that grew up watching the weird the eerie and the horrific the essence of 21st century Hauntology In these terms this book is not about children s television as it exists now but rather as it features as a facet of memory in the 21st century As such it is the legacy of these television programmes that is at the core of Horrifying Children The haunting of adults by what we have seen on the screen is crucial to the study This collection directly addresses that which scared us in the past inasmuch as there is a correlation between individual and collective cultural memory with some chapters providing an opportunity for situating existing explorations and understandings of Gothic and Horror TV within a hauntological and experiential framework *The Hope Weaver* Christy R.
