## **Re Distribution Of Authority A Cross Regional Perspective:**

**Re-distribution of Authority** Jeanie J. Bukowski, Swarna Rajagopalan, 2000-05-30 Bukowski Rajagopalan and their contributors seek to cross both analytical and geographic boundaries in the study of why and how authority shifts both within and beyond the modern nation state They develop a conceptualization of the re distribution of authority that is when the capacity of governmental and societal units involved in carrying out the tasks and responsibilities of governance change over time relative to each other They argue that this is a more comprehensive alternative to extant conceptualizations used to study the shifting of authority such as decentralization regionalism or federalism Nine diverse cases are then presented Pakistan India Sri Lanka the United States Russia Spain Portugal Senegal and South Africa Each case addresses the questions Which are the factors that explain the re distribution of authority Under what conditions are some of these factors more important than others Despite the diversity of the cases in both geographic location and levels of economic and political development four major explanatory factors emerge as common across all nine cases identity related claims economic imperatives considerations of administrative efficiency and political agency Moreover discerning the complex interaction of these factors is necessary in understanding the re distribution of authority in both its centralizing and decentralizing forms across all levels of governance Of particular interest to scholars students and policy researchers involved with international relations comparative politics public administration political development and state formation and ethnonational politics

**The Secular and the Sacred** William Safran, 2004-08-02 What is the place of religion in modern political systems This volume addresses that question by focusing on ten countries across several geographic areas Western and East Central Europe North America the Middle East and South Asia These countries are comparable in the sense that they are committed to constitutional rule have embraced a more or less secular culture and have formal guarantees of freedom of religion Yet in all the cases examined here religion impinges on the political system in the form of legal establishment semi legitimation subvention and or selective institutional arrangements and its role is reflected in cultural norms electoral behaviour and public policies The relationship between religion and politics comes in many varieties in differing countries yet all are faced with three major challenges modernity democracy and the increasingly multi ethnic and multi religious nature of their societies

*Between Europeanization and Local Societies* Jeanie J. Bukowski, Simona Piattoni, Marc E. Smyrl, 2003 The contributors of this thoughtful book explore the role and influence of political leadership through a rigorous comparative analysis of regional level dynamics in Europe Visit our website for sample chapters [John Frith, Scholar and Martyr](#) Brian Raynor, 2000 John Frith was one of the outstanding academics of his time He had a clear logical mathematical mind was highly respected and influenced many Yet in 1553 at the age of 30 he was burnt at the stake for writing books supporting doctrines of Reformation This work discusses his life

**State and Nation in South Asia** Swarna Rajagopalan, 2001 What makes a national community out of a state Addressing this fundamental question Rajagopalan studies national integration

from the perspective of three South Asian communities Tamilians in India Sindhis in Pakistan and Tamils in Sri Lanka that have a history of secessionism in common but with vastly different outcomes Rajagopalan investigates why integration is relatively successful in some cases Tamil Nadu less so in others Sindh and disastrous in some Sri Lanka Broadly comparative and drawing together multiple aspects of political development and nation building her imaginative exploration of the tension between state and nation gives voice to relatively disenfranchised sections of society **The African State and the AIDS Crisis**

Amy S. Patterson, 2018-01-18 This edited volume analyzes African state responses to the AIDS epidemic Institutionally weak limited in resources and lacking power in the international system the African state has been characterized as inefficient corrupt and illegitimate The volume questions how aspects of the African state have affected policy responses to AIDS It highlights how African states must initiate develop and or implement the long term policy solutions necessary to combat AIDS It employs empirical studies from the international and national arena to illustrate why some African states have been able and willing to address AIDS while others have not Contributions analyze how international actors civil society organizations state ideology patriarchy and state capacity have influenced policies to fight AIDS Examining AIDS policies through the prism of African state development and linkages to domestic and international actors this book provides a nuanced understanding of the variety of responses to AIDS in Africa Local Government in Central and Eastern Europe

Andrew Coulson, Adrian Campbell, 2007-08-02 Advocates of democratization in Central and Eastern Europe before 1989 placed great emphasis on community self government as the basis of civil society and democracy After the Velvet Revolutions of 1989 and the break up of the Soviet Union in 1991 the new states created an elected local government whereby cities towns and villages elected the *Local Government Reform* Brian Dollery, Joseph Garcea, Edward C. LeSage, 2008-01-01 Written by an impressive array of experts this book surveys local government reforms in six advanced democracies federal and unitary which share a municipal legacy Australia Canada Ireland New Zealand the UK and the US The book has an excellent bibliography and will help open up a field heretofore noted for its insularity Recommended A J Ward Choice

Security and South Asia Swarna Rajagopalan, 2014-03-21 Stephen Philip Cohen can rightly be called the doyen of South Asian security analysis especially traditional security concerns in the region and advocacy on US foreign policy The contributors to the volume have all at different at different points in time been Cohen s students and are now well known scholars in their own right Broadly dividing Cohen s work into categories the contributors deal with the following issues how security is understood and how important strategic relationships are framed approaches to and choices made in the areas of military structure arms production and investment in science and technology how and why civil society groups are mobilized towards political ends specifically looking at ethnic mobilization in diaspora communities non official initiatives for peace in South Asia and the role of state and non state actors in disaster management the role of the army The essays reflect a view of security as something people choose to make for themselves through an exercise of agency that is rooted in the realm of

ideas     **Nationalism and Self-Government** Scott L. Greer,2012-02-01 Scotland and Catalonia both ancient nations with strong nationalisms within larger states are exemplars of the management of ethnic conflict in multinational democracies and of global trends toward regional government Focusing on these two countries Scott L Greer explores why nationalist mobilization arose when it did and why it stopped at autonomy rather than statehood He challenges the notion that national identity or institutional design explains their relative success as stable multinational democracies and argues that the key is their strong regional societies and their regional organizations preferences for autonomy and environmental stability

**Imagining India** Nandan Nilekani,2012     **The Federalism Report** ,1994     Rethinking Authority in China's Border Regime Franziska Plümmer,2025-10-01 In the 21st century governments around the globe are faced with the question on how to tackle new migratory mobilities Governments increasingly become aware of irregular immigration and are forced to re negotiate the dilemma of open but secure borders Rethinking Authority in China s Border Regime Regulating the Irregular investigates the Chinese government s response to this phenomenon Hence this book presents a comprehensive analysis of the Chinese border regime It explores the regulatory framework of border mobility in China by analysing laws institutions and discourses as part of an ethnographic border regime analysis It argues that the Chinese state deliberately creates zones of exception along its border In these zones local governments function as scalar managers that establish cross border relations to facilitate cross border mobility and create local migration systems that build on their own notion of legality by issuing locally valid border documents The book presents an empirically rich story of how border politics are implemented and theoretically contributes to debates on territoriality and sovereignty as well as to the question of how authority is exerted through border management Empirically the analysis builds on two case studies at the Sino Myanmar and Sino North Korean borders to illustrate how local practices are embedded in multiscalar mobility regulation including regional organizations such as the Greater Mekong Subregion and the Greater Tumen Initiative     *Virginia journal of international law* ,2002

**Municipal Reform in Canada** Joseph Garcea,Edward C. LeSage,2005 This book presents an analysis of the purposes processes politics and outcomes of reform for each of the provinces and the northern territories These analyses reveal that reforms during this turn of the millennium period have reconfigured and in some cases re empowered municipal governance and shifted the balance of roles responsibilities and relationships among city and regional municipal governments and between them and their respective provincial and territorial governments The reform process however has not gone so far as to reinvent municipal governance and is not likely to in the foreseeable future Indeed the extent of change in recent years in many jurisdictions has brought about a degree of reform fatigue so that the principle actors in provincial municipal politics may be reticent to pursue new initiatives in the near future     **Department of Defense Authorization for**

**Appropriations for Fiscal Year 2006** United States. Congress. Senate. Committee on Armed Services,2006     **Legal Perspectives on the Russia-Ukraine War** Michał Balcerzak,Ewelina Cała-Wacinkiewicz,2025-09-18 This book critically

examines the legal ramifications of Russia's invasion of Ukraine and the aftermath of these events. Combining international and domestic perspectives, it synthesises nearly three years of legal responses to the aggression. Russia's aggression against Ukraine has triggered profound legal challenges with far-reaching implications for the states directly involved, third parties, and the international legal order. This book offers a comprehensive analysis of the international and domestic legal dimensions of the conflict. Beginning by exploring the international legal framework, including assessing the responses of the United Nations system and key legal issues arising from the war, it explores topics such as human rights, international humanitarian law, and the law of war. The book also analyses Poland's response to the war, discussing the legislative and policy measures undertaken to address the impact of the crisis. Poland, Ukraine's immediate neighbour, has played a pivotal role in managing the unprecedented influx of Ukrainian refugees and adapting its legal framework to the challenges posed by the war. The book uses Poland as a lens through which to examine the international legal response. This book will be of interest to researchers in the field of international law and human rights law.

Is There a Future for Regional Government? Great Britain: Parliament: House of Commons: ODPM: Housing, Planning, Local Government and the Regions Committee, 2006-03-15. Is there a future for regional Government? Session 2005-06 Vol 2 Written Evidence. Problems of Communism, 1989. Globalizing China – Social and Governance Reforms Ka Ho Mok, 2022-12-30. Unlike most books which consider China's transformation and globalization over the last four decades by focusing on China's economic growth, this book examines how the Chinese regime has handled the increasingly complex sociopolitical and socioeconomic challenges generated as a result of the country's economic growth and transformation, challenges arising both from within the country and also from the external political environment. Based on extensive original research, the book outlines how China's economic development has generated social and governance pressures, discusses the government's social, educational, and governance reforms, and highlights how China's development experiences, which differ from the Western economies with democratic political regimes, have drawn increasing attention from other countries in the developing world as an example to follow.
