Burns, Alice M. Rudy Price, 2021-05-03 This book offers microhistories related to the transnational circulations of impressionism in the late nineteenth and early twentieth centuries The contributors rethink the role of French impressionism in shaping these iterations by placing France within its global and imperialist context and arguing that impressionism might be framed through the mobility studies concept of constellations of mobility Artists engaging with impressionism in France as in other global contexts relied on responded to appropriated and resisted elements of form and content based on fluid and
