Arkansas Women Cherisse Jones-Branch, Gary T. Edwards, 2018-06-01 Following in the tradition of the Southern Women series *Arkansas Women* highlights prominent Arkansas women exploring women's experiences across time and space from the state's earliest frontier years to the late twentieth century In doing so this collection of fifteen biographical essays productively complicates Arkansas history by providing a multidimensional focus on women with a particular appreciation for how gendered issues influenced the historical moment in which they lived Diverse in nature *Arkansas Women* contains stories about women on the Arkansas frontier including the narratives of indigenous women and their interactions with European men and of bondwomen of African descent who were forcibly moved to Arkansas from the seaboard South to labor

on cotton plantations There are also essays about twentieth century women who were agents of change in their communities such as Hilda Kahlert Cornish and the Arkansas birth control movement Adolphine Fletcher Terry's antisegregationist social activism and Sue Cowan Morris's Little Rock classroom teachers salary equalization suit Collectively these inspirational essays work to acknowledge women's accomplishments and to further discussions about their contributions to Arkansas's rich cultural heritage Contributors Michael Dougan on Mary Sybil Kidd Maynard Lewis Gary T Edwards on Amanda Trulock Dianna Fraley on Adolphine Fletcher Terry Sarah Wilkerson Freeman on Senator Hattie Caraway Rebecca Howard on Women of the Ozarks in the Civil War Elizabeth Jacoway on Daisy Lee Gatson Bates Kelly Houston Jones on Bondwomen on Arkansas's Cotton Frontier John Kirk on Sue Cowan Morris Marianne Leung on Hilda Kahlert Cornish Rachel Reynolds Luster on Mary Celestia Parler Loretta N McGregor on Dr Mamie Katherine Phipps Clark Michael Pierce on Freda Hogan Debra A Reid on Mary L Ray Yulonda Eadie Sano on Edith Mae Irby Jones Sonia Toudji on Women in Early Frontier Arkansas

Daughters Of Canaan Margaret Ripley Wolfe, 2014-10-17 From *Gone with the Wind* to *Designing Women* images of southern females that emerge from fiction and film tend to obscure the diversity of American women from below the Mason Dixon line In a work that deftly lays bare a myriad of myths and stereotypes while presenting true stories of ambition grit and endurance Margaret Ripley Wolfe offers the first professional historical synthesis of southern women's experiences across the centuries In telling their story she considers many ordinary lives those of Native American African American and white women from the Tidewater region and Appalachia to the Mississippi Delta to the Gulf Coastal Plain women whose varied economic and social circumstances resist simple explanations Wolfe examines critical eras outstanding personalities and groups wives mothers pioneers soldiers suffragists politicians and civil rights activists and the impact of the passage of time and the pressure of historical forces on the region's females The historical southern woman argues Wolfe has operated under a number of handicaps bearing the full weight of southern history mythology and legend Added to these have been the limitations of being female in a patriarchal society and the constraining images of the southern belle and her mentor the southern lady In addition the specter of race has haunted all southern women Gender is a common denominator but according to Wolfe it does not transcend race class point of view or a host of other factors Intrigued by the imagery as well as the irony of biblical stories and southern history Wolfe titles her work *Daughters of Canaan* Canaan symbolizes promise and for activist women in particular the South has been about promise as much as fulfillment General readers and students of southern and women's history will be drawn to Wolfe's engrossing chronicle

To Live and Die in Dixie David Zimring, 2014-12-31 According to the 1860 census nearly 350 000 native northerners resided in a southern state by the time of the Civil War Although northern in birth and upbringing many of these men and women identified with their adopted section once they moved south In this innovative study David Ross Zimring examines what motivated these Americans to change sections support or not the Confederate cause and in many cases rise to considerable influence in their new

homeland By analyzing the lives of northern emigrants in the South Zimring deepens our understanding of the nature of sectional identity as well as the strength of Confederate nationalism Focusing on a representative sample of emigrants Zimring identifies two subgroups adoptive southerners individuals born and raised in a state above the Mason Dixon line but who but did not necessarily join the Confederacy after they moved south and Northern Confederates emigrants who sided with the Confederacy during the Civil War After analyzing statistical data on states of origin age education decade of migration and most importantly the reasons why these individuals embarked for the South in the first place Zimring goes on to explore the prewar lives of adoptive southerners the adaptations they made with regard to slavery and the factors that influenced their allegiances during the secession crisis He also analyzes their contributions to the Confederate military and home front the emergence of their Confederate identities and nationalism their experiences as prisoners of war in the North and the reactions they elicited from native southerners In tracing these journeys from native northerner to Confederate veteran this book reveals not only the complex transformations of adoptive southerners but also the flexibility of sectional and national identity before the war and the loss of that flexibility in its aftermath *To Live and Die in Dixie* is a thought provoking work that provides a novel perspective on the revolutionary changes the Civil War unleashed on American society

North Over South Susan-Mary Grant,2000 This text argues that the Civil War truly formed the American nation and that the antebellum period was the crucial phase of American national construction Grant focuses on a Northern nationalism based on an opposition to things Southern and links national construction with European nationalism *Voices from the Gathering Storm* Glenn M. Linden,2001 *Voices from the Gathering Storm* explains the dramatic change in thinking about the nature and value of the American Union from 1846 to 1861 which impelled citizens from 11 southern states to declare independence and the remaining 22 states to fight the bloodiest war in the nation s history This reader tells the story of seventeen Northerners and Southerners who lived through the critical fifteen years prior to the Civil War In their letters and diaries they describe in their own words what it was like to live during the sectional crisis and the coming of the war Men like Abraham Lincoln and Jefferson Davis thought deeply about issues of patriotism and states rights issues which remain of great importance today Women and black Americans were also passionate in their beliefs Harriet Beecher Stowe felt so strongly about slavery that she wrote *Uncle Tom s Cabin* Frederick Douglass and Charlotte Forten Grimk wrote of their abhorrence of slavery and the need to end that evil institution The lives of Southern women were also affected as they were forced to confront the issue of slavery and the Northern effort to end it The voices of these men and women are heard in this new volume At this time the North and South made decisions that resulted in two very different civilizations the South embraced slavery and states rights while the North rejected the expansion of slavery and accepted the idea of an indivisible Union These pre Civil War years contain the key to understanding how the war came to be and also enable students to comprehend the modern North and South *Voices from the Gathering Storm* is the only text that uses primary sources to

illustrate the conflicts that divided the nation before the war This use of primary sources allows students to enter more deeply into the lives of Northerners and Southerners and to understand and appreciate the way in which they responded to this tense period in American history The author provides chapter introductions that connect the d *The Women's Fight* Thavolia Glymph, 2019-11-27 Historians of the Civil War often speak of wars within a war the military fight wartime struggles on the home front and the political and moral battle to preserve the Union and end slavery In this broadly conceived book Thavolia Glymph provides a comprehensive new history of women's roles and lives in the Civil War North and South white and black slave and free showing how women were essentially and fully engaged in all three arenas Glymph focuses on the ideas and ideologies that drove women's actions allegiances and politics We encounter women as they stood their ground moved into each other's territory sought and found common ground and fought for vastly different principles Some women used all the tools and powers they could muster to prevent the radical transformations the war increasingly imposed some fought with equal might for the same transformations and other women fought simply to keep the war at bay as they waited for their husbands and sons to return home Glymph shows how the Civil War exposed as never before the nation's fault lines not just along race and class lines but also along the ragged boundaries of gender However Glymph makes clear that women's experiences were not new to the mid nineteenth century rather many of them drew on memories of previous conflicts like the American Revolution and the War of 1812 to make sense of the Civil War's disorder and death
