Reading Boileau:

Reading Boileau Robert T. Corum, 1998 In French literary history Nicolas Boileau 1636 1711 has enjoyed legendary status as the great codifier of French classicism the discerning critic who could demolish or elevate several generations of French poets This view of Boileau s role has lead to an emphasis on his poetics not his poems which in turn has generated general disdain for his poetic art Robert Corum dispels these misconceptions about Boileau by focusing rigorous critical attention on Boileau's first nine Satires and the accompanying Discours au roy composed between 1657 and 1668 His reading takes into account a number of factors including sources genesis relation to one another coherence and continuity of argument This examination reveals Boileau to be a gifted poet not just a talented versifier or a strait laced mouthpiece for French classical doctrine Wordsworth's Reading 1770-1799 Duncan Wu,1993-01-29 A directory of authors and books read by Wordsworth before the age of thirty Boileau and the Nature of Neoclassicism Gordon Pocock, 1980-06-19 Boileau has traditionally been regarded as the spokesman of French neo classicism but some elements of scholarship have discounted the importance of neo classical doctrine in general and of Boileau s particular contribution to it Many critical approaches have stressed instead the liveliness and wit of Boileau s poems his love of language and his passionate temperament Mr Pocock uses these critical approaches to demonstrate in detail how Boileau s verve love of contrasts and essentially dramatic imagination animate the major poems But he also argues that such approaches do not in themselves suffice to explain Boileau s special qualities Neo classicism was an important element in the intellectual life of Europe in the most critical period of the decline of Christianity and the rise of rationalism and science Mr Pocock proposes a reformulation of those views which take account not only of modern criticism but also of Boileau's commitment to neo classicism and his embodiment of it in his work Boileau and the French Classical Critics in England, **Community and Solitude** Anthony W Lee, 2019-04-22 This collection explores relationships between Samual Johnson and several of his main contemporaries James Boswell Edmund Burke Frances Burney Robert Chambers Oliver Goldsmith Bennet Langton Arthur Murphy Richard Savage Anna Seward and Thomas Warton and analyzes some of the literary productions emanating from the pressures within those relationships The Poetry of Translation Matthew Reynolds, 2011-09-29 A very wide ranging book which launches a new theory of poetry translation and pursues it through readings of poem translations from across the history of English literature It engages with the key debates in translation studies and offers new interpretations of major works such as Pope s Iliad Pound s Cathay and Dryden s Aeneis **Boileau and the French Classical Critics in England** (1660-1830) Alexander Frederick Bruce Clark, 1925 The Female Reader in the English Novel Joe Bray, 2008-09-25 In the second half of the eighteenth century the female reader was a frequent topic of cultural debate and moral concern This book examines the variety of ways in which women read the social world in the late eighteenth and early nineteenth century novel Salonnières, Furies, and Fairies, revised edition Anne E. Duggan, 2021-08-27 The original edition of Salonni res

Furies and Fairies published in 2005 was a pathbreaking work of early modern literary history exploring women s role in the rise of the fairy tale and their use of this new genre to carve out roles as major contributors to the literature of their time This new edition with a new introduction and a forward by acclaimed scholar Allison Stedman emphasizes the scholarly legacy of Anne Duggan's original work and its continuing field changing implications. The book studies the works of two of the most prolific seventeenth century women writers Madeleine de Scud ry and Marie Catherine d Aulnoy Analyzing their use of the novel the chronicle and the fairy tale Duggan examines how Scud ry and d Aulnoy responded to and participated in the changes of their society but from different generational and ideological positions. This study also takes into account the history of the salon an unofficial institution that served as a locus for elite women's participation in the cultural and literary production of their society In order to highlight the debates that emerged with the increased participation of aristocratic women within the public sphere the book also explores the responses of two academicians Nicolas Boileau and Charles Perrault The Theory of the Sublime from Longinus to Kant Robert Doran, 2015 The first in depth treatment of the major theories of the sublime from Longinus to Kant The Shape of Change, 2021-11-01 In The Shape of Change Anne L Birberick and Russell Ganim bring together essays by fourteen established scholars who dedicate their studies to David Rubin as they explore the ways in which artistic endeavor shapes and is shaped by literary memory. The volume is divided into two sections The first section Continuity and Discontinuity offers essays by Jody Enders Timothy Reiss Twyla Meding Marie Odile Sweetser Robert Corum Jr and the editors themselves and considers the ways in which seventeenth century authors draw upon generic conventions or diverse artistic media to create works that reflect the aesthetic and moral values of their time The second section entitled La Fontaine focuses primarily on Jean de La Fontaine s masterpiece Les Fables Here the problem of imitation and innovation as it relates to genre influence and literary reputation is examined in essays by Jules Brody Richard Danner Judd Hubert Catherine Gris Michael Vincent Nicholas Cronk and Ralph Albanese Jr The Shape of Change serves as a fine scholarly contribution to the studies of French seventeenth century literature and La Fontaine The essays are thoughtful as well as thought provoking and the volume s critical diversity is nicely balanced by its thematic coherence In its ability to stimulate new thinking this collection of essays will be of interest to both students and scholars of MLN. ,1886 Provides image and full text online access to back issues Consult the online table of early modern France contents for specific holdings Nicolas Boileau Julian Eugene White, 1969 This book is designed primarily for an English speaking audience of non specialists most of whom have not read much of Boileau The method used has been to study each poem or prose work by means of fairly close textual analysis and paraphrasing of Boileau s own words with introductory and summary passages to situate the work in relation to contemporary events and the poet s entire production Biographical information has been held to the minimum required for an adequate understanding of the man and his works Gauss: Titan of Science Waldo Dunnington, Jeremy Gray, 2020-08-03 Building Academic Literacy Audrey Fielding, Ruth
