Re Marriage:

Remarriage, a Study of Marriage Jessie Bernard, 1956 Recycling the Family Frank F. Furstenberg, Graham B. Spanier, 1987-07 In *Recycling the Family* the authors examine the social psychological and economic aspects of the divorce remarriage transition They demonstrate how and why the process of remarriage is fundamentally different from that of a first marriage and identify the factors that redefine family life including keeping a distance from one's former spouse inheriting stepchildren the convolution of traditional blood and legal relationships and built in expectations of marital instability

Marriage, Divorce, Remarriage Andrew J. Cherlin,1992-09-28 With roller coaster changes in marriage and divorce rates apparently leveling off in the 1980s Andrew Cherlin feels that the time is right for an overall assessment of marital trends His graceful and informal book surveys and explains the latest research on marriage divorce and remarriage since World War II Cherlin presents the facts about family change over the past thirty five years and examines the reasons for the trends that emerge He views the 1950s when Americans were marrying and having children early and divorcing infrequently as the aberration and he discusses why this period was unusual He also explores the causes and consequences of the dramatic changes since 1960 increases in divorce remarriage and cohabitation decreases in fertility that are altering the very definition of the family in our society He concludes with a discussion of the increasing differences in the marital patterns of black and white families over the past few decades

The Demography of Remarriage in Japan James M. Raymo,Erika Teramoto,Shohei Yoda,Miho Iwasawa,Setsuya Fukuda,2024-07-31 This book provides the first comprehensive demographic overview of remarriage in Japan Despite the fact that nearly one in five marriages in Japan now involves at least one formerly married spouse very little is known about the nature of remarriages and how they differ from first marriages One important focus of this book is to examine fertility intentions and outcomes in remarriages and to compare them with marriages in which both partners are in their first marriage It is well known that low rates of first marriage contribute to Japan s very low total fertility rate TFR but there is currently no theoretical or empirical basis for understanding how levels and patterns of remarriage are related to the TFR To understand trends and patterns of remarriage in Japan the book begins with an overview of the voluminous research literature on remarriage in the USA and other Western countries This overview consists of a summary of trends and theoretical frameworks for understanding remarriage and is followed by a summary of existing research on correlates of remarriage and outcomes associated with higher order marriages Of particular importance is the attention paid to stepfamily fertility and the extent to which remarriage is associated with overall levels of fertility An important contribution of this book is its presentation of basic descriptive information about levels and correlates of remarriage in Japan These descriptive analyses are based on published data in the vital statistics reports and individual level data from the National Fertility Surveys conducted by the National Institute of Population and Social Security Research and the National Survey of Households with Children conducted by the Japan Institute for Labour Policy and Training

Defining the New Testament Logia on Divorce and Remarriage in a Pluralistic Context Yordan Kalev Zhekov,2009-01-01

Christian marriage is a permanent union which requires the commitment of both spouses for its maintenance through fulfillment of its stipulations. The failure of the fulfillment of the latter provides legitimate grounds for divorce and remarriage of the innocent party. This work employs a fourfold approach for the development of NT ethical argumentation based on Richard B. Hays' *Moral Vision of the New Testament*. The author establishes the proper contextual grounds for the NT study through formulation of the Old Testament perspective on marriage as covenant. The relevant NT passages are examined through historical critical and narrative critical methods. A critical study of the main Christian traditions leads to an ecumenical formulation of the theological conclusions. Pragmatic implementation of the thesis follows an examination of the contemporary pluralistic context and applications in both Christian communities and the larger society within its legislative system.

Love is not enough. Typical new stepparents and bioparents/co-parents usually find that building a multi-home stepfamily is unexpectedly confusing and conflictual. Most recent stepfamily literature estimates that over half of American co-parents who attempt remarriage after divorce or mate death ultimately re-divorce psychologically or legally despite their love, maturity, commitment, and experience. The notes state that it may be a stepparent's first union. This unique guidebook results from 27 years of research into why so many U.S. couples re-divorce. It appears that there are five factors that combine to often defeat love's brightest dreams: unseen psychological wounds from childhood in stepfamily adults and kids; and blocked grief from two or three major sets of losses in some co-parents and/or stepkids; and co-parent unawareness of their inner family of subelves and related psychological wounds; b) healthy grieving basics; c) vital parenting and relationship skills; and d) stepfamily realities. These factors and high neediness causing one or both partners to commit to wounded unaware people/mate ex-mate stepkids for the wrong reasons at the wrong time and little informed co-parent support available in the media and their community. My work as a stepfamily therapist since 1981 suggests that courting and re-married partners can work patiently at 12 Projects together to overcome these five re-marital hazards and forge a strong nourishing remarriage.
