## **Reader On The Law Of The Business Enterprise Selected Essays:**

*A Reader on the Law of the Business Enterprise* Sally Wheeler, 1986 The study of company law is often seen as a tedious journey through complex statutes enlivened only by occasional glimpses of judicial activity By contrast the real activities of firms both small and large family firms and multi nationals are dynamic and fast changing Company lawyers writing in the traditional texts tend to overlook the real nature of corporate activity and the rules fail to link the ways in which companies behave in pursuit of their economic goals Despite the growth during the last 30 years of research into company law in action the textbooks have not changed In this the first book of its kind to be published in the UK the author draws together the best and most interesting recent research into companies thus enabling students to gain a better and more profound understanding of company law as it affects modern corporations

### **Principles of Corporate Finance Law** Eilís

Ferran, Elizabeth Howell, Felix Steffek, 2023-09-21 Corporate finance theory seeks to understand how incorporated firms address the financial constraints that affect their investment decisions This is achieved by using varied financial instruments that seek to give holders different claims on the firm's assets Recent scholarship in this area has highlighted the critical importance of the legal environment in explaining the choices that companies make about their capital structure This book combines company law capital markets law and aspects of commercial and insolvency law to give readers a detailed understanding of the legal and regulatory issues relating to corporate finance Informed by insights from theoretical and empirical work the book examines from a legal perspective the key elements of corporate financing structures and capital markets in the UK The authors practical experience of transactions and regulatory issues ensures that thorough scholarly inquiry and critical reflection are complemented by an assured understanding of the interface between legal principles and rules as they are documented and in their actual operation Key developments covered in this third edition include the post Brexit adaptation of UK company law and capital market regulation important new cases on parent company liability in tort creditor facing duties of directors issuer and director liability for misleading statements to the market alternatives to public market financing and recent changes in the practice of debt finance such as the emergence of non bank lenders
