**Reclaiming a Plundered Past** Magnus T. Bernhardsson, 2013-08-21 The looting of the Iraqi National Museum in April of 2003 provoked a world outcry at the loss of artifacts regarded as part of humanity's shared cultural patrimony. But though the losses were unprecedented in scale, the museum looting was hardly the first time that Iraqi heirlooms had been plundered or put to political uses. From the beginning of archaeology as a modern science in the nineteenth century, Europeans excavated and appropriated Iraqi antiquities as relics of the birth of Western civilization. Since Iraq was created in 1921, the modern state has used archaeology to forge a connection to the ancient civilizations of Mesopotamia and of Islamic empires and so build a sense of nationhood among Iraqis of differing religious traditions and ethnicities. This book delves into the ways that archaeology and politics intertwined in Iraq during the British Mandate and the first years of nationhood before World War II. Magnus Bernhardsson begins with the work of British archaeologists who conducted extensive excavations in Iraq and sent their finds to the museums of Europe. He then traces how Iraqis' growing sense of nationhood led them to confront the British over antiquities law and the division of archaeological finds between Iraq and foreign excavators. He shows how Iraq's control over its archaeological patrimony was directly tied to the balance of political power and how it increased as power shifted to the Iraqi government. Finally, he examines how Iraqi leaders including Saddam Hussein have used archaeology and history to legitimize the state and its political actions. *Discovering Babylon* Rannfrid

Thelle, 2018-10-10 This volume presents Babylon as it has been passed down through Western culture through the Bible, classical texts, in Medieval travel accounts and through depictions of the Tower motif in art. It then details the discovery of the material culture remains of Babylon from the middle of the 19th century and through the great excavation of 1899-1917 and focuses on the encounter between the Babylon of tradition and the Babylon unearthed by the archaeologists. This book is unique in its multi-disciplinary approach, combining expertise in biblical studies and Assyriology with perspectives on history, art history, intellectual history, reception studies, and contemporary issues. *The Conquest of Assyria* Mogens Trolle

Larsen, 2014-06-03 *The Conquest of Assyria* tells what must surely be one of the most romantic tales of archaeological endeavour. The great cities and ancient palaces of Mesopotamia had lain buried for over two millennia and were all but forgotten, half remembered in the Hebrew Bible and Classical texts. This volume records the dramatic finds, the decipherment of the cuneiform system of writing and the rediscovery of a lost civilisation. *The Zondervan Encyclopedia of the Bible, Volume 4* Merrill C. Tenney, 2010-08-10 Revised edition. Volume 4 of 5. The Zondervan Encyclopedia of the Bible has been a classic Bible study resource for more than thirty years. Now thoroughly revised, this new five-volume edition provides up-to-date entries based on the latest scholarship. Beautiful full-color pictures supplement the text, which includes new articles in addition to thorough updates and improvements of existing topics. Different viewpoints of scholarship permit a well-rounded perspective on significant issues relating to doctrines, themes, and biblical interpretation. The goal remains the same: to

between the Tigris and Euphrates Rivers that was the birthplace of civilization and remains today the essential crossroads between East and West At the start of the fourth millennium BC at the edge of historical time civilization first arrived with the advent of cities and the invention of writing that began to replace legend with history This occurred on the floodplains of southern Iraq where the great rivers Tigris and Euphrates meet the Persian Gulf By 3000 BC a city called Uruk from which Iraq is derived had 80 000 residents Indeed as Bartle Bull reveals in his magisterial history if one divides the 5 000 years of human civilization into ten periods of five centuries each during the first nine of these the world s leading city was in one of the three regions of current day Iraq or to use its Greek name Mesopotamia Inspired by extensive reporting from the region to spend a decade delving deep into its history Bull chronicles the story of Iraq from the exploits of Gilgamesh almost certainly an historical figure to the fall of the Iraqi monarchy in 1958 that ushered in its familiar modern era The land between the rivers has been the melting pot and battleground of countless outsiders from the Akkadians of Hammurabi and the Greeks of Alexander to the Ottomans of Suleiman the Magnificent Here by the waters of Babylon Judaism was born and the Sunni Shia schism took its bloody shape Central themes play out over the millennia humanity s need for freedom versus the co eternal urge of tyranny the ever present conflict and cross fertilization of East and West with Iraq so often the hinge

We tend to view today's tensions in the Middle East through the prism of the last hundred years since the Treaty of Versailles imposed a controversial realignment of its borders. Bartle Bull's remarkable sweeping achievement reminds us that the region defined by the land between the rivers has for five millennia played a uniquely central role on the global stage.

**Fifty Key Works of History and Historiography** Kenneth Stunkel, 2012-05-23 *Fifty Key Works of History and Historiography* introduces some of the most important works ever written by those who have sought to understand, capture, query and interpret the past. The works covered include texts from ancient times to the present day and from different cultural traditions, ensuring a wide variety of schools, methods and ideas are introduced. Each of the fifty texts represents at least one of six broad categories: early examples of historiography (e.g. Herodotus and Augustine); non-western works (e.g. Shaddad and Fukuzawa); critical historiography (e.g. Mabillon and Ranke); history of minorities/neglected groups or subjects (e.g. Said and Needham); broad sweeps of history (e.g. Mumford and Hofstadter); problematic or unconventional historiography (e.g. Foucault and White). Each of the key works is introduced in a short essay written in a lively and engaging style which provides the ideal preparation for reading the text itself. Complete with a substantial introduction to the field, this book is the perfect starting point for anyone new to the study of history or historiography. *Juggernaut: Trucking to Saudi Arabia* Robert Hutchison, 2014-03-01

In 1986 professional writer Robert Hutchison became a passenger on a 10,000 mile trip through fourteen countries in a Scania 111. He was sampling the life of the long haul trucker. The trucker's world was one of long days and nights on the road away from their families; hair-raising tales of accidents and the extreme danger created by murderous driving. He grew to understand why truckers put up with the life not just for the money and the excitement but also for their pride in coping whatever the circumstances and for camaraderie. There was too the beauty of mountains and lakesides and the strangeness of the desert. Robert's trip with Graham Davies of Whittle International took him through Cold War Europe to Turkey and then through Iraq during the Iran-Iraq conflict with twenty mile border queues and frequent police shakedowns. Finally they delivered their cargo of machinery and ovens for making plastic pipes to Al Khobar in Saudi Arabia before heading home after 31 days on the road. This journey was undertaken when the golden age of transport from Europe to the Gulf was coming to an end. Robert's accurate record first published in 1987 is full of interest, drama and humour telling the story of a remarkable breed of men. This is the first paperback edition. *Puritans in Babylon* Bruce Kuklick, 2018-12-04

From the 1880s through the 1920s a motley collection of American scholars, soldiers of fortune, institutional bureaucrats and financiers created the academic fields that give us our knowledge of the ancient Near East. Bruce Kuklick's new book begins with the story of the initial adventure of these determined investigators: a twelve year dig near the Biblical Babylon at Nippur conducted at intervals from 1888 through 1900 and bankrolled by the Babylonian Exploration Fund. To unearth tens of thousands of cuneiform tablets the leaders of this venture faced harsh living conditions in the desert and an academic war of each against all that was quickly begun at the site itself. As their knowledge increased they risked their personal religious

beliefs in the search for historical truth Kuklick discusses their tribulations to illuminate two other contemporary developments first the maturation of the American university particularly in contrast to its German counterpart and second the influence of religious secular conflict on the ways in which Western scholarship appropriated or appreciated other cultures The Nippur expedition spawned unseemly and entertaining fights among the University of Pennsylvania Johns Hopkins Yale Harvard and Chicago for leadership in the study of ancient Near East not to mention disagreements with their own developing museums and an international scandal called the Hilprecht controversy More significant than these quarrels was the concern for the meaning of history displayed in this period of Near Eastern scholarship The field was linked to Biblical criticism and Judeo Christian interests and many of the orientalist originally possessed strong religious commitments which some put aside as they struggled for objectivity As recent critics have shown orientalism was an example of the West's ability to appropriate the other for its own purposes However Kuklick's study demonstrates that the censure of orientalism hinges on modes of argumentation that scholars of the ancient Near East helped to legitimate and at no small cost to themselves Bruce Kuklick is Killbrew Professor of History at the University of Pennsylvania Among his books are *To Every Thing a Season* Shibe Park and Urban Philadelphia 1909 1976 Princeton *Churchmen and Philosophers* Jonathan Edwards to John Dewey and *The Rise of American Philosophy* Cambridge Massachusetts 1860 1930 Originally published in 1996 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

#### **From Archaeology to Spectacle in Victorian Britain** Shawn

Malley, 2016-04-15 In his examination of the excavation of ancient Assyria by Austen Henry Layard Shawn Malley reveals how by whom and for what reasons the stones of Assyria were deployed during a brief but remarkably intense period of archaeological activity in the mid nineteenth century His book encompasses the archaeological practices and representations that originated in Layard's excavations radiated outward by way of the British Museum and Layard's best selling *Nineveh and Its Remains* 1849 and were then dispersed into the public domain of popular amusements That the stones of Assyria resonated in debates far beyond the interests of religious and scientific groups is apparent in the prevalence of poetry exhibitions plays and dioramas inspired by the excavation Of particular note correspondence involving high ranking diplomatic personnel and museum officials demonstrates that the treasures brought home to fill the British Museum served not only as signs of symbolic conquest but also as covert means for extending Britain's political and economic influence in the Near East Malley takes up issues of class and influence to show how the middle class Layard's celebrity status both advanced and threatened aristocratic values Tellingly the excavations prompted disturbing questions about the perils of imperial rule

that framed discussions of the social and political conditions which brought England to the brink of revolution in 1848 and resurfaced with a vengeance during the Crimean crisis In the provocative conclusion of this meticulously documented and suggestive book Malley points toward the striking parallels between the history of Britain s imperial investment in Mesopotamia and the contemporary geopolitical uses and abuses of Assyrian antiquity in post invasion Iraq   The British Library General Catalogue of Printed Books 1976 to 1982 British Library,1983   The Hawaiian Journal of History ,1984
