Resourcing Mission Helen Cameron, 2013-01-03 There is a lively debate about the mission of the local church and an interest in doing new things or doing things differently. However, when church leaders start to work out the implications of change, they immediately come across real issues such as the time, money, and buildings needed and how to make decisions that will change things yet keep most people on board. *Resourcing Mission* offers the missing link between missiological thinking and the practical theological thinking about the task of mobilising local churches. Helen Cameron discusses questions such as the use of available time and money, different models of income, different models of leadership, the use of buildings, changing patterns of risk and regulation, and approaches to decision making. *Resourcing Mission* shows how practical theology and mission and ministry need to work together and draw on each other's resources to strengthen the work of the church.

Everyday Public Worship Susan H. Jones, 2019-04-30 *Everyday Public Worship* has been designed to engage with the ordinary experience and ordinary theology of Christian disciples as they work to develop and deepen their discipleship learning.

Altar Guild and Sacristy Handbook S. Anita Stauffer, 2014-10-17 S. Anita Stauffer's original work for altar guilds has been a fixture in churches everywhere since the 1970s. This fourth revised edition of her classic reflects recent developments in liturgical practice and gives attention to the Evangelical Lutheran Worship family of resources. Altar guild members and sacristans will appreciate the practical and expanded information on caring for the worship space, furnishings, appointments, vestments, and linens; the nuts and bolts of preparing for the sacraments and for funerals, weddings, and other occasional services; and a thorough overview of the church year. Also included are suggestions for organizing the altar guild's work and a helpful glossary. *Altar Guild and Sacristy Handbook* invites you to approach this role not just as a task but as a ministry to the whole assembly in God's service.

Mission-shaped and Rural Sally Gaze, 2006 Using a mix of theological reflection, sociological analysis, case studies, and personal experience, this book explores ways forward for mission in a rural context in both traditional and fresh expressions of church. It offers insights into issues facing rural England and explores the nature of mission with reference to the rural situation.

Melodies of a New Monasticism Craig Gardiner, 2018-03-09 The New Monastic Movement is a vibrant source of renewal for the church's life and mission. Many involved in this movement have quoted Dietrich Bonhoeffer's conviction that the church must recover ancient spiritual disciplines if it is to effectively engage the powers that be. *Melodies of a New Monasticism* adopts a musical metaphor of polyphony—the combination of two or more lines of music—to articulate the way that these early Christian virtues can be woven together in community. Creatively using this imagery, this book draws on the theological vision of Bonhoeffer and the contemporary witness of George MacLeod and the Iona Community to explore the interplay between discipleship, doctrine, and ethics. A recurring theme is the idea of Christ as the *cantus firmus*, the fixed song around which people perform the diverse harmonies of God in church and world, including worship, ecumenism, healing, peace, justice, and ecology.

God's

House is Our House Richard S. Vosko, 2006 The liturgical reforms that have guided congregations over the last few decades have transformed what different denominations know about themselves and their worship Worshipers are no longer spectators but active participants in the ritual acts that once were the possession of the clergy As the liturgy is modified church buildings are altered How does all such change affect the architectural style of church buildings Vosko provides a foundation for building or renovating a place of worship and presents a thorough checklist for spaces art furnishings and appointments He discusses many concerns and offers practical advice He also presents issues that need further consideration in every project **BOOK JACKET**

ecclesiastical spaces Rather than religious art reflecting Christian ideology current practices frequently initiate projects that question the values and traditions of the host space or present objects and events that challenge its visual conventions In the light of these developments this book asks what conditions are favourable to enhancing and expanding the possibilities of church based art and how can these conditions be addressed What viable language or strategies can be formulated to understand and analyse art s role within the church Focusing on concepts drawn from anthropology comparative religion art theory theology and philosophy this book formulates a lexicon of terms built around the notion of encounter in order to review the effective uses and experience of contemporary art in churches The author concludes with the prognosis that art for the church has reached a critical and decisive phase in its history testing the assumption that contemporary art should be a taken for granted element of modern church life *Art and the Church A Fractious Embrace* uniquely combines conceptual analysis critical case studies and practical application in a rigorous and inventive manner dealing specifically with contemporary art of the past twenty five years and the most recent developments in the church s policies for the arts
