Global Security, Safety and Sustainability: Tomorrow's Challenges of Cyber Security Hamid Jahankhani, Alex Carlile, Babak Akhgar, Amie Taal, Ali G. Hessami, Amin Hosseinian-Far, 2015-09-03 This book constitutes the refereed proceedings of the 10th International Conference on Global Security Safety and Sustainability ICGS3 2015 held in London UK in September 2015 The 31 revised full papers presented were carefully reviewed and selected from 57 submissions The papers focus on the challenges of complexity rapid pace of change and risk opportunity issues associated with the 21st century living style systems and infrastructures Interactive TV in the UK Barbara Katz, 2001-07-30 Inhaltsangabe Abstract Interactive Television iTV has been around for several decades Most people have probably heard the term before Having started in the USA with some trials it is now conquering the UK The first interactive services on Digital TV DTV have been broadcasted 18 months ago and are continuously growing in number The four platform providers Sky NTL ONdigital and Telewest are trying to make their interactive services as appealing as possible and are of course offering new advertising opportunities for advertisers on that new medium The aims of this project are to analyse those new advertising opportunities and compare them to advertising on traditional TV and the

Internet and find out whether advertising on iTV combines their strengths and overcomes some of their weaknesses In order to achieve this the literature review focuses on the identification of the strengths and weaknesses of advertising on traditional TV and the Internet and also provides a good overview over the iTV market in the UK and the current developments The UK is leading the way in the development of iTV and is even supposed to be 12 to 18 months ahead of the USA The market is highly competitive and fragmented with the four different platform providers offering three different forms of receiving DTV of which satellite is leading in the numbers of subscribers The predictions of the DTV uptake are very positive and the spendings for advertising on iTV are supposed to be tremendous within the next couple of years The results of the interviews carried out with iTV experts from the platform providers media and advertising agencies show that advertising on iTV indeed combines the strengths and overcomes some weaknesses and has the potential to be more successful than its two closest relatives Due to the fact that it is still in its infancy and companies are just starting to test this new medium and no success stories have been published so far advertising on iTV in its current form is not yet the killer application it was supposed to be and the uptake of T commerce is quite questionable as well It also becomes clear though that iTV does have a great potential and when the technology is creatively used to make ads more involving and engaging it will be big

Is Basic Income Within Reach? Wayne Simpson, 2021-02-22 This book examines the evolution of basic income policy and research in advanced economies and is divided into two parts The first section considers the development of basic income as a social policy initiative in advanced OECD nations from the 1960s to today It reviews what the negative income tax experiments accomplished their limitations and what they can lend to the design and implementation of basic income pilots or a full blown basic income program today It also considers important developments and research in poverty and economic inequality and in technological change and labour market adjustment over the last half century The second section focuses on the Canadian case where the prospects for basic income are perhaps among the most promising In addition to a review of Mincome and its lessons and limitations this section considers important developments in poverty research by the Economic Council of Canada and the Canadian Senate in the 1960s attempts at welfare reform and the policy initiatives to develop a basic income for elderly Canadians that has endured to this day Many of the important social and technological developments that are reviewed in the first part will be discussed in more detail with specific reference to the Canadian case The evolution of the important policy innovations the National Child Benefit and its successors and the Poverty Reduction Strategy are outlined in detail and linked to other more modest income support initiatives such as the federal sales tax credit that provide a potential foundation for a comprehensive basic income plan in Canada Research including recent microsimulation studies of a basic income are critically reviewed Although the COVID 19 pandemic has increased interest in basic income to support those hardest hit the book argues for careful design of basic income policies in its aftermath rather than simplistic adoption of emergency pandemic measures
