Wiseman, 2011-06-30 In the Roman republic only the People could pass laws only the People could elect politicians to office and the very word republica meant the People s business So why is it always assumed that the republic was an oligarchy The main reason is that most of what we know about it we know from Cicero a great man and a great writer but also an active right wing politician who took it for granted that what was good for a small minority of self styled best people optimates was good for the republic as a whole T P Wiseman interprets the last century of the republic on the assumption that the People had a coherent political ideology of its own and that the optimates with their belief in justified murder were responsible for the breakdown of the republic in civil war
