Teaching American Literature in Spanish Universities Carme Manuel Cuenca, 2002 Uno de los aspectos más valiosos de este libro es que comienza enlazando a través de los dos primeros artículos la educación universitaria

con su nivel inmediatamente anterior la escuela de secundaria una conexión que a menudo se olvida con serios resultados para ambos. En este sentido Benito Camacho Martín el autor de uno de los artículos realiza un análisis crítico y en cierto modo dogmático sobre el declive de la enseñanza de literatura en las escuelas de secundaria tanto en horas dedicadas como en conocimientos adquiridos. Los otros artículos algunos en inglés y otros en castellano tratan distintos aspectos de la enseñanza de literatura norteamericana con un énfasis manifiesto en materiales del siglo XX y sobre todo en la literatura afroamericana de hecho el libro resultará particularmente útil para los profesores de este último.

Studying Language through Literature
 Emilia Di Martino, Bruna Di Sabato, 2014-11-10 Studying Language through Literature invites readers to reconsider the opportunity represented by literary texts for language related purposes. Despite the close relationship between literature and language in educational contexts literature is frequently associated with teaching practices which have been judged to be unsuccessful. Subsequently texts of the non literary type are preferred on the basis that they are authentic and closer to real language. The everlasting relationship between language and literature is here reassessed starting from two assumptions: literature is the expression of an emphasized perception of reality be it private collective or pertaining to a certain temporal spatial context and literary language is language in its utmost form. Following an outline of the philosophy that governs the book each chapter presents specific insights on the use of the various different literary genres namely fiction poetry and drama. The opportunities offered by translation in the foreign language classroom constitute a recurrent theme throughout the book although Chapter 5 is entirely devoted to translation criticism. The closing pages put forward a few reflections on assessment. While offering some food for thought in order to reassess the role of literature in the language class this book puts together ideas considerations and suggestions from which the reader is free to pick mix and adjust exploiting them to her/his greatest benefit.
