

Reasons for Nonviolence

2. Nonviolent action is consistent with a belief in the underlying unity of humankind and it is the only method of action, interpersonal or political, that does not block that path to what has often been called 'self-realization'.

Rationale For Nonviolence:

Conflict: Violence and Nonviolence Joan Valerie Bondurant, Understanding Nonviolence Maia Carter Hallward, Julie M. Norman, 2015-09-15 The use of nonviolent action is on the rise From the Occupy Movement to the Arab Spring and mass protests on the streets of Brazil activists across the world are increasingly using unarmed tactics to challenge oppressive corrupt and unjust systems But what exactly do we mean by nonviolence How is it deployed and to what effect Do nonviolent campaigns with political motivations differ from those driven by primarily economic concerns What are the limits and opportunities for activists engaging in nonviolent action today Is the growing number of nonviolence protests indicative of a new type of twenty first century struggle or is it simply a passing trend *Understanding Nonviolence* Contours and Contexts is the first book to offer a comprehensive introduction to nonviolence in theory and practice Combining insightful analysis of key theoretical debates with fresh perspectives on contemporary and historical case studies it explores the varied approaches aims and trajectories of nonviolent campaigns from Gandhi to the present day With cutting edge contributions from leading scholars and practitioners in the field this accessible and lively book will be essential reading for activists students and teachers of contentious politics international security and peace and conflict studies

The Ethics of Nonviolence Robert L. Holmes, 2013-06-20 Robert Holmes is one of the leading proponents of nonviolence in the United States and his influence extends to the rest of the world However he has never presented his views on nonviolence in full length book form *The Ethics of Nonviolence* brings together his best essays on the topic both classic works and more obscure pieces as well as several important essays that have never been published Holmes started his career by following Dewey and James and then turned toward metaethics The Vietnam War finally led him toward moral problems related to war and violence For the last forty years he has been a great proponent of nonviolence and pacifism in the style of Tolstoy and Gandhi If ethics is meant to be more than a purely academic exercise the theoretical ethics of philosophy must be shown to be relevant to applied morality the ongoing process of making moral judgments must add value to the world we live in For Robert Holmes no aspect of reality is more in need of ethical thinking and reform than the culture of war and violence that cannot be ignored There are morally viable alternatives to this violence Holmes argues and he scrutinizes the sources and implications of such positions Holmes shows that nonviolence and pacifism can lead us toward a more peaceful and humanely dignified world

Introduction to Nonviolence Ramin Jahanbegloo, 2014-03-11 Non violent movements under figures like Gandhi and the Dalai Lama led to some of the great social changes of the 20th century and some argue it offers solutions for this century's problems This book explores non violence from its roots in diverse religious and philosophical traditions to its role in bringing social and political change today

An Ethical Evaluation of Lethal Functions in Autoregulative Weapons Systems Nicole Kunkel, 2024-12-30 This book connects two of the most pressing ethical topics of our time questions of peace and technology materialized in so called autonomous weapons systems which can operate without human

control and intervention in real time The author however criticizes the term autonomy as too anthropomorphic and therefore misleading She consequently proposes using the term autoregulation in its place Taking a contingent pacifist stance this book addresses the question of whether such technological means help or hinder peace processes The argument is tripartite First it is demonstrated that the risk of harm to nonparticipants is very likely to increase Second and with respect to responsibility it is indicated that a human machine system can only be operated responsibly if a human is in control Finally this idea is transferred into theological thought through reference to Bonhoeffer's idea of incurring guilt in acting responsibly In that context autoregulative technology might pose the possibility of shying away from responsibility and therefore becoming guilty This book is among the first ethical considerations of lethal autoregulative weaponry from a contingent pacifist stance and brings together peace ethical thinking and theories from various backgrounds *Rationale for Nonviolence* Chandler Smith, 1992 RATIONALE FOR NONVIOLENCE deals with the question of whether human survival is possible in the nuclear age Main points are that the different ways of responding to violence are limited that deterrence retaliation is ultimately self defeating that a just war is just nonsense that morality is necessary to a viable society that nonviolence has a legitimate understandable rationale These points are made in six essays one play four conversations five editorials 57 quotations The number of pages is 241 the price which includes shipping handling is 15 00 the book is available from Chandler Smith 5260 S Landings Dr Ft Myers FL 33919 Checks should be made payable to Chandler Smith *The Oxford Handbook of Intergroup Conflict* Linda Tropp, 2012-07-26 With insightful chapters from key social psychologists and peace scholars this handbook offers an integrative and extensive overview of critical questions issues processes and strategies relevant to understanding and addressing intergroup conflict **On the Moral Nature of the Universe** Nancey C. Murphy, George Francis Rayner Ellis, Ellis and Murphy show how contemporary sciences actually support a religiously based ethic of nonviolence not by appealing to the Enlightenment's mechanistic Creator God or revelation's Father God but by discerning the transcendent ground in the laws of nature the emergence of intelligent freedom and the echoes of knoetic self giving in cosmology and biology **Promoting Nonviolence in Early Adolescence** Aleta L. Meyer, Albert Farrell, Wendy Northup, Eva Kung, Laura Plybon, 2012-12-06 In preparation for role play during a RIPP class 6th grade students consider the following conflict situation Sharon and Josie who are good friends tryout for the basketball team Josie makes the team but Sharon does not The week after tryouts Sharon tries to pick a fight with Josie calling her a cheater and some one the coach felt sorry for Josie is in a bind she wants to remain friends with Sharon but she is really angry with Sharon for treating her so badly What can Josie do in this situation What type of self talk will help her work out this problem with Sharon and keep the friendship During the role play Sharon calls Josie a cheater Then before Josie responds two students representing her positive and negative sides take turns whispering into her ear Negative self talk Boy is she a loser What if everyone believes her and thinks that I cheated to get on the team Positive self talk I know I worked hard to get on the team Sharon must really

be hurt that she didn't make it I can talk to her later when she's cooled down and maybe we can do something together after practice Josie listens to the two voices and decides that the best approach is to ignore Sharon's comments for now and to call her later that day to see if they can do something together This description of students dealing with everyday conflicts is quite real

The Power of Nonviolence Richard Bartlett Gregg, 2018-11-08 This definitive edition of the 1959 classic text includes a major new introduction by a leading political theorist James Tully

The Adaptive Military James Burk, 2017-07-05 When the cold war ended many hoped it signified enhanced prospects for a more stable world However despite favorable political developments the post cold war period has been marked by turbulence uncertainty and challenge The actions of rogue states such as Iraq and North Korea have made nuclear proliferation more unpredictable Violence in Somalia and Bosnia has cast doubt on the viability of international peacekeeping arrangements Hopes for expanding democratization have been dimmed by assertions that the values of liberal democracy and human rights are incompatible with non Western cultures The Adaptive Military describes how military security policies and practices have adapted to these new times and explains why such changes are necessary The central argument is that current conflicts have been shaped by long term trends which increased the number and complexity of threats that the developed world is supposed to meet and correspondingly decreased the stock of social and political options available to meet them Although the authors differ in their assessments about the current prospects for peace and ways to maintain security the issues they address are as critical as they were at the end of the Cold War Mobilizing resources and political support for remote and difficult enterprises will always remain contentious but if we recognize the hazard of letting violence run unopposed throughout the world then we bear some responsibility to consider how it might be checked This volume is an exercise of that responsibility It will be of great interest to experts in military studies and international relations

A Hidden Wholeness Parker J. Palmer, 2024-09-24 A wise heartfelt and compelling guide to our quest for wholeness in a broken world A Hidden Wholeness now in its 20th Anniversary Edition with a new Introduction by bestselling author Parker J Palmer has helped people in every walk of life rise to the challenge of living divided no more What leads us to live divided lives that defy our own sense of identity and integrity When we do what price do we and the world pay How can we recover the wholeness that is our birthright gift Palmer examines the forces that deflect us from the soul's true north and gives us the tools we need to regain our bearings Mapping an inner journey to be taken in solitude and community Palmer explores perspectives and practices that can help us embody integrity in a world where it often feels risky to be who we are As we learn how to be present to others in spaces where it's safe for the soul to speak aka circles of trust we find ways to rejoin soul and role in our personal vocational and public lives Inspired by A Hidden Wholeness and by the work of the Center for Courage Renewal a nonprofit Palmer founded in the late 1990s tens of thousands of people have participated in circles of trust to deepen their sense of true self and contribute to the common good in the places where they live and work To support readers in developing these practices the book comes with

an online Study Guide for Readers and Group Leaders including author videos available free at the Center's website In the midst of our broken world the principles and practices in this book can ground us in the hidden wholeness giving us a place to stand as we seek to live with deeper integrity at every level of our lives Violence and Nonviolence Barry L. Gan, 2013-08-08 Violence and Nonviolence an Introduction critiques five dominant societal views about violence and nonviolence Using evidence from scientific studies as well as anecdotal evidence and news reports esteemed scholar and editor Barry L. Gan shows readers that these widely adopted and violent views are largely mistaken and require a fundamental rethinking and adjustment By synthesizing new research with old philosophies Gan introduces readers to an alternative paradigm of nonviolence through which we can begin to build a more peaceful world Nonviolent strategic action a kind of selective nonviolence is the first of the two alternative paradigms that provides a concrete approach to addressing social and political problems arising from violence Nonviolence as a way of life is the second of the paradigms that expands upon and in some respects critiques the first preferring a comprehensive and radical response to the scourges of violence that have plagued human history **Research in Social Movements, Conflicts and Change** Patrick G. Coy, 2008-06-16 Presents a series of papers focused on the complex dynamics of coalitions and the interorganizational relations within social movements This volume includes a section which focuses on strategic decision making in social movements including with regard to strategic alliances *Nonviolence Now!* Alycee J. Lane, 2015-05-30 Using the campaign's commitment card to nonviolence Alycee Lane explores the deeper wider and more challenging commitment to nonviolence against self others and the planet as a whole and to dedicate oneself to spiritual contemplation mindfulness lovingkindness and generosity Nonviolence Now thus offers a new pledge one that includes the Birmingham commitments but goes beyond them to help us meet the different but no less critical challenges that the Obama era presents Revolutionary Nonviolence in Violent Times Michael Minch, Laura Finley, 2020-02-18 This edited volume focuses on the evolving nature of peacebuilding Chapters address important and timely questions including how groups select their peacebuilding methods whether any form of violence is acceptable and the role of neoliberalism Further the contributions here written from a variety of disciplinary perspectives evaluate the effectiveness of many historical and current peacebuilding efforts The book offers cutting edge work in the field of peace and conflict studies and will be useful to academics students and educators **The Errors of Atheism** J. Angelo Corlett, 2010-01-01 *Nonviolence* Senthil Ram, Ralph Summy, 2008 The so called war on terror has gone badly for the West playing directly into the strategy of al Qaeda and the rest of the terrorist network Why did this happen Were there other approaches that might have been implemented with better prospects of success This edited collection of perspectives on the non violent counter to terrorism opens the topic to serious consideration The development of a non violent paradigm brings into sharp focus the deficiencies of present thinking and paves the way for comprehending how non violence might overcome those deficiencies and introduce viable alternatives Since there is a general ignorance about the

history theory and operational dynamics of non violence these aspects are featured throughout the book and related to the special case of terrorism To understand empathetically the background and mind set of the opponent without condoning his actions to study his culture to avoid the strategic trap he has set to examine the different gender reactions of a Muslim Society to differentiate between non violent Islam and Islamic Terrorism to jettison the misinformed baggage we carry about violence to appreciate the positive role education and aesthetics can play and to investigate ways in which a non violent counter to terrorism might be staged including a Gandhian response These are just some of the tasks that the contributors have collectively pursued Their ideas excitingly open up a whole new set of possibilities for a more peaceful world

Peaceful Persuasion Ellen W. Gorsevski, 2004-02-01 This remarkable book asserts that nonviolent rhetoric largely overlooked until now supports conflict transformation when applied to contemporary political communication Ellen W Gorsevski explores the pragmatic nonviolence of Macedonian President Kiro Gligorov the visual rhetoric of Nobel Prize winner Aung San Suu Kyi and an anti racist campaign in Billings Montana In so doing she establishes a foundation for theorizing how conflicts can be understood prevented managed or reduced by employing peace minded rhetorical means *Peaceful Persuasion* highlights the great possibilities as well as deep responsibilities of rhetorical choices made on the geopolitical scene and uncovers the transformative potential of recognizing the social cultural and political value of nonviolence in fostering democracy

The Military In New Times James Burk, Robert J Waldman, David R Segal, Charles C Moskos, 2019-06-26 What role will armed forces play in a world that is turbulent yet no longer organized by the bipolar conflict of East and West In this volume leading experts from several disciplines assess the rapidly changing global strategic and cultural landscape examining how it will affect the responsibilities and social standing of the modern military There are provocative disagreements among the contributors especially over whether we should expect and prepare for another global war However the contributors generally agree on several broad themes that guide their analysis Arguing that the Cold War has masked basic trends that have been reshaping the international system for a long time they suggest that the sovereign states dominance of the international system is rapidly coming to an end as multinational ethnic regional and religious groups to name a few increasingly affect the course of global affairs In the absence of a clear enemy the military faces an identity crisis In the postmodern atmosphere of this multicentric global order authority is fragmented and the exercise of any one authority is subject to greater scrutiny and challenge The military has become more accepting of a variety of values life styles and attitudes toward its tasks At the same time support for the military s mission is difficult to win requiring endless justification The authors believe that the principal missions for the military in these new times are peacekeeping peacemaking and humanitarian assistance They examine the prospects for successful operations in these areas taking into account the cultural lag between world structures that favor increased multinational peacekeeping forces and individual nations that supply token resources to support such efforts This volume provides a sophisticated and thought provoking

perspective on the future role of the military in the coming decades It is sure to enrich the vigorous debate surrounding these issues
