The Power of Point-of-Purchase Advertising Robert Liljenwall, 2004-03 **Marketing's Powerful Weapon** Robert Liljenwall, James M. Maskulka, 2001 **Integrated Marketing Communications with Online Study Tools 12 Months** Bill Chitty, William Chitty, Edwina Luck, Nigel Barker, Anne-Marie Sassenberg, Terence A. Shimp, J. Craig Andrews, 2017-11-16

Organisations continually use integrated marketing communications to achieve a competitive advantage and meet their marketing objectives. This 5th edition of *Integrated Marketing Communications* emphasises digital and interactive marketing, the most dynamic and crucial components to a successful IMC campaign today. Incorporating the most up-to-date theories and practice, this text clearly explains and demonstrates how to best select and coordinate all of a brand's marketing communications elements to effectively engage the target market. Chapters adopt an integrative approach to examine marketing communications from both a consumer's and marketer's perspective. With a new chapter on digital and social marketing addressing the development of interactive media in IMC and new IMC profiles featuring Australian marketers along with a wide range of local and global examples including Spotify, Pandora, Snapchat, Palace Cinemas, Woolworths, KFC, Old Spice, Telstra, Colgate, and QANTAS, this text has never been so relevant for students studying IMC today. Unique to the text is a series of new student and instructor IMC videos showing students how key objectives in IMC theory are applied by real businesses.

Visual Merchandising and In-store Brand Equity - 2ed Karin Zaghi, 2025-01-30 T00:00:00+01:00

Crafting and managing visual merchandising in this day and age means necessarily adopting an omnichannel view to satisfy a customer who seeks a seamless comprehensive one-stop shopping experience designed to break down the barriers between physical and virtual stores. In this new scenario, visual merchandising gives substance to a physical point of sale that must transform its very essence to become a place that exists to offer value. This is achieved by adopting a mixed model that combines the experience of a store with the access, interactivity, and convenience of e-commerce, ultimately consolidating in-store brand equity. Considering the role of digital technologies and multisensory communication, this book sets down guidelines for the store concept, delving into applications of color theory and semiotics. Moving on to examine the levers of visual merchandising, the discussion then turns to designing and managing POP materials in the channel relationship with respect to sustainability communication goals as well. Finally, the book closes with an evaluation of the customer's perspective in their interaction with the space they experience, perceive, and desire. This text is for people who handle communication for the store, in the store, as well as retail and industry practitioners, agencies, producers of POP materials, and finally undergraduate and master's students interested in marketing communication and retailing.
