officer with the Norfolk Archaeological Unit and the Essex Archaeological Unit

The Archaeology of V. Gordon Childe Vere Gordon Childe, 1994-07 Although V Gordon Childe died 36 years ago he remains the world's most renowned prehistorian His *What Happened in History* first published in 1942 is probably the most widely read book ever written by an archaeologist His influence and reputation endure despite the fact that many of the theoretical ideas he propounded as well as his interpretations of European and West Asian prehistory have been profoundly modified or even rejected since his death With contributions from such distinguished prehistorians as Kent V Flannery David Harris Leo S Klejn John Mulvaney Colin Renfrew Michael Rowlands and Bruce Trigger *The Archaeology of V Gordon Childe* is an attempt to evaluate Childe's achievement from different partly national perspectives and to assess how far and why his work remains significant today The contributors examine such persistent themes in Childe's thought as the nature of culture and the role of diffusion in cultural evolution and debate the question of whether Childe anticipated processual archaeology in his famous models of the Neolithic and Urban Revolutions Also included are evaluations of Childe's early career in Australia his relations with Soviet archaeology including a previously unknown letter from Childe to Soviet archaeologists and his impact on American archaeology

A Prehistory of the North John F.
