Reading Achievement Grade 8:

Reading Achievement State by State, 1999, 1999 **Reading**, 2005 *Resources in Education*, 2000 *Data for the National Education Goals Report*, 1995 **NAEP ... Reading Report Card for the Nation and the States**, 1996 *Data Volume for the National Education Goals Report*, 1994 *The National Education Goals Report*, 1993 **Reading Framework for the 2009 National Assessment of Educational Progress (NAEP)**, *Emerging Trends in the Development and Application of Composite Indicators* Jeremic, Veljko, Radojicic, Zoran, Dobrota, Marina, 2016-09-12

Perceiving complex multidimensional problems has proven to be a difficult task for people to overcome. However, introducing composite indicators into such problems allows the opportunity to reduce the problem's complexity. *Emerging Trends in the Development and Application of Composite Indicators* is an authoritative reference source for the latest scholarly research on the benefits and challenges presented by building composite indicators and how these techniques promote optimized critical thinking. Highlighting various indicator types and quantitative methods, this book is ideally designed for developers, researchers, public officials, and upper-level students.

NAEP 1994 Reading Report Card for the Nation and the States Jay R. Campbell, 1996. This report describes students' reading achievements at grades 4, 8, and 12 and within various subgroups of the general population. State-level results are presented for individual states that chose to participate in the 1994 Trial State Assessment. Chapter 1 presents an overview of the 1994 NAEP reading assessment and sample questions and responses. Chapter 2 provides overall average proficiency results for the nation, regions, subgroups of students, and jurisdictions participating in the Trial State Assessment. Chapter 3 describes students' reading performance in terms of achievement levels. Chapter 4 focuses on cross-state comparisons of proficiency results from the state-by-state assessment at grade 4. Chapter 5 describes contextual factors related to students' reading achievement. Chapter 6 describes specific abilities demonstrated by students in the NAEP reading assessment and reports student performance when reading for different purposes. The most striking finding from the 1994 assessment is that the average reading proficiency of 12th-grade students declined significantly from 1992 to 1994. Other major findings include: 1) the decline in average proficiency among 12th graders between 1992 and 1994 was concentrated among lower-performing students; 2) reading proficiency at all three grade levels was higher on average for students whose parents had more education; 3) at all three grade levels, female students had higher average reading proficiencies than male students; and 4) students who reported having a greater array of literacy materials in their homes displayed higher average reading achievement. Contains 38 tables and 23 figures of data. Appendixes provide an overview of procedures used in the 1994 assessment and describe students' reading performance, cross-state proficiency and achievement level results, and sample texts and questions.
