Re Forming The Narrative

Re Forming The Narrative:

Re-forming the Narrative David Hayman, 1987 **Re-forming the Past** A. Timothy Spaulding, 2005 The slave experience was a defining one in American history and not surprisingly has been a significant and powerful trope in African American literature In *Re Forming the Past* A Timothy Spaulding examines contemporary revisions of slave narratives that use elements of the fantastic to redefine the historical and literary constructions of American slavery In their rejection of mimetic representation and traditional historiography postmodern slave narratives such as Ishmael Reed's *Flight to Canada* Octavia Butler's *Kindred* Toni Morrison's *Beloved* Charles Johnson's *Ox Herding Tale* and Middle Passage Jewelle Gomez's *The Gilda Stories* and Samuel Delaney's *Stars in My Pocket like Grains of Sand* set out to counter the usual slave narrative's reliance on realism and objectivity by creating alternative histories based on subjective fantastic and non realistic representations of slavery As these texts critique traditional conceptions of history identity and aesthetic form they simultaneously re invest these concepts with a political agency that harkens back to the original project of the 19th century slave narratives In their rejection of mimetic representation and traditional historiography Spaulding contextualizes postmodern slave narrative By addressing both literary and popular African American texts *Re Forming the Past* expands discussions of both the African American literary tradition and postmodern culture Re-Forming History Mark Sandle, William Van Arragon, 2019-05-23 Does the discipline of history need a reformation How should Christian faith shape the ways historians do their work This book written for students considers the how of doing history The authors first examine the current liturgies of the historical profession and suggest that the discipline is in crisis They argue for re formed Christian practices and methodologies for history The book asks important questions why do we do history and for whom How should faith shape how we do our research and tell stories What do we owe the dead How should Christian historians practice dangerous memory And how can Christian historians do justice love mercy and walk humbly with God How might we rethink reform renew reimagine and re practice the study of the past Christian historians must be sentinels of hope against the world's forgetfulness the authors argue and this book offers some pathways for rethinking our practices from a Christian perspective Re-Forming the Body MR Philip A Mellor, Philip A. Mellor Chris Shilling, Professor Chris Shilling, 1997-02-14 Enriches the conceptual arsenal for interdisciplinary analysis of political social and cultural change stimulates more nuanced thinking about the cultural and political legacy of the Reformation era manages both to clarify tensions surrounding cultural and social integration in the late 20th century while underscoring the real historical complexity of modern bodies *American Journal of Sociology* Through an analysis of successive re formations of the body this innovative and penetrating book constructs a fascinating and wide ranging account of how the creation and evolution of different patterns of human community are intimately related to the somatic experience of the sacred The book places the relationship between the embodiment and the sacred at the crux of social theory and casts a fresh light on the emergence and transformation of

modernity It critically examines the thesis that the rational projects of modern embodiment have died and gone to cyberspace and suggests that we are witnessing the rise of a virulent effervescent form of the sacred which is changing how people see and keep in touch with the world around them

Children's Perceptions of the Role of Biblical Narratives in Their Spiritual Formation

Annie George,2017-02-28 In the Bible storytelling is an important means to pass on the revelation of God God repeatedly commanded the people of Israel to tell his mighty acts to the next generation Invariably churches follow this mandate and use biblical narratives as a means to transmit God s self revelation to enable transformation The author Dr Annie George listens to the voices of children in order to understand their perceptions of how storytelling of biblical narratives help them in their spiritual formation Dr George s research highlights the importance of evaluating the impact of biblical narratives from a child s perspective as well as emphasising the need to give the same priority to the spiritual transformation of children as with other areas of study and ministry

The "Odyssey" Re-formed
Frederick Ahl,Hanna M. Roisman,2018-10-18 Frederick Ahl and Hanna M Roisman believe that contemporary readers who do not know ancient Greek can gain a sophisticated grasp of the Odyssey if they are aware of some of the issues that intrigue and puzzle the experts They offer a challenging new reading of the epic that is directed to the general student of literature as well as to the classicist Ahl and Roisman suggest that while translators have served the Odyssey and its English speaking readers remarkably well the nonspecialist wishing to do a more detailed critical reading of the epic faces a dilemma The enormous scholarly literature makes few concessions to the nonspecialist and those studies designed for general readers tend to offer variations on the overly simple idealized readings of the epic common in high school and college survey courses The Odyssey Re Formed offers a lively and detailed reading of the Odyssey episode by episode with particular attention paid to the manipulative power of its language and Homer s skill in using that power The authors explore how myth is shaped for specific rhetorical reasons and suggest ways in which the epic uses its audience s awareness of the varied pool of mythic traditions to give the Odyssey remarkable and subtle resonances that have profound poetic power

Re-forming Britain

Elizabeth Darling,2007-01-24 Re forming Britain considers the nature and practice of architectural modernism in inter war Britain in a new light Bringing hitherto little considered protagonists and projects to the fore it argues that rather than being an imported idiom the new architecture in Britain formed part of an ongoing attempt to make a modern nation Spanning the period 1925 42 the book focuses on the key sites from and through which architectural modernism emerged in the UK Part one considers the main arena in which a will to modernize Britain developed in the 1920s In parts two and three the author documents contextualizes and explains how this modernizing will was given modernist form discussing the work of architects such as Wells Coates Maxwell Fry and Connell and Ward and their allied ventures with likeminded reformers in other fields These collaborations produced narratives of modernity buildings projects exhibitions and books through which the book argues modernist reformers were able to persuade politicians and those with influence upon them that modernism was the

means to re form the nation Re forming Britain offers the first in depth analysis of well known modernist schemes such as Kensal House and the Pioneer Health Centre but also brings previously little studied or unknown activities to light This important work invites a new understanding of the nature of architectural modernism in inter war Britain and the ways in which it ultimately gave form to post war Britain The Expositor ,1920 Becoming a Missionary Church Michael W. Psychosocial Pathways Towards Reinventing the South African University Sabrina Liccardo, 2020-11-02 This book proposes a conceptual empirical framework for exploring forms of continuity and change along psychosocial pathways in South African universities It illustrates how the psychosocial pathways are grounded in the symbolic narratives and knowledges of young scientists engineers and architects all interlocutors in the research from which this book is based Alala Mamoratwa Welile Odirile Kaiya Amirah Takalani Nosakhele Naila Ambani Khanyisile Itumeleng Ethwasa and Kgnaya provide collective standpoints in the multiplicities within and between the lived lives and told stories of young Black South African women in Science Technology Engineering and Mathematics STEM fields In doing so this compelling work advances possibilities for demythologising scientific endeavour as a white male achievement and shifting knowledge communities across gendered racialised class and national divides This book presents an innovative narrative methodology utilising the myth of the Minotaur to examine the state of the university at the heart of the hierarchical labyrinth in post apartheid South Africa Throughout the work the author wrestles with and self reflexively highlights her own positionality as a white middle class South African woman to examine how this affects the production of this research in ways which serve to preserve the colonial knowledge system With the rise of the Rhodes Must Fall and Fees Must Fall student movement in South Africa demanding for the fall of institutionalised racial hierarchies the author uses the cover image of narrative formations in the spirit of exploration to think with and through undulating networked forms that could possibly forge new psychosocial pathways towards decolonising and reinventing South African universities This work offers a unique conceptual and methodological resource for students and scholars of psychosocial and narrative theory as well as those who are concerned about the politics of higher education both in South Africa and in other contexts around the world *Lukan Joy and the Life of Discipleship* Julie Newberry, 2023-01-02 In this study Julie Newberry advances scholarship on emotions in biblical literature by examining the conditions that is the circumstances dispositions practices and commitments that lead to joy in Luke s narrative Focused primarily on the Gospel the author traces joy s interconnection with the wider life of discipleship using an eclectically interdisciplinary approach that foregrounds literary theological and intertextual analysis Julie Newberry argues that for Luke the conditions that facilitate appropriate joy include both divine action to bring about joy conducive circumstances and human receptivity The latter is bound up with factors such as properly oriented hope trust and the generous use of possessions rendering intelligible Luke s portrayal of joy as mandatory praiseworthy or blameworthy in particular circumstances **The Forms of Informal Empire** Jessie Reeder, 2020-06-23 An ambitious comparative study of

British and Latin American literature produced across a century of economic colonization Winner of the Sonya Rudikoff Prize by the Northeast Victorian Studies Association Spanish colonization of Latin America came to an end in the early nineteenth century as one by one countries from Bolivia to Chile declared their independence But soon another empire exerted control over the region through markets and trade dealings Britain Merchants developers and politicians seized on the opportunity to bring the newly independent nations under the sway of British financial power subjecting them to an informal empire that lasted into the twentieth century In *The Forms of Informal Empire* Jessie Reeder reveals that this economic imperial control was founded on an audacious conceptual paradox that Latin America should simultaneously be both free and unfree As a result two of the most important narrative tropes of empire progress and family grew strained under the contradictory logic of an informal empire By reading a variety of texts in English and Spanish including Sim n Bol var s letters and essays poetry by Anna Laetitia Barbauld and novels by Anthony Trollope and Vicente Fidel L pez Reeder challenges the conventional wisdom that informal empire was simply an extension of Britain s vast formal empire In her compelling formalist account of the structures of imperial thought informal empire emerges as a divergent intractable concept throughout the nineteenth century Atlantic world *The Forms of Informal Empire* goes where previous studies of informal empire and the British nineteenth century have not offering nuanced and often surprising close readings of British and Latin American texts in their original languages Reeder s comparative approach provides a new vision of imperial power and makes a forceful case for expanding the archive of British literary studies *Re-forming Judaism* Stanley Davids, Leah Hochman, 2023-08-07
