Reading Fiction:

Reading Fiction in Antebellum America James L. Machor, 2011-04-01 James L. Machor offers a sweeping exploration of how American fiction was received in both public and private spheres in the United States before the Civil War. Machor takes four antebellum authors: Edgar Allan Poe, Herman Melville, Catharine Sedgwick, and Caroline Chesebro, and analyzes how their works were published, received, and interpreted. Drawing on discussions found in book reviews and in private letters and diaries, Machor examines how middle-class readers of the time engaged with contemporary fiction and how fiction reading evolved as an interpretative practice in nineteenth-century America. Through careful analysis, Machor illuminates how the reading practices of nineteenth-century Americans shaped not only the experiences of these writers at the time but also the way the writers were received in the twentieth century. What Machor reveals is that these authors were received in ways strikingly different from how they are currently read, thereby shedding significant light on their present status in the literary canon in comparison to their critical and popular positions in their own time. Machor deftly combines response and reception criticism and theory with work in the history of reading to engage with groundbreaking scholarship in historical hermeneutics. In so doing, Machor takes us ever closer to understanding the particular and varying reading strategies of historical audiences and how they impacted authors' conceptions of their own readership.

Why Women Read Fiction

Helen Taylor, 2019-12-05 Ian McEwan once said, "When women stop reading the novel will be dead." This book explains how precious fiction is to contemporary women readers and how they draw on it to tell the stories of their lives. Female readers are key to the future of fiction and, as parents, teachers, and librarians, the glue for a literate society. Women treasure the chance to read alone but have also gregariously shared reading experiences and memories with mothers, daughters, grandchildren, and female friends. For so many, reading novels and short stories enables them to escape and to spread their wings intellectually and emotionally. This book, written by an experienced teacher, scholar of women's writing, and literature festival director, draws on over 500 interviews with and questionnaires from women readers and writers. It describes how, where, and when British women read fiction and examines why stories and writers influence the way female readers understand and shape their own life stories. Taylor explores why women are the main buyers and readers of fiction, members of book clubs, attendees at literary festivals, and organisers of days out to fictional sites and writers' homes. The book analyses the special appeal and changing readership of the genres of romance, erotica, and crime. It also illuminates the reasons for British women's abiding love of two favourite novels, *Pride and Prejudice* and *Jane Eyre*. Taylor offers a cornucopia of witty and wise women's voices of both readers themselves and also writers such as Hilary Mantel, Helen Dunmore, Katie Fforde, and Sarah Dunant. The book helps us understand why, in Jackie Kay's words, "our lives are mapped by books."

Why We Read Fiction Lisa Zunshine, 2006 *Why We Read Fiction* offers a lucid overview of the most exciting area of research in contemporary cognitive psychology known as Theory of Mind and discusses its implications for literary studies. It covers a

broad range of fictional narratives from Richardson's *Clarissa* Dostoyevski's *Crime and Punishment* and Austen's *Pride and Prejudice* to Woolf's *Mrs Dalloway* Nabokov's *Lolita* and Hammett's *The Maltese Falcon* Zunshine's surprising new interpretations of well known literary texts and popular cultural representations constantly prod her readers to rethink their own interest in fictional narrative Written for a general audience this study provides a jargon free introduction to the rapidly growing interdisciplinary field known as cognitive approaches to literature and culture

Why Reading Books Still Matters Martha C. Pennington, Robert P. Waxler, 2017-08-29 Bringing together strands of public discourse about valuing personal achievement at the expense of social values and the impacts of global capitalism mass media and digital culture on the lives of children this book challenges the potential of science and business to solve the world's problems without a complementary emphasis on social values The selection of literary works discussed illustrates the power of literature and human arts to instill such values and foster change The book offers a valuable foundation for the field of literacy education by providing knowledge about the importance of language and literature that educators can use in their own teaching and advocacy work

Reading Novels During the Covid-19 Pandemic Ben Davies, Christina Lupton, Johanne Gormsen Schmidt, 2022-10-20 Drawing on an ethnographic study of novel readers in Denmark and the UK during the Covid 19 pandemic this book provides a snapshot of a phenomenal moment in modern history The ethnographic approach shows what no historical account of books published during the pandemic will be able to capture namely the movement of readers between new purchases and books long kept in their collections The book follows readers who have tuned into novels about plague apocalypse and racial violence but also readers whose taste for older novels and for re-reading novels they knew earlier in their lives has grown Alternating between chapters that analyse single texts that were popular Albert Camus's *The Plague* Ali Smith's *Summer* Charlotte Brontë's *Jane Eyre* and others that describe clusters of for example dystopian fiction and nature writing this work brings out the diverse quality of the Covid 19 bookshelf Time is of central importance to this study both in terms of the time of lockdown and the temporality of reading itself within this wider disrupted sense of time By exploring these varied experiences this book investigates the larger question of how the consumption of novels depends on and shapes people's experience of non work time providing a specific lens through which to examine the phenomenology of reading more generally This timely work also negotiates debates in the study of reading that distinguish theoretically between critical reading and reading for pleasure between professional and lay reading All sides of the sociological and literary debate must be brought to bear in understanding what readers tell us about what novels have meant to them in this complex historical moment
